Two License Plates Required By Bill

House Passes Measure Providing For Tags In Rear And Front Of Automobiles.

Raleigh.—The house Saturday passed without a record vote a senate bill to require the use of two license plates, front and rear on an automobile. The measure was introduced in the senate by Senator Cannaday, Democrat, of Johnson.

The bill is said to have the support of the revenue department. Representative Nash, Democrat, of Richmond, said he had been informed that it would cost \$20,000 more a year to require two plates. Representative Pruden, Democrat, of Chowan, said the cost would be absorbed by additional revenue. He said that at present two cars were often operated when only one license had been taken out, the owner telling the revenue department the original had been lost, securing a duplicate and using it on the second car.

An owner could hardly claim both license plates had been lost, he said.
