LOCAL FIRM GETS VALUABLE AGENCY

Cleveland Drug Co. Secures Exclusive 5 Year Franchise For New Celebrated Scientific Formula.

Local citizens who have heard of the amazing results which have been accomplished by Sargon will be interested in the important announcement that this new and scientific formula can now be obtained in this city.

Manufacturers of this revolutionary medicine have followed out the policy of selecting outstanding firms as exclusive agents in every city where it has been introduced.

Leading druggists everywhere have acclaimed it as a triumph in the field of modern chemistry and have been eager to be among the first to supply it to their trade.

Never before in the history of the world has the progress of Medical Science been so rapid. One important discovery after another has been made which will have a far-reaching effect upon the health and well-being of mankind.

Of course, sooner or later, they got around to personal matters. Gruber wanted to know how long Dorton had been promoting fairs, and Dorton, in turn, wanted to know how long Gruber had been entertaining fair visitors.

"Ach!", Gruber ruminated as his twinkling brown eyes gazed back through many years of the fanfare of the sawdust trail.

"I've been on the lots for many years. Mebbe too many of 'em, but I've had a great time!" And then he told some of his story.

To movie fans it should be an interesting yarn. A dozen or so years ago, perhaps longer than that, three young men followed the "carnies" (as showmen call carnivals) and operated a confetti stand.

Having knowledge of these important discoveries, one of America's leading bio-chemists succeeded, after two and one-half years of laboratory research, in combining many of these basic elements in one formula—which may well be considered one of the greatest health-sustaining remedies of the age.

It is called Sargon. This formula and the formula for Sargon Soft Mass Pills, which are an essential and integral part of the treatment, are the property of the Sargon Laboratories and can be obtained by no other firm or individual in the world.

This new scientific treatment, which represents much of our latest knowledge on modern therapy, has been acclaimed by druggists throughout America as a triumph in the field of pharmaceutical chemistry.

With the needs of their customers uppermost in their minds, leading druggists everywhere have been eager to be among the first to supply it to their trade.

The exclusive agency for Sargon and Sargon Soft Mass Pills for this city and section has been awarded to the Cleveland Drug Co.

Around Our TOWN Shelby SIDELIGHTS

By RENN DRUM

This is a story of the type Odd McIntyre likes to tell and of the brand Horatio Alger once wrote, but, even if it has been related before, we're going to spin the yarn.

Shelby was visited recently by a little man of the Hebrew race who knows by experience that it is a far happier life to be a big fish in a little pond than to be a medium size fish in a big pond.

The owner of the Rubin and Cherry shows, which played the Cleveland County Fair, is known throughout the show world, and in big circles, too, as Rubin Gruberg. The story deals with him, although no great number of merry-makers thronging about the Cleveland County Fair knew just who the little fellow was. Nor would we had it not been for Dr. Sjb Dorton, the fair secretary, who can do and hear more things during fair week than —well, than whatever you have.

On one of the rainy days which swooped down upon the fair Secretary Dorton and Mr. Gruber were huddled in one of the midway stands talking the time away as they awaited some very desirable sunshine.

Of course, sooner or later, they got around to personal matters. Gruber wanted to know how long Dorton had been promoting fairs, and Dorton, in turn, wanted to know how long Gruber had been entertaining fair visitors.

"Ach!", Gruber ruminated as his twinkling brown eyes gazed back through many years of the fanfare of the sawdust trail.

"I've been on the lots for many years. Mebbe too many of 'em, but I've had a great time!" And then he told some of his story.

Man so Nervous Feels His Stomach Jump

"I got so nervous my stomach felt like it was jumping. Vinol entirely relieved the trouble. I feel better than in years."—J. C. Duke.

Vinol is a compound of iron, phosphates, cod liver peptone, etc. The very FIRST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how QUICK the iron, phosphates, etc., give new life and pep. Vinol tastes delicious. Quinn's Drug Store. adv.

BRITISH FIND ANIMALS THAT WRECK STEAMSHIPS

Sydney, Australia.—A possible explanation of the sudden appearance of uncharted reefs has been discovered by a British scientific expedition that has been studying the Great Britain reef off Queensland for more than a year.

The discovery is that coral polyps, the builders of these reefs, double themselves in six months. This speed means that a reef out of sight today may show at the water's surface a year hence.

PSYCHOLOGY VALUABLE ASSET IN WALL STREET

New York.—Psychology has displaced mathematics and economics as the best asset for successful security trading.

Mathematics and economics retain a large degree of importance. Earnings, a company's position in a given industry, and the position of that industry in the general economic structure, are factors which must be considered in judging the value of a security.

But with many popular stocks selling from 25 to 30 times their earnings, and the best economists of the country disagreed on whether the future will justify such prices, successful trading in the most active issues has come to be little more than successful guessing on popular or professional reactions to current developments.
