Mrs. John Dysart Is Buried At Rehobeth

Was 78 Years Of Age. Husband Preceded Her To Grave 20 Years Ago. Two Children.

(Special To The Star.)
Mrs. Katherine Louise Dysart, wife of the late John Dysart of New House departed this world Wednesday night, October 23, 1929 at 8:30 o'clock. She was 78 years of age. Her husband preceded her to the grave 20 years ago.

She joined the Trinity Methodist church at Dysartville when a young girl, but later moved her membership to Rehobeth Methodist and remained a member there until her death.

She is survived by the following children: Mrs. Lee Whitesides of New House with whom she made her home with, and Mr. Charlie Dysart of Eatonton, Ga. Five grandchildren also survive; one sister, Mrs. Nancy Dysart of Lincolnton, and three brothers, Messrs. Collette Laughridge of Gastonia, Mark and David of Dysartville.
Her remains were laid to rest at Rehobeth Friday, October 25 at 2 o'clock. Rev. J. D. Bridges conducted the service.
Mrs. Dysart was loved by all who knew her. She lived such a Christ-like life we feel as if our loss is heaven's gain.
Her grave was covered with beautiful flowers, which showed the high esteem in which she was held. The flower girls were her nieces and the pallbearers were as follows: Messrs. H. H. Gold, B. P. Jenkins, Guy and Burgin Grigg.

to improve on them. By taking a time in grading and packing eggs before sending to market, in many instances a better price would be realized. Although all eggs are bringing a good price right now and will continue to do so for another two or three months, it is worth your time to grade and pack them carefully.
Candle every egg, and then grade them for color, size, and weight, packing only those of standard quality. Do not wash dirty eggs and put them in the same case with the rest unless you are selling for immediate consumption. Eggs that are slightly soiled may be wiped off with a damp cloth. If you keep the nests clean, you should not have any dirty or soiled eggs.
Hold your market eggs in a rather cool, moist, clean place. Avoid storing them where they may absorb odors. Try to take your eggs to market at least once a week for the quality decreases every day they are held.
To produce high quality eggs, you have to feed the layers a balanced ration made up of clean, wholesome ingredients. Give the birds everything they need to produce eggs and they will put out an extra fine product for you. More than that, they will lay more eggs. The profit

you will make for the year from your flock is determined in a large way by the production you get this fall and winter while eggs are bringing a good price.

Hog growers of Washington county are attending pig clinics held by Dr. S. O. Benson to show the value of swine sanitation.
