BISHOP CANNON MAY BE TRIED BY METHODIST EPISCOPAL CONFERENCE

Greensboro, July 17.—Bishop Cannon is subject to judicial procedure like every other Methodist minister and in due time the fact concerning his trading in stocks will be thoroughly investigated," the North Carolina Christian Advocate chief organ of the Methodist Episcopal church in the State will say tomorrow in an editorial commenting on a communication from the bishop in which he says he is going to ask for a full investigation of charges brought against him as to margin trading in stocks but that the investigation will not be made until the completion of the court proceedings against the bankrupt New York firm through which the bishop did his trading.

"A bishop is subject to the judicial machinery of the general conference just as a member of an annual conference is subject to his annual conference," the editorial continues. "These conferences pass upon a minister's conduct rather than leave so important a matter to a hostile or a friendly press. The newspapers cannot try a man in this country. We must wait on the courts. That applies to Methodist preachers as well as to American citizens."

There is thus promised the thorough investigation of the bishop's case before the general conference of the church. Bishop Cannon closes his communication to the church paper with the statement, "In the mean time I simply state to my brethren that I have not violated any civil or moral law."
