 And Going.**

(Special to The Star.)
 Shelby R-2.—Many of the young people are at home from the different schools and colleges and all seem to be having had a Merry Christmas.

Misses Essie and Ruth Hunt entertained a number of their friends at their home Tuesday evening. A number of interesting games were enjoyed by those present.

Mr. Clive Harrill who teaches in the school at Polkville is spending the holidays at home.

Miss Eugenia Rollins is at home from Fallston for the Christmas vacation.

Mr. Hugo Bridges is visiting his parents Mr. and Mrs. J. C. Bridges.

Mr. and Mrs. Wilburn Putnam and little daughter of Lattimore were guests of Mr. and Mrs. L. C. Putnam Tuesday.

Mr. Taft Putnam of Durham spent a few days in the community recently.

Miss Maude Rollins of Shelby spent Christmas day at the home of her mother, Mrs. J. H. Rollins.

Mr. and Mrs. Thurman Hamrick and daughter, Miss Selma Hamrick and Mr. and Mrs. Ector Harrill and children were visitors at the home of Mr. and Mrs. W. L. Harrill during the holidays.

Miss Oveda Putnam is at home from Boone for the week.

Mr. and Mrs. L. E. Weaver of Gaffney spent Tuesday with relatives in this community.

Mr. and Mrs. Rome Hanes of Morgentown visited Mr. and Mrs. Will Weaver recently.

Miss Etha Putnam who teaches in Chatham county is spending the holidays at the home of her parents Mr. and Mrs. L. R. Putnam.

Mr. and Mrs. J. M. Hunt and children visited relatives in Ruthertford county Tuesday and Wednesday.

Mr. and Mrs. Bill Daves of Ellettsboro were visitors in this section Wednesday.

Mr. Andrew Hunt was at home from Shelby Tuesday.

**SAY THREE WISE MEN
 WERE LED BY COMET**

Paris, Dec. 27.—The three wise men in Biblical history were led to the manger of the Christ child in Bethlehem by a comet, according to modern French astrology leaders.

The Star of Bethlehem never existed as a star outside of a legend, the astronomers contend. Many of the greatest French astronomers have puzzled over the luminary which according to the Bible, first appeared to the shepherds 1,928 years ago.

M. Baillaud, director of the famous Paris Observatory, and M. Joseph, chief of the Saint Maur observatory, both contend that the star which guided the wise men has never figured in astronomical history, in Biblical history they find mention of it.

**Mr. Harmon Moves
 To Charlotte Today**

Mr. J. A. Harmon moves today with his family to Charlotte to make their home. Mr. Harmon will manage a store in the Queen City for Linton Wray, a former Shelby citizen.

**NEWS
 YEAR'S
 GREETINGS**

New Year is speeding around the world with the greeting of happiness and prosperity to all for the coming twelve months. The outlook for us in this country is particularly bright. There is prospect of prosperity in abundance. In your share of the good times do not overlook us. WE are anxious for your business. We shall be pleased to serve you.

**Help Check
 Influenza!**

**Local People Urged to Help
 Prevent Epidemic Spreading**

**Eat Wisely, Exercise Regularly,
 Keep Away From Crowded Places
 and Treat All Colds Promptly**

Medical authorities now agree that influenza is a germ disease—most commonly spread by breathing in the germs. If the system is in good shape—the membrane of the air passages in a healthy condition—these germs do not usually breed. It is only when the bodily resistance is lowered that the germs do the most harm.

**Start Protective
 Treatment at Once**

Right now while influenza is so prevalent every precaution should be taken to protect the air passages. When you feel one of these "Flu Colds" coming on don't wait; start the following treatment at once:

