Don't Be Deceived Use Your Head

And remember that a dollar will only buy a dollar's worth of goods. A get-rich-quick scheme is dangerous, likewise buying cheap, inferior merchandise and trying to make yourself believe you have the better end of the deal and that the man who sold you goods didn't know what they were worth.

THIS HAPPENS

Every day in the purchase of musical instruments of every description. If you will only compare the Orthophonic Victrola with any and all of the cheap so-called Phonographs, you will then come to realize the vast difference between them.

FOR 22 YEARS

Our store has been the home of the Victrola in Shelby. We have several thousand satisfied customers, who have bought Pianos, Victrolas and Radios from us. Our business has grown from year to year—based on a square deal and honest merchandise sold to an honest, intelligent people at a fair price.
