

EARL COMMUNITY SOCIAL-PERSONAL

Teachers And Officers Entertained. Personal of People Coming And Going.

(Special to The Star.)

Earl, Jan. 19.—Mr. and Mrs. H. B. Rhyne, of Waco, were the guests of Mr. and Mrs. B. Austell Tuesday morning for St. Petersburg, Fla., to spend the remainder of the winter with her daughter, Mrs. Lee Whetstone. She was accompanied by Miss Josephine Earl as far as Rock Hill, S. C. Miss Earl is to be the guest of her uncle, G. R. Randall.

Mrs. D. B. Lowery was hostess to the superintendent, teachers and officers of the Sunday school Wednesday evening of last week. The junior superintendent and her corps of teachers gave a short program which was enjoyed by all present, after which the hostess served light refreshments.

Mr. and Mrs. Hugu Bettis and two children, Lowery and Harold, of Greer, S. C. spent the day Sunday with home folks.

We are indeed glad to report those that have been victims of influenza in the village are improving at this writing.

Mr. and Mrs. Bryson Hambricht of Grover were visitors at the home of Mr. and Mrs. W. C. Saratt Sunday.

Mr. S. B. Hubbard who bought the Methodist church property here is turning it into a nice little dwelling.

Mrs. Bud Hause who has been confined to her bed for the past week is able to be up again. We hope for her to be out on the streets again soon.

The Ladies Missionary society met at the home of Mrs. J. W. Davis Tuesday afternoon at her home on Main street. An interesting program was carried out after which the hostess served light refreshments.

The finance committee of New Hope church met Thursday evening

PERSONAL JUDGMENT

Tommy had returned to work after having received a letter from the boss that told him he was fired; the boss asked Tommy if he had read the letter and he replied: "Yes sir, I read it inside and out; on the inside it said 'you're fired' and on the outside it said 'return in five days.'"

Don't even wait five days to try Sinclair gas and Opaline oil. The longer you delay using Sinclair the longer you are losing the economy this product permits. Bigger mileage and greater satisfaction is synonymous everywhere of the names Sinclair and Opaline. Wholesale.

Cleveland Oil Co. Distributors

ing at the home of Mr. and Mrs. D. B. Lowery.

Mrs. George Washburn and little Betty Lowe of Shelby spent last week in the village.

The senior B. Y. P. U. with their able pastor visited in the home Sunday afternoon of one of our church members who is a shut-in on account of ill health. After the devotion the members presented Mr. Glenn with a pouncing which was accepted with a heart-full of gratitude.

Mr. and Mrs. Suttle Bostic and two children spent Sunday in Rutherfordton.

The Misses Battis entertained the general officers and teachers of the Sunday school Wednesday evening at their home on Main street.

Rev. J. L. Jenkins, pastor taught the lesson in a very impressive manner. Subject: "Christ, the World's Redeemer." After the business part of the meeting the hostess served a salad and sweet course.

The high school is progressing nicely under the leadership of Rev. J. W. Davis and assistant teachers, Misses Mary Ste Hunt, Gladys Eorn, Ruby Ellis, Mrs. R. L. Nichols.

The "Hoods" carnival which was pitched for last Friday evening proved a great success. Midway was all aglow for the attendants.

Fees received from entertainments were \$35.28. Proceeds to be used for children's playground.

Challenges Claim That Religion Has Need Of New God

Dr. Brightman Calls Remark Of Dr. Barnes To Science Group, Sensationalism.

"We have no use for the partisan spirit in which religion seeks to devour science or science religion." Such was the statement made in reply to Prof. Harry Elmer Barnes by Dr. Edgar Sheffield Brightman in a current issue of Christian Herald. Professor Barnes recently declared before the American Association for the Advancement of Science that religion needs a new God, to be made in the image of science.

Dr. Brightman, head of the department of philosophy of the graduate school at Boston university, discusses both science and religion in his article and states that "we need a just and philosophical spirit that recognizes the full right and place of each field."

