At The Theatres

The Princess is presenting "The Toilers" as the headliner today. Douglas Fairbanks, Jr., and Jobyna Ralston are the stars. Reginald Barker produced it, and it is said to be this master director's best. It is the story of underground toilers. Tomorrow brings Rin-Tin-Tin in "Land of the Silver Fox," in which the great dog actor gets his man. It is a Warner Bros. picture, embodying all the Warner Brothers quality.

The Webb has run three notable pictures since the Vitaphone was installed: "On Trial," "Weary River," and Mary Pickford in "Cocquette." The last of this trio is on for the last showing today. Audiences which have seen it here pronounce it to be the immortal Mary's greatest screen effort. It is a piece of raw drama, cut from life; indeed it is said to have been written as a record of the Cole case. It is a wonderful play, wonderfully presented.

Aldermen Assume Blame For Rates

To Editor of The Star: Many people seem to be under the impression that Mayor Dorsey is responsible for the change in method of calculating the light bills. He is not responsible for the change as he was only carrying out the instruction of the board. The method now used evidently must be correct as it is the one followed by other cities and towns of this section.

Will state further that the mayor has had nothing to do with light rates, water rates, tax rates, or any city ordinance. It is the duty of the aldermen to decide these things, and the duty of the mayor to see that the instructions of the board are carried out, and this has been done to the satisfaction of the board.

L. P. HOLLAND.

FOR ALDERMAN.

I hereby announce myself a candidate for alderman in ward two in the city election of May 6, and it is my hope if elected to serve the interests of the entire city to the best of my ability, realizing that a town after all is nothing more than the citizens and should be operated for their best interests as citizens and taxpayers. Any support on that basis will be appreciated.
