## Barbers Give High Lights As Reason

Shelby barbers today explained that their announcement that hereafter their shops would close at 7 o'clock each evening was because of the high light rate for their shops, the rate forcing them to close as early in the evening as possible.

## Chief Leaving At Time He Was Killed

(Continued from page one.)

The colony, took the witness stand to give an eye witness account.

Says Shotguns Drawn.

He testified a guard had tried to stop them when they entered the grounds occupied by the strikers, that four men inside the labor hall drew shotguns on him when he went to the door, and that men women and children had cried out, "Shoot them, shoot them," as they were walking away.

Then followed the salvo of shots from knot holes inside the building, and after he was shot down by a load from a shot gun, he turned and fired his pistol once before a second load knocked the pistol out of his hand and he lost consciousness.

Mrs. Grigg On Stand.

Roach followed Mrs. Walter Grigg to the witness stand. It was Mrs. Grigg who had called the police to come to the tent colony, she testified, after she had understood one of the strikers had been injured.

The other witnesses today included Otto Mason, who occupied a house adjoining the grounds occupied by the strikers and who saw the shots fired that killed Adherolt.

Likeness Of Chief.

The most dramatic moment of the day came early in the morning just after Dr. McConnell, the first witness, took the stand. A life sized figure shrouded in a black drape was turnd into the court room at the request of Solicitor John G. Carpenter.

It was halted where every one could see it and defense attorneys began a chorus of objections. The shroud was removed and there clad in the dead man's blood spotted clothes, wearing his slouch hat and strapped with his "Sam Brown" belt was a likeness of the police chief in plaster of Paris cast.

Defense attorneys continued their protests. They agreed to admit into the evidence that the police chief had been wounded and Judge M. V. Barnhill ordered the figure carted from the room.

Dr. McConnell, however, introduced some important testimony later without the aid of the figure, showing that the police chief's wounds had all been in the back.

Says McGinnis Fired First.

Mason, in his testimony, declared that W. M. McGinnis, a guard at the colony, had fired the first shot. He made the statement on cross examination in response to a question by Judge Barnhill.

"I ask you if one of the officers did not fire the first shot and if McGinnis did not fire into the ground?" Tom P. Jimison, defense attorney asked.

"No," Mason replied. "Mason said a 'crowd' standing at the door of the labor headquarters had shouted 'shoot him, shoot him!' and he identified in this group Fred Erwin Beal, of Lawrence, Mass., and Miss Vera Buch, of New York, strike leaders.

## New Show To Play Fair Here This Fall

(Continued from page one.)

fine race program, and will have some of the fastest pacers and trotters that will be seen on any track in the south. Our races start each afternoon at two o'clock.

"One of the features of our fair that we find most enjoyed and appreciated by our friends is the fireworks. This year we have an entirely new fireworks program, different each night and plenty of it. Firing begins promptly at 8 o'clock.

"We have never made excuses for our free acts because we have felt that we have always had a free act program as good as the best. We have tried to interpret your likes and dislikes and we believe that to a large degree we have succeeded.

This year we have a free act program that we know will please every man, woman and child that sees them. We do not have a small act on our entire program. Each act is a feature within itself. Program starts at 6:45 p. m.

A Horse Act.

"If we have a real feature performer on our program, she is Mme. Bedini and her horses, one of the most beautiful horse acts in the world.

Other Feature:

"Sir Victor's Comedy circus, presenting educated ponies, monkeys, funny clowns and dogs, and horses that play football.

"Carl Manello and company, a thriller on a high revolving ladder, featuring a musical bell ringing number, while balancing on their heads, on a revolving ladder.

"Jean Jackson troupe, an accomplished troupe of cyclists using every form of bicycle and unicycle in a swift moving style full of original thrills and feats.

"Four Eastons, are direct importations from Europe, having played all the leading theatres and circuses of that continent, and this is their first appearance in America. Their act includes double and backward somersaults, pirouette and somersaulting to and from three high trapezes. The Eastons are truly a sensation."

### New Geography Is Order Of Day Now

Washington—Changes have been breath-taking swift in the capital of Europe's newest monarchy, Tirana, Albania.

Seventeen years ago Albania was a province of Turkey. For a brief interval before the world war it was an independent monarchy, ruled by a German prince.

The country was occupied by the entente in 1917 and then became a republic. In 1925 Ahmed Beg Zogu was made its resident. Last September, President Zogu became King Zogu. And within the last few weeks the king has changed his name: he is now King Zog I.

