Head Of Anti-Blue Law League Kicks

Washington High School Teacher Writes Hoover A Letter That Bristles With Criticism.

Washington.—President Hoover's refusal to receive a group opposing enactment of a Sunday closing law here, after he had received advocates of the measure, is protested in a letter sent him by Henry Flury, president of the National Association Opposed to Blue Laws. Flury is a teacher here at the Eastern high school.

The letter from the anti-blue law leader bristles with criticism of the president and bitterness toward Bishop James Cannon and other "theological politicians."

Flury was prompted to write the letter by the fact that President Hoover received a group, including Bishop Cannon, Canon Chase and the Rev. Harry Bowley, who sought to impose the restrictions on Washington's Sunday.

Shortly after this group had been received, a group representing the opposition called at the White House, but was informed that President Hoover would not receive them because of a change of policy which sought to prevent the use of such activists as a cloak of propaganda.

"It is not really essential," Flury wrote, "as far as the National Association Opposed to Blue Laws is concerned, whether its representative see you or not, but a sudden change of policy, which seems to put one group—a narrow-minded bigoted minority—in a favorable light, and another group—the progressive, liberal minded majority—in an unfavorable light by showing them the back door, is utterly unfair."

"Our committee felt that as a matter of courtesy, not as a right, it was entitled to at least a fifty-fifty proposition. Too long, Mr. President, has this Cannon group dictated to American citizens petty personally restrictive regulations."

"The unhappy impression now current, so far as I can discover, is that you are afraid to antagonize theological politicians like Bishop Cannon, Canon Chase and Rev. Dr. Bowley."

"Recent revelations by Mrs. Mabel Willebrandt and others, the preferential treatment accorded theocrats at the White House and certain other indications, are raising grave doubts in the public mind as to just what debts and obligations were contracted in the last presidential campaign."

"This matter of theocratic dictatorship is engaging the serious attention of all American citizens

who look with fear upon any militant church aggregation that seeks to dominate civic life."

Honk Answers Not.

New York.—Failing to get a reply from Henry Ford to a letter appealing for advice on how to keep the streets of Queens Borough clear of abandoned autos, officials there have formed a special police guard whose duties will be to patrol the principal highways and force disgruntled owners to suffer some more.

Perhaps the way to state a great truth is that men wear too many foolish clothes and women not enough sensible garments.—Boston Shoe and Leather Reporter.
