Plan Celebration Plymouth 1st Year

When Pilgrim fathers landed in December of 1620 near the famous Rock and settled what they later called Plymouth, they began to make history. The struggle of these Puritans against all natural odds, their physical and moral stamina, their success in establishing colonies in the wilderness of the north east part of North America, has earned for them everlasting fame.

When the engineering experts of Chrysler Motors, more than a year ago conceived and completed plans for a new low-priced Chrysler-built automobile, a suitable name was sought. So studiously had the new car been designed in every point, so rugged was it in construction, so free was it from those limitations generally associated with lower priced cars, that it seemed entirely fitting to name the car Plymouth, because of the association of the name with that dauntless band of stalwart Pilgrims, who were among the first American colonists.

A year has rolled by since the Plymouth car was first introduced to the public. Today, while the country is preparing to celebrate on July 4 the birth of the nation, the Plymouth Motor Corporation and its dealers throughout the country are preparing to celebrate the first anniversary of the Plymouth car.

Penny To Exhibit Purebred Cattle

New York—Special.—The recent return of J. C. Penney, founder of the J. C. Penney company, from a trip around the world is closely followed by his announcement that he will shortly send his internationally famous herd of Purebred Guernsey cattle, on a circuit of state fairs and dairy shows.

It was with this herd of cattle that the chain store magnate won the greatest list of prizes ever awarded to any one breeder at the National Dairy show at Memphis, Tenn., last year.

This year this exhibition will be transferred to permanent headquarters at St. Louis, Mo., where a large exposition section has been constructed with building especially designed for the showing of dairy cattle.

Mr. Penney has announced that he will take his show herd to the national fair as well as to a large number of other fairs and expositions.

Included in the show herd is Mixtor May Princess who holds the world's record for production, reproduction and type. In the past four years this famous Guernsey cow has produced 3484 pounds of butter, 6903 gallons of milk and has been the dam of five calves.

National Advertising Started By Ward

Recently Montgomery Ward and company nation wide merchandising and chain store organization, has announced a series of national advertisements to be run in the leading weekly magazine in the U. S. A., and as a result, great interest has been aroused in the advertising world.

The retail world sees in this a

far reaching step, significance of the development of a retail expansion program, began about two years ago, when Montgomery Ward and company announced its intentions of opening about 1500 stores within five years. The company already has put into operation almost 400 stores, and the new national advertising program is seen as a wise business move to develop additional business and customers in the new trade centers, in which these stores are located.

Commenting on this new development Mr. Chester H. Bond, manager of the local Montgomery Ward store said, "With our expansion into retail field, we recognize the entire country as a market for our merchandise. The appeal is general, reaching urban as well as rural residence—in fact, it extends to all classes of our entire population."

Our national advertising, says Mr. Bond, will in no way change the local advertising program, but will assure more than ever, the use of a local newspaper as profitable advertising media. Our advertising in the Cleveland Star will feature the same items described in the national series at the same time the magazine advertisement is released. Local papers are most essential to us for a complete advertising tie-up.

We realize, as do all up-to-date merchants, that there is no substitute for timely messages concerning our merchandise in the local daily papers. From 57 years of experience we are firmly convinced that advertising pays; when the merchandise in prices are absolutely right.

The outstanding theme of the company's national advertising is quality which, since the beginning, has been a foundation stone of its policy. Quality is deemed necessary to the universal guarantee of its policy. Quality is deemed necessary to the universal guarantee of satisfaction, which has been given by Montgomery Ward and company through out its entire existence.

Lee Weathers.

From The Winston-Salem Journal. Lee Weathers, editor of The Cleveland Star, Shelby, has made for himself a lasting place in the esteem and confidence of his fellow editors and publishers of the whole state of North Carolina. For many years he has been one of the most popular and useful citizens of his own county. But only in the last two or three years have the members of the journalistic profession of the state learned to appreciate him for anything like his real value. For the last year he has served as president of the North Carolina Press association and retires from that position with a record of achievement unsurpassed by any of his distinguished predecessors. His annual address at the Elizabeth City convention the past week was a masterful and an inspiring deliverance. His ringing appeal for a press in this commonwealth free from all entangling alliances with selfish predatory interests made a profound impression. Would that every county in North Carolina could have a Lee Weathers.

Shepherd In Still Raid At Mountain

Gaffney.—Returning Saturday to the vicinity of where a 100-gallons capacity copper distillery had been found Friday, Cherokee, York and Cleveland county officers acting in conjunction discovered 40 gallons of corn whiskey concealed nearby. The liquor was divided, part being taken to York and the remainder to Blacksburg, where it was poured out. The still was located in York county, about one mile from the Cherokee county line.

Rural Policeman Charles Byars represented Cherokee county, and Constable Charles Shepherd, of Grover, was the Cleveland county officer on the raid.

The officers of the three counties met near Kings Mountain battleground Friday afternoon. A search finally revealed the still. No liquor was found, so the next day a searching party returned and succeeded in uncovering the forty gallons, forming the largest single haul made in this section in several years.
