Moving vans from Northampton may be expected to back up to the rear door of the White House now almost any day.—The Lansing State Journal.  
to order by the president and minutes of last meeting read. Mrs. Wallace gave a demonstration on Wallace salad which when served was enjoyed by all.

## Spring Modes Arrive

COATS AND FROCKS

In The Paris Manner

An utterly charming array of lovely Spring Frocks and Coats, featuring every new trick of pleated frill and flounce, of circular godet and flaring panel! Deep yokes, swathed hips and ripping, dipping hemlines! Necklines with slip noose scarfs—or folded into charming 'kerchief effects—with lace, or jabots repeated in piquant side details of skirts! And, of course, ENSEMBLES—in wide array—with matching or contrasting coats! Marvelous smartness—superlative style and quality.

Montgomery Ward Guarantee

# Airline

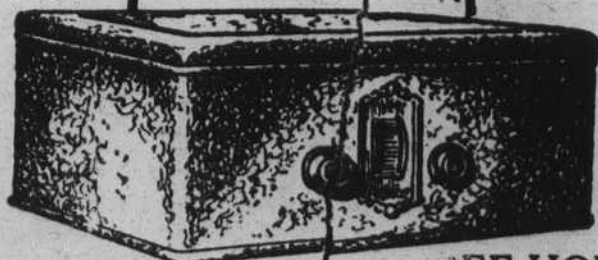

**\$144.50** LESS TUBES  
9 Tubes with Rectifier

Amazing realism—fidelity in reproducing voice and music in all their tonal qualities, vibrant volume—selectivity and simplicity of tuning place 1929 Airlines in the first rank of the Radios of the World. The modest prices at which these wonderful instruments are offered bring to thousands of people the opportunity to enjoy the entertainment of the air at its best and at a small outlay of money. Ward's invites you to come, hear and see these marvels of advanced radio achievement. Now on display.

### Table Model Console Model

This new electrically operated table model is especially designed to give the highest type of performance. It is remarkably low. The set is encased in an attractively finished metal cabinet. One tuning control. More powerful, selective, and tone-pure than sets priced much higher.

This set combines the best feature of recent radio development and is sold by us at a remarkably low price. A gracefully designed cabinet finished in walnut with maple overlays, features the new sliding doors. Has built-in dynamic speaker. All parts perfectly shielded. Truly a marvel in radio reception.

Equipped with push-pull 171 power tubes, the latest means of improved amplification to clarify the quality of reproduction and avoid overloading of tubes.
