Cotton Market

(By John F. Clark and Co.)

Cotton was quoted on New York Exchange today at noon:

March 20.89; October 20.31. Saturday's close: March 21.10; October 20.50.

Spot sales 6000. Mid 1101 against 1114 Friday. Light business in Worth street Saturday. Volume of trade for week substantial. Manchester cable reports moderate turn over for week. Buyers resisting advance. Charlotte, N. C. reports good sales in all lines and one some goods a large business was reported. New York Herald Tribune Memphis specials says: Heavy floods ruining credit of farmers in Georgia and Alabama acreage that section will be materially reduced. Cotton land under water outside Alabama and Georgia estimated 400,000 acreage. Spot demand good. Probably have a lower market today on good weather and cables, and technical position but would buy on any material setback.
CLEVENBURG.
