Copeland's HEALTH TALK
 Light Is Health Factor.
 By ROYAL S. COPELAND, M. D.

When the word poison is mentioned, we think of carbolic acid or corrosive sublimate. If not one of these, it may be prussic acid. Everybody is afraid of a bottle if its label carries a skull and cross-bones.

But when one person is harmed by one of these, a thousand, perhaps ten thousand are more or less seriously harmed by poisons we rarely hear mentioned. These evil effects come from substances produced by the body itself.

Fortunately for us there are certain organs whose chief function is to get rid of these dangerous products. The kidneys, the intestines, the liver and the skin, when they are normal in their operations, carry away these evil things. They filter out of the blood and separate from the intake of the system those substances which might harm us.

These are what we call the "organs of elimination." When all of them function as they should, we continue in good health. We stay young and active. We have energy and the ability to express it.

In a sense, old age is due to the effect of body poisons. Failure to eliminate these harmful substances results in certain tissue changes. The sum total of these changes is that physical state we regard as the evidence of age.

There is an old saying, frequently used by many persons. It is that common greeting "How is your liver?"

Perhaps we might as well ask: "How old are you?" or "How old do you feel?"

Of course, old age is not a state of mind. You might as well be old as to feel old all the time. The desirable things is to feel young and to act young because you really feel that way.

If you wake up with a headache, with a stiff back and a couple of stiff joints it is probably because you have been poisoned. Of course, but just enough affected to feel mean.

You are sure to have this experience often if your organs of elimination fail to do their duty. You are certain to be miserable if the poisons are produced in quantities too large to be handled by the eliminative organs.

Your life should be so ordered that kidneys, liver, intestines and skin are in perfect order. If they are so kept and are capable of eliminating all the poisons generated in your body you can live on and on and look forward to many decades of vigorous life. Life, you see, depends almost wholly on how your body reacts to its own poisons.

"See" Your Customers by Telephone
 Your customers are busy people. There are times when they prefer that you visit them by telephone. You save their time as well as your own.

As your business in the larger towns grows and takes more and more of your salesmen's time, why neglect the smaller towns? Keep up your contacts—cover them by telephone from the larger towns. We will be glad to furnish you a regional Key Town Map which many companies have found helpful. It shows you how to reach easily and quickly, more towns and more customers. The results and the great saving in traveling expense which it makes possible will surprise you.

Our credit plan makes it unnecessary to carry cash for the calls. Ask the business office today for full details.
