### Copeland's HEALTH TALK

Perfect Health? By ROYAL S. COPELAND, M. D. (United States Senator and former Health Commissioner of New York) (Inquiries may be addressed to Dr. Copeland, care The Star, Shelby, N. C. If you desire a personal reply, enclose a stamped envelope, addressed back to you.)

I have a suspicion that many persons suffer needlessly from muscle and joint pains. One of the most common of human complaints is back-ache. Neuralgia, neuritis, rheumatism as well as lumbago and sciatica, are among the things which take the joy out of life.

We hear so much about the suffering of the human race that I sometimes wonder how many persons there are who never have an ache or pain. There comes to my desk every day hundreds of letters from every part of the world. One day recently more than a thousand such letters arrived.

I realize, of course, that persons who are never sick are unlikely to write. Many of the unaffected, however, are kind enough to express their appreciation of my efforts to keep them well. You will recall that the central theme of every one of these articles is how to avoid sickness. It is the business of the family doctor to treat the sick. I can conceive it to be my job to do the best I can to keep you from illness.

But the particular thing I have in mind today is to find out how many people never have aches and pains. I should really like to hear about this. If somebody should read these lines who is never sick, who never has a headache, a toothache, or a backache, please write and tell me about it. At the same time, please be good enough to tell me why you have been so well.

I am sure we are agreed that it would be a wonderful thing if we could make health contagious instead of having disease contagious. The only way to do this is by establishing such standards of living as have been found to be successful in the maintenance of health.

If you have been well all your life, if you have been free from aches and pains, if you have good teeth, strong muscles and smoothly working joints, we want to know the reason why you have been so fortunate. Certainly you have convictions as to why you have good health. Give us the benefit of your convictions.

H. E. D. Q.—What should a girl weigh who is 23 years old and 5 feet 4 inches tall?

A.—For her age and height she should weigh about 132 pounds.

G. L. H. Q.—How can I reduce? A.—Weight reduction is merely a matter of self-control as regards the diet. For full particulars send a self-addressed, stamped envelope and repeat your question.

They Voted For Woodrow Wilson. Springfield Republican.

The British people, mind you, voted strongly for the League of Nations. In the Labor party's program was this declaration: (For) the systematic use of the League of Nations to promote the utmost possible measure of co-operation between the nations of the world.

They voted, in short, for Woodrow Wilson. This 20th day of May, 1929. I. M. ALLEN, Sheriff.

## The Strength of a Heavy . . . the speed of a light-weight

WHAT a fighter such a combination would make! . . . What a friction-fighter was developed when a motor oil was made with the lasting and lubricating qualities of both paraffine and naphthene base crude oils! The lubricating engineers of the Gulf Refining Company sought for and finally found the perfect blend of two base crude oils. It has every quality demanded by the modern high compression motors that develops high speeds and great power.

**SUPREME MOTOR OIL**  
 This new two-base oil provides a smooth unbroken film wherever metal touches metal in your motor, seals the spaces between piston rings and cylinder walls, efficiently lubricates every part.
