### Cotton Market

(By John F. Clark and Co.)

Cotton was quoted at noon today on New York exchange:  
March 21.23, October 20.64. Yesterday's close: March 21.19, October 20.60.

Spot sales 7000. Middling 1114 against 1112 yesterday. Disastrous floods reported from Southeastern Alabama and other areas in Alabama and Georgia are under water. It was still raining last night at Montgomery and also Macon, Meridian, Vicksburg and Savannah. Forecast: Carolinas and Georgia rain today, fair and colder tomorrow. Fair business in Worth street. Favor long side on reactions would buy May on any further loss of premium over new crop months.  
CLEVENBURG.

### At The Theatres

Greta Garbo, beautiful, appealing, one of the most popular of the Hollywood stars, is the heroine of "Wild Orchids," the Webb special, showing for the last time today. Lewis Stone and Nils Asther also help to put over this very attractive picture.

Ken Maynard, a hard riding, quick thinking western star, with Tarzan, heads the bill tomorrow. The title of the piece is "The Lawless Legion." It is an action picture, thrilling, spirited and fine. The fast action, the thrill and romance of such pictures, appeals to everyone.

The Princess is featuring a special, starring Richard Dix, showing today and tomorrow. The piece is "Redskin," rated as this star's most popular screen effort. Dix has long wanted such a role, since he made such a notable success in Grey's "Vanishing American." This is a highly colorful, dramatic production, commended by Paramount. This is a picture of the extra special class; elaborate and finished. The Princess is advertising one of the best screen productions of the day in "Shop Worn Angel." This is a talkie, and is due next week.

WANTED: EXPERIENCED waiter or waitress at Piedmont Cafe. 2:15c

## ANALYSIS SHOWS ONE COW TO BE WORTH 12

Analysis of more than 100,000 yearly individual records from cows on test in dairy herd improvement associations indicate that, on the average, cows that produce 100 pounds of butterfat a year returned \$14 each over cost of food; those that produced 200 pounds, \$54 over cost of feed; 300 pounds, \$96; 400 pounds, \$138; and 500-pound cows returned \$178 over cost of feed. Thus the man milking a 500-pound producer would have more return than if he milked a dozen 100-pound cows, and this would take no account of the added labor of milking and caring for the larger herd or of the much greater expense of providing stable room for a herd instead of a single animal. The figures from returns are based on farm prices from all parts of the country including whole-milk districts.

IN CLEVELAND COUNTY WE NEED MORE AND BETTER COWS. COWS THAT WILL PRODUCE 500 POUNDS OR MORE BUTTERFAT PER YEAR.

MORE AND BETTER COWS

INSURES MORE INCOME, LESS WORK, LESS FEED, HAPPIER HOMES.
