Cotton was quoted at noon today: January 20.20, March 20.20. Saturday's close: January 26.22, March 20.25.

New York, Dec. 31.—Good business in Worth street, prices firm, larger inquiry, buyers showed broadening interest and optimism prevailed in the outlook for trade after holidays. Manchester cable says holidays, restricted business many inquiries have been received indicating buyers ideas of lower prices but manufacturers are maintaining steady attitude. Buyers for India cautious, China demand moderate but outlook more hopeful. Probably have quiet market today, majority opinion is that prices will work higher during January. CLEVELAND.

A Crop Producer.

(From The Monroe Enquirer.)
Had all the townships of Union county grown as good cotton crops as Goose Creek, New Salem and Marshville, ours would have been the banner cotton producing county of the state.

Why did the three townships named produce such splendid cotton crops? Lespedeza is the answer. That, my friends, is the most amazing plant this country produces. Lespedeza sod will grow a bale of cotton to the acre with small amount of commercial fertilizer. Lespedeza also will grow 50 bushels corn on upland ground.

Card Of Thanks.

We wish to thank the people of Shelby for their kindness and sympathy shown us during the illness and death of our mother, Mrs. Mary L. Hill, and for the beautiful floral offerings.
Mr. and Mrs. G. L. Wallace,
