## Book Committee Names New Books For Use In High School

Regular Five-Year Changes In Text-Books Made At Meeting Here.

At a meeting held here Tuesday the members of the Cleveland county text-book committee adopted the high school text books to be used in the Cleveland county high schools for the next five years.

It is required by law that the list of books used in North Carolina high schools be revised every five years. Heretofore the text-books for all counties have been selected by a state committee, but the procedure followed this year was for the state committee to approve a list from which a county committee could adopt books suitable to the individual counties, a course considered a financial saving over the previous method.

The Cleveland county committee selecting the text-books yesterday for the high schools of the county was made up of: I. C. Griffin, Shelby; J. H. Grigg, Shelby; Lawton Blanton, Lattimore; C. A. Ledford, Belwood; and Claud Grigg, Kings Mountain.

A list of books as approved by the state commission, and the committee wherever possible, retained the old books on the list. But in several instances the books in use in this county were left off the approved list prepared by the state commission. The county committee was aided in the selection by various teachers of the county who submitted written and oral reports on books being considered.

The text-books adopted are listed as follows:  
**Eighth Grade.**  
English—Tamer, Correct English (Ginn); rural schools—Ward, Sentence & Theme, Revised (Scott) City schools—Leiper, a New English Grammar (Mac), Royster-Thompson, a Guide to Composition, (Scott), Literature & Life, Book No. 1 (Scott).

## A POORLY FERTILIZED FIELD IS LIKE A THROTTLED ENGINE

You wouldn't expect your tractor to pull its best with the gasoline feed cut down. Is it likely that a field will give you its best yield if you cut down on the quality or quantity of its plant food?

Perhaps you know of others who planted no more acres than you and who worked no harder than you. Yet they got bigger and better crops. Why? Their fields were fertilized with the best they could buy.

Plant With Royster's

More than likely they grew their crops with Royster fertilizer. It's the choice of thousands who grow better than average crops year after year. There's a Royster fertilizer for every crop and soil. And each is backed by 44 years of knowing how. Aged and cured to perfect mechanical condition, hence easy to put down. Always made from best materials. Bigger demand for it every year. You can best afford to use Royster's because Royster's pays you best. See the Royster dealer near you.

### BLOATED FEELING

And Other Troubles Went Away After This South Carolinian Had Taken Black-Draught.

TRA, S. C.—"I have used Black-Draught, at intervals, for about five years," says Mr. J. F. Gilliland, of this place. "I take it for indigestion. "After eating, I would have a tight, bloated feeling, and pains in my chest and stomach. I would spit up my food, and some things I ate would not agree with me at all. "I would be hungry, but afraid to eat on account of the indigestion. I would be constipated, too. "Some one told me that I should try Black-Draught, which I did, with good results. I take just a small dose after meals, and I feel like a different person. "I do not have any more trouble of that kind. I can now eat almost anything I want to, at any time, and it does not hurt me. "Black-Draught is a splendid medicine. I can recommend it to others." Thousands of people have found relief, in cases of common indigestion, by taking a pinch of Black-Draught after meals, and continuing this treatment for several days. Take Theford's Black-Draught. It is purely vegetable and acts in a helpful way, without the bad effects of mineral drugs.