Charging Barnes with sensationalism, Brightman continues: "If the public mind is to be freed from bondage to sensationalism, it will need many grains of salt to take with what it reads."

"Enough has been written about the sins of religion partisans. . . . But the fault has not been all on the side of the religious. Some men of science, and some of their interpreters to the general public, have shown a remarkable misunderstanding of religion."

Dr. Brightman concludes his article with a plea for tolerance by the leaders in both fields of thought and urged that "partisanism be discarded for friendship. He bases his plea on the contention that neither field could be complete without the aid of the other.

Mr. Hoover called Rio the prettiest spot he had ever seen. Lucky he wrote to say it tell after California had voted.—Greenville Piedmont.

RUPTURE Shield Expert Here

E. J. Meinhardt, of Chicago, the well-known expert, will personally be at the Cleveland Hotel, Spartanburg, S. Car., on Thursday, Jan. 24th, from 9:00 A. M. to 3:00 P. M. only.

NOTICE—Only gentlemen are invited to call at this time as special arrangements will be announced later for women and children. A presentable appearance is requested. There is no charge for demonstration.

Mr. Meinhardt says: "The Meinhardt Rupture Shield" will not only retain the Rupture perfectly, but it exercises and strengthens the weakened muscles—thereby contracting the opening, usually giving instantaneous relief, withstanding all strain regardless of the size or location of the Rupture.

"The Meinhardt Rupture Shield" has no understraps. It is also perfectly sanitary and practically indestructible and can be worn while bathing.

Ruptures often cause Stomach Troubles, Backache, Constipation, Nervousness and other ailments which promptly disappear after the Rupture is properly retained.

SPECIAL NOTICE—All customers that I have fitted here during the past five years are invited to call for inspection for which there is no charge.

Please note the above dates and office hours carefully. Business demands prevent stopping at any other city in this section. (This visit is for white people only)—E. J. Meinhardt, Home Office, 1551 N. Crawford Avenue, Chicago. (adv.)

Collapses at Grave of Fiance

Heartbroken over the fate which took away her husband-to-be just on the eve of their marriage, Charlotte Bruckner, 19, collapsed as body of Sergeant Patrick Conroy was lowered into grave in Calvary Cemetery, New York. The dead soldier was one of eight fliers killed when a big Army transport crashed at Rovalton, Pa.

Six Bouts In Boxing Program On Here This Saturday Night

Matchmaker Sides Has Several Good Prelims For Roberts-Sizemore Fight.

Matchmaker Arthur Sides has a real leather-pushing program of entertainment booked for Shelby fight fans Saturday night in the Thompson building.

The main bout, as heretofore announced, will be between Terry Roberts, the muchly talked "McAdenville Man Mauler," and Grady Sizemore, middleweight champ of South Carolina. In addition to the main bout, which is to go for 10 fast rounds, there will be four preliminaries and the semi-preliminary.

Blanton To Fight. The semi-prelim Jack Blanton, Cliffside slugger, who is popular here, will face K. O. Foster of McAdenville.

The added attraction which will perhaps create more local enthusiasm than any of the six bouts will be between two homes boys, who are just "itching" to get at each other. They are Phate McSwain, of the Lily Mill, and Earle Williams, of South Shelby. Needless to say, this bout alone will turn out that end of town.

Another preliminary is between "Kid" Alexander, of Belmont, and Logan Carr, of the Cleveland Cloth mill, while Baby Carr, of the cloth mill, will face Stump Braswell, of McAdenville in the other preliminary.

Dad Prim Referee. Dad Prim, of baseball, wrestling, and boxing fame, will referee every bout, and Dad, usually forces the performers to give the fans the action they go to see.

"All the boys who go on the program are going to fight instead of stall, or they do not fight for me anymore," Matchmaker Sides announces.