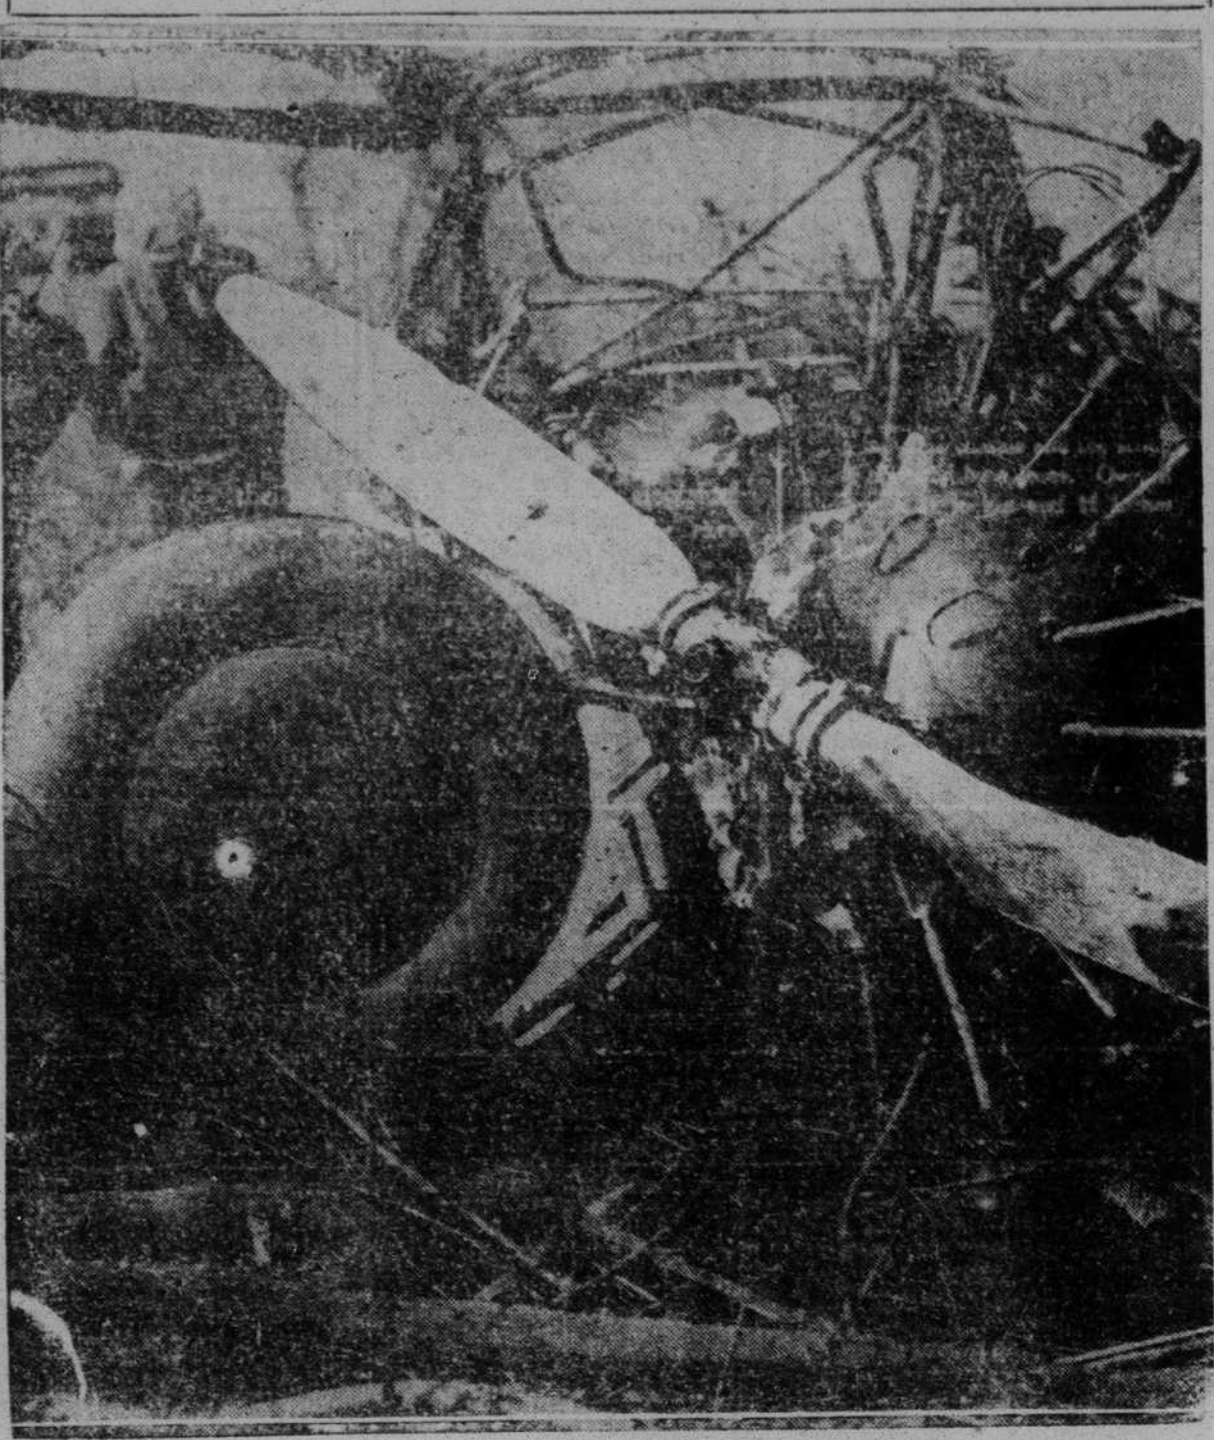

Get a jar of Vicks VapoRub and place some up each nostril, or melt some in a bowl of hot water and inhale its medicated vapors. This helps to keep the air passages in a healthy condition, thus making it difficult for the germs to breed.

**Avoid Crowds and
 Use Vicks Freely**

It is best to keep away from sneezers and coughers in street cars and public places. If you must go out in crowded places insert some Vicks up each nostril before starting out. On returning home melt some Vicks in hot water and inhale the vapors. This is a simple precaution which everyone should take to prevent the flu spreading as it did in 1918 when millions of lives were lost.

