that tend to destroy garden stuff.

Bill Believes Horned Toads Would Toads will destroy boll weevil, and Eat Up Boll Weevils Here. Bill's So Dry.

## Editor of The Star:

I must have started something when I offered to send a Horned Toad to anyone that wanted one in North Carolina or elsewhere back east. I have received inquiries from as far away as Richmond, Va., and as far south as Georgia. It seems like The Star reaches out to many places outside of Cleveland county. I am, however, always glad to accommodate as far as I possibly can and if everybody that asks for them do not get Horned Toads it will be because there are not enough of them and then they immediately them in Arizona and old Mexico and get busy and cut or horn their way I might add that the supply seems out again much to the snake's disto be unlimited in this country. Getting boxes to ship them in is a will never again look like anything harder job than finding the tried much. that had the appearance of cemp Toads. They are such victous looking little fellows that I fear that cut almost to peices and until latethe recipients of them will become unduly frightened when they open. the packages and Mister Toad assure me that is how the Horned jumps out very much alive desnite his three thousand mile journey in Uncle Sam's mail. But I want to suggest that one need not be afraid of them-they are not polsonous and neither will they bite. On the contrary they are very fine little pets and they must be kept supplied with plenty of red anis and other small insects.

If the farmers will keep their cotton fields supplied with Ho;ned Toads and train them to kill boll weevil, I do not believe it would be and 28th, and this was followed by long until the boll weevil evil bull fights and a rodeo would he entirely climinated in any state. They surely would not hur! the cotton and plowing the fields would not disturb them very nuch.

be making me prove that Horned

WITH all leading tire manufacturers producing at least three different qualities of tires, at three different prices . . . naturally the motorist is "up in the air" when it comes to knowing the quality of the tire he buys.

SUPER-SERVICE

With RIVERSIDES, this confusion simply doesn't exist? Montgomery Ward & Co., like other leaders, offers you three different classes of tires. But the quality of each tire is clearly designated by a definite and specific mileage guarantee . . . on the Super-Service RIVERSIDE, an unconditional guarantee of 30,000 miles; on the regular RIVERSIDE, 16,000 miles; on WARDWEAR, 10,000 miles.

Brand names mean nothing to you unless you know what quality of tire you are buying.

A definite mileage guarantee on each grade of tire is the only sure method we have ever found for clearly defining tire quality to the buyer before he buys!

And just as there is no question about RIVERSIDE quality, there is none as to your price-saving. We believe that, in either the RIVERSIDE or in the WARDWEAR, you get a tire that no other brand equals-whether you are considering quality or price-or both. That's why we say-Don't Pay More For Other Tires Unless More Miles Are Guaranteed
