

White Girl Marries Negro In New York

New York.—Jerome S. Peterson, 22, a negro, and Miss Edith F. Sproul, 21, white, both of New York, were married recently at City Chapel.

Both are medical students at Columbia university. The bride's father, Albert E. Sproul, a photographer, said he approved of the marriage.

FULL QUART WHISKY BOTTLE IS FOUND INSIDE CODFISH

Bangor, Me.—Evidence that the codfish of Maine waters are in league with the rum-runners was found by three Isleboro fishermen. In the stomach of a seven-pound cod caught in West Penobscot bay they found a sealed bottle of whisky—a full quart—bearing an imposing label. The fish, unlike most cod, fought like a Penobscot salmon and the fishermen were over a half-hour getting him into their boat.

1930 Buick Has New Body Lines

The 1930 Buick makes its debut this week on the showroom floors of approximately 4,000 dealers throughout the country and, according to factory officials at Flint, Michigan, this new creation will prove one of the outstanding sensations of the year in both performance and appearance.

The Buick line, as in former years, is divided into three series. The wheelbase and the horsepower of all models of the three series have been increased. The wheelbase of the six models of the 40 series has been increased from 116 to 118 inches and the engine has been stepped up to 80½ horsepower.

Wheelbase on the two models in the series 50 line is increased from 121 inches to 124 inches and on the six models of 60 series from 129 inches to 132 inches. Models in the 50 and 60 series have an engine which will develop 99 horsepower. All models in all series have an actual speed well up in the seventies.

In addition to lengthening the wheelbase, the car has been built lower. Body lines and contours have been refined, the shape of the radiator revised, the margin of the radi-

pends.

Even chain stores in a city as large as Baltimore are being required to send their money promptly to New York. In some of the smaller places throughout the country, the banks in which local money has been deposited are requested to wire the money to the New York office of these chain stores. A banker recently told the editor of the Manufacturers' Record that one of the big insurance companies of New York last year spent \$25,000 for the purpose of having money collected at its various branch offices throughout the country, wired to New York.

Are the people responsible for this condition so short-sighted, so narrow-visioned and so thoughtless of general prosperity upon which their prosperity must inevitably depend in the end, they cannot see that in this way they are drying

up the springs which should irrigate and fertilize the prosperity of the local communities in which this money is paid to the insurance agencies, to the chain stores and to other interests? This condition is as bad as to expect a cow to furnish an abundant supply of milk even when all food has been taken from her, leaving her no sustenance from which to create milk. The situation is so lamentable and of such extreme importance to the country that, unless some plan is found to overcome this difficulty, and entirely new banking system may have to be devised by which money will remain dispersed throughout the country and not be concentrated in the vast centers of wealth. The enormous business of the insurance companies, of the chain stores and all kindred organizations, absorbing a very large proportion of the entire money of the country, may in the end prove disastrous to national prosperity unless the men at the head of these organizations are wise enough to alter their policy of drawing money away from the country into the great maw of Wall street's absorbing power for the temporary gain of lending on call at exorbitant rates of interest.

If the Federal Reserve board can-

not meet this situation, then some new financial system must be devised to save the country from this dynamic power for evil!

Meet Of B. Y. P. U. Slated For Aug. 18

Ellenboro, July 24.—The B. Y. P. U. of the Sandy Run association will meet with Bethel church at Ellenboro August 18. This comprises the counties of Rutherford, Cleveland, and Polk. The following churches will be represented, each one to send two delegates: Alexander, Adaville, Bethel, Bost, Bettany, Big Springs, Broad River, Cane Creek, Carooleen Cliffside, Concord, Drewry Dobbins, Fair View, Forest City, Florence, Hayes Memorial, Henrietta, High Shoals, Holly Springs, Mt. Pleasant (Cleveland and Rutherford), Sandy Run, Shiloh, Spindale, Sulphur Springs and Trinity. Talks will be made by Revs. James Ivey, of Raleigh, and W. Tate of Pacolet Mills. Carooleen will give a demonstration of B. Y. P. U. work. Special music will be given by a trained choir, in charge of Professor Blanton. About 600 are expected for this meeting.

**Drying Up Springs
Of Local Business****Manufacturers Record:**

Short-sighted to the extreme are many of the great corporations, including the chain store organizations, which require that money collected throughout the country, instead of being left on deposit in local banks to furnish a basis of credit for local business, be rushed to New York, sometimes by wire and at other times by air mail or fast express, in order that it may be utilized in supporting the stock operations of Wall street speculators. The head of the corporations responsible for this action do not seem to comprehend that through this system they are destroying the prosperity of the very communities on which their own prosperity de-

pends.

Even chain stores in a city as large as Baltimore are being required to send their money promptly to New York. **When
may we haul your
refrigerator to the
BON FIRE?**

YOU might possibly get \$5 for your old refrigerator from the junk man. We will allow you \$25 for it!

Eventually, you will buy an electric refrigerator. But if you are truly thrifty you will consider buying one, not "eventually" but now.

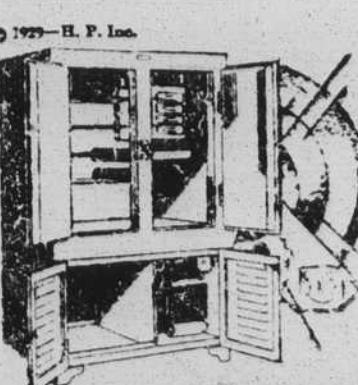

Consider this: Instead of selling your ice box to the junk man for a few dollars, you may (for the next few weeks only) trade it in for \$25 as the full down payment on the new, nationally-famous Holmes Electric Refrigerator, Model H-45. There isn't one cent of cash to pay down, and the remaining payments are moderate.