Four Killed in Plane Crash

FOUR KILLED AND ONE ESCAPES DEATH.
 Photo shows the burned and twisted wreckage of the giant six-passenger cabin monoplane of the Interstate Air Lines, operating between Chicago and Atlanta, after it crashed Sunday in a suburb of Chattanooga. The plane was going south from Chicago and two passengers and two pilots were killed. One man escaped with his life, receiving only minor injuries.—Photo by International Newsreel.

(Special to The Star.)
 Born to Mr. and Mrs. C. C. Goode at the Shelby hospital Saturday, a little daughter, which lived only a few hours. The remains were taken to the family cemetery at Racepath and interred there Sunday afternoon. They have the sympathy of their many friends.

Mr. and Mrs. Ernest White arrived from Monroe, La., last week and are spending the holidays with Mrs. Ida McBrayer. Mr. White has accepted a position with Liddell company of Charlotte with headquarters in Fayetteville.

Mr. and Mrs. John Mintz and Mrs. Rosina Grigg spent Saturday in Spartanburg, S. C.

Misses Jessie Henderson and Lucille Buchanan spent the past week with relatives in Greenville, S. C.

The following college girls and boys are spending the holidays here: Misses Sarah Lee Hamrick, of Limestone, Evelyn Huggins, of Coker, Aileen Biggestaff, Ruth Hamrick and Bertie Cash of Asheville Normal, Elizabeth Hamrick of Meredith; Messrs. Charles R. Hamrick, Garren Gladden and Sam Hicks of Shenandoah college, Vic Moore of Tulane University, Graham Greene and Dwyre Huggins of Furman, Travis White and Stanley Greene of N. C. State, Charles J. Hamrick and D. J. Hamrick, of Wake Forest.

Mr. Edwin White of Raleigh is spending the holidays with his parents Mr. and Mrs. R. M. White.

The following teachers are spending the holidays here with home folks: Misses Estelle Walker, Kate Moore, Ollie Moore Moxelle Biggestaff.

Miss Mildred Goode and little Jimmy McBrayer of Raleigh are spending the holidays here with relatives.

Mr. and Mrs. Paul Ritch and children, of Columbia, S. C., spent the past week-end here with Mr. and Mrs. Ladd Hamrick.

Mr. Carl Latham of the college here is confined to his room in the dormitory with flu. Prof. H. G. Hammett is caring for him during the holidays.

Misses Lois and Winfrey Hamrick of Charlotte are spending this week here with their home folks.

Mr. and Mrs. Dean White are spending several days of this week in Cherokee, S. C.

Mr. and Mrs. J. L. Ledford and family have moved to Shelby. We regret very much their departure from our midst but good wishes follow them to their new home.

with flu are as follows: Mr. and Mrs. T. G. Lee, Mr. McMurry, Mr. and Mrs. Jabez Hamrick, Mr. H. B. Greene, Mr. Z. O. Holland.
 Miss Johnnie Mae McBrayer is spending this week with Miss Helen Blanton at Tryon.

A Card Of Thanks.
 We wish to thank our neighbors and friends for their many acts of kindness shown us during the illness and death of our dear father and husband. We especially wish to thank Dr. Moore for his loyal service. May God's richest blessings rest upon each and everyone of you.
 Mrs. J. B. H. Hamrick and Children.

**Dry spots on bearings
 and on cylinder walls
 cause the wear
 that few
 oils
 can prevent—
 but here's
 the proof of how
 this oilier oil
 clings to metal
 longer
 and saves
 your motor**

"STANDARD" MOTOR OIL
 Standard Greases, Transmission Oil and Gear Compound are made with the same care as "Standard" motor fuels and motor oils.

Clings to Metal Better
 he Purpose:
 To test the capacity for various motor oils to cling to metal.
 The Test:
 A rolled steel plate—1 inch thick and about 2 inches long—suspended by light wire, was dipped in "Standard" Motor Oil and another well-known oil at varying temperatures, namely 100°, 200°, 300°, and 400° F. After draining for one hour at the same temperature, the oil then clinging to the plate was in each case carefully weighed.
 The test was then continued with the same two oils, taken from the crank-cases of test cars at the end of 170 miles and 600 miles of use. These drainings were subjected to the same tests as the original samples and under the same temperature conditions.
 The Results:
 More "Standard" Motor Oil clung to metal under all conditions—as follows:

	at 100°	at 200°	at 300°	at 400°
% move	36	25	21	18
% move	107	20	31	41
170 miles	4	4	36	34
600 miles	4	4	36	34

 The Meaning:
 Because "Standard" Motor Oil clings to metal surfaces longer and better—it affords greater protection of all moving parts, preserves your motor and saves you money.

BETTER DELIVERY MEANS MORE PROFIT FROM EVERY TRUCK YOU OWN
