Thanksgiving Joys Being Crowded Out

Tiny Apartments With Tiny Dining Rooms Not Suited To Celebration.

Only the small town and rural America know the joys of the old-fashioned Thanksgiving nowadays. In the cities the celebration of the traditional American feast day is being crowded out by tiny apartments with tiny dining rooms and tinner kitchens.

This, at least, is how Walter Pritchard Eaton sees it. In an editorial in the American home he describes a modern city Thanksgiving:

"It is a trifle difficult to wax sentimental over Apartment B, 8th floor as the old homestead, especially when you didn't move in until last May. Besides, the kitchen isn't big enough to cook an 18-pound turkey, let alone four mince pies, two pumpkin pies and a pudding. Anyhow, the cook never heard of mince pies.

"Cousin Jane's apartment on 48th street is no bigger. Hang it all—lets get the Jones and go down to a hotel. They are putting on a special dinner at the Biltford. We can go to a show afterwards. . . . And that is the new Thanksgiving in urban America, the poor, jale ghost of the old, with no particular reason for existence any more, except that traditions die hard.

"But isn't this one too fine to let die? Shall we not on Thanksgiving Day, though our dwelling be a tiny apartment, make it a home where those nearest and dearest shall rally—even if they are a bit crowded—pushing the world into the background and giving us, especially the young folk, that sense of family affection and solidarity and mutual interest on which our nation rose to strength."

SON OF PRESIDENT TO SPEAK IN STATE

Raleigh.—One of the newest and best accessions to the list of high-powered speakers by Democratic headquarters here is Richard Cleveland, son of the late President Grover Cleveland, who will speak in Greenville on November 2 and in New Bern on November 3, according to announcement from headquarters.

Mr. Cleveland has been speaking extensively in the east and has been making a number of radio speeches over the national network, and has been proving one of the most effective campaigners in the country, according to campaign officials here. Several of them have listened to some of his radio addresses, and say that he is a most effective speaker.

Consequently it is felt that the coming of Mr. Cleveland to the state in the final days of the campaign, and especially to Greenville and New Bern, both located in more or less doubtful territory, will materially assist the campaign in this state.

The fact that Mr. Cleveland is

STATE COMPLETES TUBERCULIN TEST

North Carolina is the first state to complete systematic tuberculin testing of all cattle within its borders, thereby becoming the first entire state to be classed as "modified accredited area."

A "modified accredited area" is one in which less than one-half of

one per cent of the cattle are infected with tuberculosis as shown by official test.

Approximately 600,000 cattle were tested during the campaign which began in 1917, and was completed in October, 1928.

Of the 3,877 tuberculous cattle removed by the test, 700 were diseased to such an extent that the

disease had become generalized. Compensation paid the farmers for condemned cattle by the state and federal governments totalled \$150,000.

Of the 100 counties in the state there were 12 in which no tuberculous cattle were found.

North Carolina has a human population of 2,897,000.

OUR BIG ATTRACTION

Is trying to do the impossible — please everybody. Some job, we'll admit, but no harm trying. We're glad that we're not in the fix President Kemal of Turkey was recently in; he employed four doctors to remove a pimple; gosh, how many doctors would it take if Kemal ever got the measles? It is possible, however for us to supply you with a better grade of gas and oil at the usual standard prices. We have selected Sinclair gas and Opaline oil to back our reputation because of its purity and dependability.

WOMEN'S PAINS

They Were Relieved by Cardui Which This Georgia Lady Took on Her Mother's Advice.

Columbus, Ga.—"I don't see why women will drag around, in a half-hearted way, never feeling well, barely able to drag, when Cardui might help put them on their feet, as it did me," says Mrs. Geo. S. Hunter, of this city.

"I suffered with dreadful pains in my sides. I had to go to bed and stay sometimes two weeks at a time. I could not work, and just dragged around the house. I got very thin. I went from a hundred and twenty-six pounds down to less than a hundred. My mother had long been a user of Cardui, and she knew what a good medicine it was for this trouble. So she told me to get some and take it.

"I sent to the store for Cardui, and before I had taken the first bottle I began to improve. My side hurt less, and I began to mend in health. I took the second bottle, and felt much better. I followed this by two more bottles.

"Cardui acted as a fine tonic. I do not feel like the same person. I am well now, and still gaining. My sides do not trouble me at all."

Mrs. Skahan's Opinion of Pinkham's Compound

Saugus Centre, Mass.—"I have taken 10 bottles of Lydia E. Pinkham's Vegetable Compound, and would no more be without a bottle in the house than I would be without bread. It has made a new woman of me. I used to be so cross with my husband when I was suffering that I don't know how he stood me. Now I am cheerful and strong and feel younger than I did ten years ago when my troubles began."—Mrs. JOHN SKAHAN, 20 Emory St., Saugus Centre, Mass.
