

Southern Democrats Should Look Before 'Leaping'—McSwain

Negro Vote Put Hoover Over At Kansas City. Local Lawyer Declares.

In a statement issued here yesterday by Democratic leaders, Capt. Peyton McSwain, presidential elector and former Cleveland county representative, declared that there are ten reasons why no Southern Democrat should vote the Republican ticket in November.

Capt. McSwain was quoted as follows:

"There are more than a thousand reasons why a good Southern Democrat cannot afford to vote for Herbert Hoover in this campaign. And we must remember that failing to vote for Smith simply counts as one more vote for Hoover. Surely our memory is not so short, that we have forgotten the history of all past and we are now ready to give aid and comfort to the party that has been our enemy in the past. Herbert Hoover is a Republican. He is running for president as their candidate. He stands for all the things the Republican party stands for, and has stood for in the past. Least we forget, let us recall some of the things the Republican party stands for, and see if we should aid and assist in the election of Hoover's and the Republican party by failing to support Governor Smith in this campaign.

Hurt Farmers.

"First: The Republican party by its failure to develop Muscle Shoals and convert same into a fertilizer plant has robbed every farmer in the South out of from \$20.00 to \$25.00 on every ton of nitrate of soda purchased by him during the past eight years.

"Second: During the past administration the Republican party enacted a law prohibiting the shipment of goods manufactured in Southern mills outside the state in which they were made on account of labor conditions which they claimed existed in the South. The cotton mills of the South were saved from this iniquitous legislation by the supreme court, which declared the law to be unconstitutional.

"Third: The Dyer anti-lynching bill was sponsored by the Republican party in this last session of congress and was defeated by a filibuster in the senate by Democratic senators. The Republican party has endorsed this measure in its platform, which if enacted would bankrupt any county in the South in which a lynching occurred.

Negro Equality.

"Fifth: The Republican party forced upon the South the adoption of the fourteenth and fifteenth amendments to the constitution. Neither of which has ever been enforced in the South because the Democratic party stands for white supremacy.

"Sixth: The national Republican party does not believe in or practice white supremacy. Anyone doubting this statement let him visit any Republican state north of the Mason and Dixon line.

"Seventh: Herbert Hoover abolished the segregation order in his office in Washington and forced the whites and the negroes to work side by side in his office in order to get the negroes negro vote in Ohio, when he was running for the nomi-

nation for president on the Republican ticket.

Helped Hoover.

"Eighth: At the Republican national convention, where Hoover was nominated, there were fifty negro delegates seated with the white Republicans. Ten negroes present as alternates, and a negro on the platform as reading clerk. A negro by the name of John R. Hawkins was called to the platform and made a speech seconding the nomination of Mr. Hoover. Every negro present in the convention voted for Hoover. A negro was appointed on the committee to notify Mr. Hoover that he had been nominated. And there were also present in this convention two negro women as national committeewomen from their states. Our good Republican friends in North Carolina do not believe in that kind of stuff, yet they will walk up blindly to the polls and vote for Hoover.

"Ninth: Mr. Dyer, Republican congressman and author of the lynching bill, recently stated, 'After the solid South has been blown to pieces by Engineer Hoover, our next president, that will be the finish of the nullificationists of the South, who have for sixty years violated the fourteenth and fifteenth amendments.' 'Then congress will enact enforcement laws that will give millions of negroes their constitutional rights as citizens and place them on an equality with all other races.' If there is any North Carolina Democrat that agrees with Mr. Dyer and Hoover on this proposition, then he ought to refuse to vote for Smith and thus help elect Hoover.

"Tenth: Tammany Hall and the Democrats of the North have come to our rescue in every crisis and on every occasion when we of the South have been assaulted and threatened by the Republican party of the North. If we should fail to stand by the national Democratic ticket in this election and thus cause the defeat of Smith, then to whom shall we look in the future for protection?"

INDIANS SEE AL AS NEW LINCOLN

New York, Oct. 12.—A telegram to Governor Smith from Indians of the Taos Pueblo in northern New Mexico was made public tonight at Democratic national headquarters. "We knew President Lincoln and we understand you have the same things in mind that he had when he promised that our lands would not be taken away from us and that our freedom would be preserved," the telegram said. "There have been so many presidents, but this is the first time since President Lincoln that we have heard things like you say. We thank you."
