At this stage of speculation over the outcome, the Icemen have the Lawyers shaded in the betting, the theory being that the Lawyers will probably have to take a stimulant at the third base at every home run, if they make any. It is said however that they may outtake their rivals, if it turns out to a full vitaphone performance, which it is expected to be.

### Even A Prince Shakes Hands With Uninvited

London.—Even the Prince of Wales is not exempt from shaking hands with the uninvited guests. And sometimes the intruder is not a man but a woman.

Recently at a banquet given at the mansion house in honor of Sir Abe and Lady Bailey, a pretty young woman of about 28 arrived and had herself announced under a fictitious English title.

She was introduced to the British heir, who shook hands with her, and to the guests of honor of the evening.

### First Actual Peace Effort Given Rebuff

The first attempt to settle peacefully the dispute between Russia and China has failed, although renewed assurances were given yesterday that neither country would resort to war unless overt acts were committed against it.

The government of the Soviet Union disclosed that France had offered its good services to mediate in the conflict growing out of the dismissal by China of the Russia administration of the Chinese Eastern railway in Manchuria. At the same time Russia announced that it could not accept the offer because China had refused to restore the status quo that Russia demanded as a preliminary to negotiations.

Neutral observers in Peking, from information from many sources, reached the conclusion that there had been no clashes between Chinese and Russian troops on the frontier of Manchuria. Most of the rumors had come from Harbin, where they were accepted to the extent that Russian Consul General Melnikoff was detained by the Chinese until the reports were investigated. He has now been released.

The state department in Washington received assurances from both the Chinese and Russian governments that they would abide by the Kellogg anti-war treaty and would countenance war only in self-defense. Simultaneously, the Japanese government advised that it was co-operating fully with Secretary Stimson, completing the unity in the crisis of the signatory powers of the Pan-Pacific treaty.

The Nationalist government of China was said to be prepared to seek intervention of the League of Nations if the Kellogg pact failed to hold the war dogs in leash. It was reported that she had dispatched a new note to Moscow reiterating desire to settle the dispute by peaceful negotiations.

### DEFENDS AGENTS IN THIS COUNTY

To the Editor of The Star: So many are having their say regarding county officers, hospital, health officer and nurse, let us all have our say.

This writer notes all the criticisms these important items are getting from our wealthiest citizens, men who can well afford to pay their hospital bills out of the funds that the poor and unfortunate have made for them. Yet they are not willing to pay a little trifling five cent tax for a few years to help preserve their health. So far as the county agent I think this a most important office, but not so important as a health officer or nurse.

Mr. Hawkins in his article wanted to know what the county welfare officer does to earn his keep. Surely Mr. Hawkins is not ignorant to the many and lasting good things this man J. B. Smith has done and is doing to the more unfortunate of our county. The many homes he has found for many fatherless and motherless children. This alone would well pay for his keep as Mr. Hawkins puts it, to say nothing of the hundreds of other good acts that come through him—that would not be if it were not for him and his office. Mr. Hawkins is like a great many of us—has self in mind, and hasn't time or money for the poor and unfortunate of our county.

We boast on our good roads, good crops, fine automobiles, but can we boast on the health institutions we have—the one thing that means more to Cleveland county than all others combined. Aren't we really ashamed of it. No health officer, no nurse, no county hospital, and when the state will do 50-50 with us, and the Duke fund is also available. Our county commissioners are wise and honorable men and more honor will be theirs when they have the five cent tax.

Respectively yours, M. M. PATTERSON.