"I anticipate that many fight fans from adjoining towns will be here for the bouts and with that in mind," Promoter Sides declared, "I am placing tickets on sale here Tuesday so that hometown fans may get the choice of the best seats. The tickets will be sold at Casey's Place, the Cleveland drug store, and the South Shelby barbershop."

ADVOCATES PROVISION FOR DESERTED WIVES

Durham.—As announced by him more than a year ago, recommendations will be made by Judge James R. Patton, of Recorder's court, to the Durham county representative in the general assembly that they introduce a bill in the state legislature which will make some provisions for the support of deserted wives. Under the law which governs such conditions the judge may sentence a husband to two years on the county roads for non-support, but this in no way alleviates the condition of the wife, who must, as a rule, depend upon relatives or charity for support. A law to help the deserted wives would prevent many from being dependent upon charity. In some cases in the past Judge Patton has sentenced deserting husbands to the roads with the provision that they be hired out by the county commissioners and their wages go to the support of the wives. The county commissioners have been unable to carry out this plan, as they say they have no provision in their budget to take care of such matters.

New Model Cars For 1929 At N. Y. Automobile Show

(The new model cars for 1929 are now being shown at the New York show and a complete description of the various makes sold in Shelby will appear under this heading, one or two makes each issue until the full line is covered.)

Essex Models

In the new Essex, the Challenger, twenty-six mechanical and body improvements are said to have been embodied. Speed has been increased to seventy miles an hour and power by 24 per cent to 55 horsepower.

Among the changes making for higher power are larger bore, higher compression, increased valve lift, new cylinder head, improved valve timing, new location of spark plugs, new lubrication system, larger radiator, new type cooling fan, new muffler and higher gear ratio.

Essex, the Challenger, now has a new steering gear, adjustable for the driver's height and operating on roller bearings throughout. A new four-wheel brake system of the two-shoe type has been provided. Molded composition blocks are used instead of textile linings, and brake adjustment can be made without tools.

Seven body types are furnished—roadster, phaeton, coupe, convertible coupe, coach, standard sedan and town sedan. The convertible coupe and the town sedan are newcomers.

Front seats of sedan and the driver's seat in coaches may be adjusted forward and back by means of a screw between the seats. The lengthwise movement is accompanied by an automatic adjustment varying the tilt of the cushion in accordance with the change in the position of the seat.

Among the mechanical improvements is a "fuel booster" incorporated in the carburetion system, which acts independently of the regular vacuum tank. The gasoline system is augmented by a visible fuel filter.

The new Essex line has automatic choke, full floating no-drag brakes, hydraulic shock absorbers and motor mounted on rubber.

Pontiac Models

A new line of "big" Pontiac sixes is presented for the first time at the show recently.

The seven models are a four-

Influenza Much Milder This Year Than In 1918

But Vicks Laboratories Again Operating Night and Day to Supply Record-Making Demand.

Although the type of flu this year is not so serious as in 1918, health authorities are urging everybody to treat even the slightest cold at the start, as colds lower the resistance and make the body an easy prey to bronchitis or pneumonia.

An interesting response to this warning has been the phenomenal call for Vicks VapoRub, the external treatment which proved so helpful in the 1918 epidemic.

In spite of vastly increased capacity, the Vicks laboratories are once more operating all night long and are now producing 432,000 jars daily. A substantial part of this increase is attributed to the widespread use of Vicks as a preventive.

door sedan, two-door sedan, sport roadster, with folding rumble seat, sport phaeton, coupe, landaulet, sedan with folding top over the rear quarter section, and a convertible cabriolet with rumble seat.

Various improvements have been embodied in the new chassis, including a more powerful engine, developing fifty-seven horsepower; addition of a harmonic balancer and counter-balanced crankshaft; larger valves, manifold, and carburetor; sturdier rear axle, redesigned transmission assembly, and new Hotchkiss drive with two universal joints.

The bodies, by Fisher, are wider and longer, with concave belt molding starting at the cowl and making a complete circle.

