At The Theatres

The college which is perhaps the most famous in the world in reality doesn't actually exist. It is the locale of "College Love" the Universal college special Friday and Saturday at the Webb theatre with George Lewis, Dorothy Gulliver, and Eddie Phillips in the leading parts. It has become so well-known because it has been the screen "alma mater" of the Carl Laemmle, Jr., "collegians" series, which proved so universally successful as show subjects that the present feature was made in full length because of the demands of thousands of fans.

Zane Grey, who is probably the best known American fiction writer, is the author of "Stairs of Sand" the romance of old Arizona, which was recently completed as a moving picture at the Hollywood Paramount studios and which comes to the Princess theatre Saturday.

Zane Grey's first book was a success, as were all of his romantic western stories which followed. The phenomenal popularity of his stories brought the sale of each to over one million copies. Paramount has contracted for the screen rights to all of them.
"Stairs of Sand" is the twenty-first Zane Grey novel to be picture-ized by Paramount, and is a worthy successor to a long line of successes. Wallace Beery, Jean Arthur, Chester Conklin, Fred Kohler, Guy Oliver and Phillips R. Holmes comprise the splendid cast which will be seen in the picture.

Train Pulls Up At Garage.

From The Wall Street Journal.

It may not be long before the railroads of the country will begin to use the roadside garage and repair shop for repairs to their equipment. A start in this direction was made last week when the "Katy Flyer," the M-K-T's crack train had a broken piston valve on the engine near Temple, Texas. The engineer coasted until he came to a garage, stopped his train, had the valve repaired at a cost of 75 cents and pulled out 30 minutes late.
