Civil War Vets Are Dying Fast

The ranks of the veterans of the Civil War are being rapidly depleted according to statistics issued by the department of the interior. The pension roll had fallen to 67,798 at the end of 1928. This is more than 6,000 lower than the same roll was six months earlier, thus indicating that these venerable former soldiers are dying at the rate of more than 1,000 a month. The present figure is strongly in contrast to that of thirty years ago when Civil War pensions reached their high tide of 745,000.

The latest figures show, also that the number of widows of Civil War soldiers who drew pensions is on the decrease though still nearly three times as great as the number of soldiers. There are now 194,000 such widows on the rolls, a decrease of 5,600 in the past six months.

Nearly Half Million For Hogs From N. C.

Figures recently compiled by W. W. Shaw, swine specialist at N. C. State college, show that during 1928, county agents in 31 counties of the state sold 404 co-operative carlot shipments of hogs, containing 28,655 animals, weighing 5,369,833 pounds.

The sum of \$487,580.84 was received from the shipments. These records do not include many hogs grown under demonstration methods which were sold locally or hauled to the market by truck and sold with a sales record.

In handling the demonstrations with farmers, most of them held in the eastern part of the state, the county farm agents helped to keep careful records of all feeds consumed and of the weights of the hogs at the beginning and end of the feeding tests. When the hogs were shipped to the large central markets, such as Richmond and Baltimore, a careful check of prices, dockage, freight rates and other charges was kept in order to determine the profits and losses on each venture.

The State college official said that as a usual thing, the growers made money when they fed home grown feeds and raised their pigs on the farm. Heavy losses were sustained, he said, when the growers did not sell their hogs on the high markets of September and April. Mr. Shaw believes that at least \$65,000 additional profits could have been secured from the hogs. All of them had been fattened and sold on the high September market, however.

Can't Evade Penalty.

Atlanta.—Manufacture of whiskey more than nine years ago, before the passage of the Volstead act, resulted today in the imposition of a four months jail sentence on Earl Davis, Jr., of Lumpkin county.

He was prosecuted under the revenue act for failure to pay certain taxes and under the war prohibition act. He had been sought since December 17, 1919, when the still was discovered on his property.

Davis appeared in federal court here and entered plea of guilty. Judge Samuel H. Sibley made the sentence effective December 18, 1928, when Davis was arrested.