The closed bodies all have adjustable driver's seat, sun visor of all-metal construction, tilting beam headlights foot-controlled, ebony-finish instrument panel and steering wheel, elliptical windows in rear.

The name plate is absent from the radiator shell. While the "Chief Pontiac" emblem is still carried on the radiator filler cap, the name appears only on the running board mats. All exposed bright parts are chromium plated.

Springs have been widened to two inches; their length front and rear is ninety inches, more than 80 per cent of the wheelbase of 110 inches.

Wheels are low, ten-spoke. Special equipment of six wire or demountable wood wheels and tires is extra. Four Lovejoy hydraulic shock absorbers, front bumpers and rear fender guards are regular equipment, also at extra cost.

Brakes are mechanical, internal expanding on all four wheels, and operate on eleven-inch drums.

Willy-Knight Model

Two new lines of Willys-Knight cars are introduced at the show. They are featured by greater power, more room and "finger-tip" control.

The Willys-Knight Six includes four-door sedan, coach, coupe, roadster and touring car. The Great Six line includes sedan, six-passenger coupe and roadster.

The smaller six line is powered with a six-cylinder sleeve-valve engine of 53 horsepower, with a bore and stroke of 2 1/2-16 by 4 3/8 inches. The new models are less in weight than their predecessors, with rear axle gear ratio reduced

ADMINISTRATOR'S NOTICE

Notice is hereby given that I have this day qualified as administrator of the estate of S. L. Gannt, deceased, late of Cleveland county, N. C. All persons indebted to said estate will make immediate payment to the undersigned and all persons having claims against said estate will present them to me properly proven for payment on or before January 12, 1930, or this notice will be pleaded in bar of their recovery. This January 12, 1929.

J. T. RAMSEY, Administrator of the Estate of S. L. Gannt, deceased. Ryburn & Hoys, Attys.

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of P. P. Ivester, deceased, late of Cleveland county, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Shelby, N. C., on or before the 14th day of January, 1930, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This 14th day of January, 1929. FRANK L. HOYLE, Administrator of P. P. Ivester, deceased.

from 5.11 to 4.8. The 1 1/2 inch propeller shaft has been lengthened to accommodate the wheelbase of 112 1/2 inches.

All models of the six are equipped with large mechanical type four-wheel brakes, 12 inches all around, as well as with "finger-tip" control, now universally used on Willys-Overland products. A button in the centre of the steering post controls all functions of starting the motor, manipulating the lights and sounding the horn without changing driving position.

Heavy one-piece full crown fenders are employed.

The greater six is new throughout, although retaining the basic characteristics of the former greater six. Power plant has a bore of 3 1/2 and stroke of 4 1/2 inches, with 25 cubic inches piston displacement.

Frame is of the double drop type, drop being 1 1/2 inches, while the difference in width of the frame at the front and rear axle amounts to twenty inches. Chassis is equipped with one-shot lubricating system.

Twenty-two noted gangsters have just been run out of Chicago. That is fine for the whence, but no so good for the whither.—San Diego Union.

RESOLUTIONS OF RESPECT.

Whereas, on the 7th of December, 1928, God, in His infinite wisdom, saw fit to remove from us, our beloved Brother W. F. Gold who was a faithful and loyal member of the Zion Baptist church for many years and a deacon for about thirty-five years. He was a wise counselor and safe in his opinions, and wished to help and encourage others when he could.

Therefore be it resolved by the Zion church in conference assembled:

- 1. That we bow in humble submission to the will of God our Heavenly Father.
2. That we have lost a faithful and loyal member of our church.
3. That we emulate the fine traits of his long life and beautiful character.
4. That we extend our sympathy and love to the family in their sore bereavement.
5. That a copy of these resolutions be placed in our church book, and a copy sent to the Cleveland Star and Biblical Recorder for publication, and a copy to the family.
Committee: D. G. WASHBURN, G. T. CABANISS, G. P. IRVIN.