Albania was virtually an unknown land before the world war, and Tirana was a little known as the rest of the country, the National Geographic society points out.

Durazzo, the chief city, and now the port for inland Tirana, was the capital in those days and the most visited spot in Albania. Tirana lay only 20 miles inland, but the road was almost impassable and the only mode of conveyance was by springless oxcart or by donkey-back.

Since Tirana was made the capital the situation has completely changed. An excellent highway connects the capital and its port.

The mosque, domes and minarets that once dominated the city's skyline are being encroached upon by modern government buildings and legations of foreign governments who recognize Albanian sovereignty.

Hotels are also poking their upper stories above the red roofs of old Tirana's mud-walled structures, and new avenues, parks and public gardens have been laid out for the enjoyment of the city's inhabitants and guests.

Albanians are not a traveled people. Their first railroad now is under construction between Durazzo and Tirana, and save for a narrow rim along the Adriatic seaboard, there are few roads within the country's borders.

But the social aspect of the capital has changed with the coming of representatives of foreign governments. At the new sports club, Albanians rub elbows with resident diplomats, and the Albanian women now compete against the ladies of the legations on the tennis courts.

The Tirana market place is one of the few spots in the city that has not been disturbed by the newcomers and here, among the vegetables and fruits piled on the cobblestone roams of the surrounding mountains and valleys, apparently unmoved by the changes taking place in their capital.

Well it won't be long until we will be eating Hot Dogs at the Fair Ground for dinner. Have you made arrangement with us for the cheapest and safest transportation possible, to take you from your home to the Fair Ground and back. We have it in the New Model "A" Ford and we will welcome the opportunity to prove this statement.

"How is the highway from here to Bunkport?"  
"Finest I ever detoured around."

We recently delivered the Cleveland Springs hotel a nice model "A" Station Bus. This bus will be used for the transportation of the guests of the hotel.

"My wife had run away with a man in my car."  
"Good Heavens. Not your new car?"

Mrs. Bloop: "Does your car have a worm drive?"  
Mrs. Bleep: "Yes, but I tell him where to drive."

Mr. Tom Dedmon came in the other day and had us to fix up a new Model "A" Tudor Sedan. Ask him what he thinks of it.

A woman teacher, in trying to explain the meaning of the word "slowly" illustrated it by walking across the floor.

When she asked the class to tell her how she walked, she nearly fainted when a boy at the foot of the class shouted "Bow-legged, ma'am."

Motorist: "These chickens in the road cause a lot of accidents. Farmer: "But not as many as the chicken beside the driver."

We also delivered Mr. Raymond Lewis, Shelby, N. C., a New Model "A" Sport Roadster.

Interviewer: "Now what is it a woman values most in a car?"

Salesman: "A man who'll drive the way she tells him to."

Do not forget to visit our booth at the Fair this year. We are going to have something entirely new and an exhibit that you will not forget.

Mr. F. M. Newton came in yesterday and took a new model "AA" truck home with him. He was very lucky to get it yesterday. We had to get a special order through the plant at Charlotte to get it for him. The great demand for cars and trucks have made the Model "A" hard to get.

Miss Eulalia Elliott, R-2, Lawndale, N. C., came in the other day and purchased a New Tudor Sedan. She is going to use the car to drive to school this winter. I'm sorry children your teacher won't be absent or late any this winter.

J. B. Hardin, R-2, Blacksburg, S. C. also purchased a Model "A" Fordor Sedan.

"Young man, you are on the road to ruin."  
"Mebbe so, but there are some swell parking places on it."

A new slogan—  
Why take life so seriously?  
You'll never get out of it alive."

Girl Friend: "John, what do you think of the Community Drive?"  
John: "Oh, I know a much better place to park than that."

The Model "A" has proven that it is a car fit for a King. King Alfonso, of Spain purchased the first Model "A" delivered in Spain. He recently visited the Ford plant at Barcelona. After his tour of inspection he said: "Now I see why the Ford is so sturdy."

We sold 50 units during the month of August. How many will we sell this month?

# HATS

NO longer do men just "buy a hat"—for they know the importance of Proper headwear. While Becoming Style is the first consideration, it is necessary to have an appropriate hat for every occasion—business, sport, and dress. Many stylishly dressed men will be seen wearing the SCHOBLE "Feature"—its graceful lines are suggestive of culture and refinement.