What will we do with your old ice box? Burn it—in one giant bonfire, along with every other old, germ-breeding refrigerator turned in to us!

In six months, the Holmes has become one of the most outstanding, most sought after electric refrigerators in the country. It represents the highest achievement of years of research. It sets new standards for compactness, beauty and sheer, utter simplicity. It is backed by a double guarantee.

Act now! This offer will definitely expire very soon! Come in, see the Holmes, check it point by point.

**Behind the Scenes
in Hollywood****Close-Ups.**

Hollywood—One of the really fascinating stories in Hollywood is Alice White. Much has been written about Alice. Much of the copy has carried a sting. The White girl has stood out as the Cinderella of the screen even in her stellar glory. They've called her dumb. And haywire. They've even snuffed at her picture. How does she get away with it? The answers were not always pretty.

Alice knew what they said. She didn't care much. One saw this by her dress, her conversation, the vague stories bandied around about her.

It was approximately a year ago that Alice's contract with First National neared completion. There was no talk of renewal. Her chief service to the studio had been playing "atmosphere" in the tests taken of newcomers.

And then Famous Players purchased "Gentlemen Prefer Blondes." They needed a Dorothy. Alice was

Hamlet.—The sixteenth child was born to Chief of Police and Mrs. T. W. Miller last week. This makes 13 boys for the chief, besides his three fine daughters. He hasn't fully decided but thinks he will name the latest arrival for Max Gardner.

**TWO CHICAGO BANKS MERGE
INTO \$220,000,000 CONCERN**

Chicago, July 23.—Consolidation of the Foreman National bank and the State Bank of Chicago was completed tonight giving the new organization total assets of \$220,000,000 and making it the third largest bank in Chicago.

Rumors of the consolidation sent the State bank's stock up more than \$150 a share today to a high price of \$940 after selling at \$790 last Tuesday.

Harold E. Foreman, president of the Foreman institution, will be chairman of the new board and Walter W. Head, president of the State bank, becomes president of the institution.

Birthday Dinner.

Friends of J. O. Hartman, 83 years of age, who lives near Toluca, are planning to give him a birthday dinner on the first Sunday in August, which will be Aug. 4 and they urge the general public to attend and bring well filled baskets so that the occasion may be made a big success for all concerned.

Sale Of Valuable Farm Property.

Under and by virtue of the authority conferred upon us in a deed of trust executed by F. M. Bartee and wife, Bertha Bartee on the 18th day of November 1926, and recorded in book of mortgages page 223, we will on

Monday, 29th day of July, 1929
at 12 o'clock noon

at courthouse door in Shelby, Cleveland county, sell at public auction for cash to the highest bidder the following land, to-wit:

Being joined on the N. by John

Welchel and Berry Green, on the E. by John Welchel, on the S. by Hub Crawley and Carl Huske, and on the W. by Tink Cobb; and being composed of those two tracts of land conveyed to F. Marion Bartee by V. A. Humphries by deed registered in book "NNN" page 431; and by G. E. Scruggs and wife, by deed registered in book—page

of the office of the register of deeds of Cleveland county, N. C., and being described by metes and bounds as follows:

Tract No. 1: Beginning on a birch, Berry Green's corner on the E. side of Ashworth creek, and running thence N. 65 1-2 W. 56 1-2 poles with Burt Green's line to a stone, his corner; thence N. 1 1-2 E. 94 poles with R. L. Cobb's line to a maple, Cobb and Rupp's corner; thence S. 89 1-2 E. 22 1-2 poles to Ashworth creek, Berry Green's corner; thence up Ashworth creek, Berry Green's line to the beginning, containing Thirty-Two and Two-Thirds (32 2-3) acres.

But she did her best. She worked like a busy private in her last picture, wherein she was called upon to be a versatile musical comedy trouper as well as talky actress.

About this time she met Sid Bartlett. Sid is tall and clean cut. He looks others straight in the eye. He knows what it's all about. He is known on the New York stage. Sid is a singer with a grand voice. He met a lot of girls in Hollywood. He met Alice White. They liked each other. The like grew to friendship. It may have grown into love. One can't say for sure.

Alice intrigued Sid. So did the gossip stories about her. He has discovered the stories to be founded on verbal frost for the most part. He has found, too, that there are glimmering depths to the girl, depths befogged by uncertainty, fluttery humor, fear. They've been going together several months now. Alice has changed. She's getting acquainted with herself, which is always a shock, if one waits too long. She's passed that stage. She has quieted. One doesn't hear her nervous giggle in public any more. She's stopped playing up to a cold audience.

Last week First National destroyed her old contract, destroyed it before it expired. She has a new one, and her salary has shot to four plump figures a week. A man who really knows motion pictures said to me recently that if Alice White keeps her feet on the ground and her head out of the clouds within two years she will be among the biggest box office attractions the screen has ever known.

It's fascinating drama to see a youngster survive extravagant perfidery and character stripping of conversational Hollywood. It's fascinating, too, to realize that millions of picture goers elect whom they choose to stellar heights, regardless of native prejudice, pro or

anti.
