IRELAND PUZZLED BY SOCIAL PRECEDENCE

Dublin.—The problem of precedence, which recently disturbed Washington society, is rearing its head in the Irish Free State. Who is to follow whom, and why, cannot be determined, despite the prevalence of titles in Dublin, for the titles are all British and the Free State forbids recognition of any title except those conferred by it.

It has been suggested that a national order of merit be established to maintain precedential order at social functions. It is understood that the government favors this proposition, which an opposition condemns it as undemocratic.

Cool And Collected.

A few minutes after an alarm of fire was given in a hotel, one of the guests joined the group watching the fire, and chaffed them on their apparent excitement. "There was nothing to be excited about," he said. "I took my time about dressing; didn't like the knot in my necktie, so I tied it over again—that's how cool I was."

"Fine," one of his friends remarked, "but why didn't you put on your trousers?"
