

Crowd Of Whites Chase N. Y. Negroes

New York.—Eight bruised, bleeding and frightened negroes were arrested recently after a crowd estimated by police at nearly 1,000 chased them a mile through streets of the lower Eastside and residents pelted them with missiles thrown from windows.

The trouble started when the negroes, laughing and shouting, climbed into a taxicab parked in Clinton street and attempted to drive away. They attacked two white men who ordered them out of the cab. A crowd collected and

charged the negroes and in the melee that followed a 16-year-old boy was cut about the head.

The din aroused residents of the neighborhood and pots, pans, bricks and assorted odds and ends were rained upon the negroes from Clinton street windows. The negroes fought themselves free and ran, but at every turn they found themselves attacked from another direction.

They had run more than a mile through half a dozen streets before police reserves arrested them. They were charged with felonious assault and as each carried a large pocket knife, some of which police said were blood-stained, the negroes also were charged with violating the Sullivan law.

LOCAL and PERSONAL News

Mr. and Mrs. T. W. Lattimore spent Sunday in Spartanburg with Mr. and Mrs. Lewis Porter.

Plan To Use Goldfish To Fight Pests

Kinston, July 23.—A proposal that the city order the mouth of the Adkin creek screened with fine mesh wire netting, treated against rust, and have the stream stocked with goldfish to keep down the plague of mosquitoes coming from

the creek is being considered by officials here.

There are few if any fish in the creek, it is claimed. Mosquitoes cannot exist where there are goldfish. They are death to the larvae.

With vigorous protests against the mosquitoes reaching their ears, members of the council say they are inclined to "pour oil on the troubled waters" but are not anxious to experiment with goldfish.

BURKE COUNTY CITIZENS WERE SLAVE TRADERS

Burke county June 11, 1802.—More than 127 years ago one John Trammil sold to John Rutherford, both of Burke county, N. C., a negro girl named Emily, along with the girl went a deed or bill of sale of about 200 words written with a quill in splendid hand, transferring the title from one man to another.

Emily as well the citizens who took part in the transaction have long ago passed on, but that old paper still lives to tell the story, and today is in almost perfect condition in a beautiful frame under glass. People who have seen it have appraised it in large sums, but it can not be had.

Owing to the request of so many folks who wanted replicas there has been a limited number exact size facimiles made that can hardly be told from the original, and placed in attractive folders. Anyone who would like to have one for the benefit of the children, the friends, for framing or for a souvenir of the great pre-Civil War days can secure one by mail by sending your correct address and a dollar bill to Souvenir, P. O. Box 811, Asheville, N. C. adv.

Don't expect comfort from trucks... or to carry girders in a roadster

Neither must you expect all the good qualities of motor oil to be found in oil made from a single kind of crude oil. The newest idea in motor oil for present day high-compression, high-speed motors, is a skillful blend made from two kinds of crude oil... one with a paraffine base, the other a naphthene base.

SUPREME MOTOR OIL

A two-base motor oil has been perfected in the laboratories of the Gulf Refining Company and is now available at any dealer who does business "at the sign of the orange disc". Drive to the nearest Gulf dealer. Drain your crankcase and fill up with Gulf Supreme Motor Oil. Your motor will convince you.
