

Queries Of Shelby People Answered By Madame Olga

Many letters awaited Madame Olga at The Cleveland Star when she arrived in Shelby this week to appear with the Mysterious Smith company, playing a week's engagement at the Princess theatre. Termed a mentalist, Madame Olga agreed to answer all queries sent her through The Star.

Questions asked Madame Olga through The Star and not answered as yet are to be answered in Friday's issue and Monday.

Today's answers:
Mrs. L. M. K.—I should say your husband is not living with another woman. Owing to his experience with you in the last few years, he can't stand women. When he returns late this spring, get over your grievance and treat him as you did five or six years ago.

Mr. Leroy N. P.—You will be able to cancel your indebtedness by June 1, of coming year. A local banker will help you out on that mortgage.

Arch R. F.—See a change for you

late in the coming year. You are to go in a north and western direction and will have reason to be glad you have made the change.

Mr. R. F.—You are to have a very bright and prosperous future and your marriage which will soon take place is to be very happy.

Mrs. John A. P.—You are to receive your share of the estate in October, all heirs are to be well pleased with the settlement. The trouble you anticipate will not come up.

B. M.—The sailor you ask about is over at New Port News, Virginia, at the present time. You will receive news of him from New York about the middle of February.

Clara E. M.—You are to have a bright and prosperous future. Year of 1930 is to prove eventful and successful for you.

Blue Eyes—You are to recover your health very soon and future for yourself and husband will be very happy together.

M. E. M.—You have misjudged your husband, he is true to you.

J. H. R.—Yourself and wife are to reunite with in the next two

months. She does love you.

H. W. G.—You are to continue with your present course of study and will have every reason to be glad you did so.

Donald B. J.—I do not advise you to go to California. Will be a good opening for you in Baltimore early in May and you will have a very successful future.

M. B.—Your husband loves you and is not interested in any other woman.

Mrs. C. G.—Your husband is to have a successful business future. There are to be two children in your life.

Mr. W. H. G.—As it appears to me your wife will be restored to normal, I do not see clearly enough to give exact time but appears to me to be with in the next six months. Set decided change for better in your affairs in the near future.

M. E. N.—I see a very happy married future for you. Your marriage will take place within the next fifteen months. I do not see exact time. Your married future will be happy and prosperous.

Mary D.—Your brother John is living, you are soon to receive good news of him. Sorry I cannot see his exact location. The news you are to receive of him is to come from some place in Canada.

Bessie W.—You are to receive the money you expect very soon.

Mrs. S. M. S.—Your husband is to be very successful with his new position.

D. W.—You will be very successful with your undertakings. 1930 will prove a successful year. However, do not transact any important business deals during the first week in January.

Charles B. G.—Mary will make you a splendid wife, and I would not delay the wedding longer. Mary may get tired waiting.

B. E. S.—While I do not see clearly the details, it does appear to me that you will be able to purchase the property you are anxious about within the next six months.

C. W. C.—Advise you to remain with present employer, advancement within the next three months.

Miss M. K. R.—The party you suspect did not take the money

from your purse. Your young brother had a bite and no money. He only meant to borrow the money and will get you paid back in about a month.

Mrs. D. H.—Your husband will keep his promise in regard to drinking and keeping his money. His intentions are good and he will have the strength to stick to his promise.

Mme. Olga will answer questions every day this week through these columns, and she also answers questions from the stage at each performance of The Mysterious Smith company at The Princess Theatre.

GARDNER URGES CATTLE ON FARMS

Raleigh.—Governor Gardner, who has spoken even as the state roads have run, in nearly every county seat and principal town, found a way to do all the speaking that will be necessary during his incumbency—he reached for the microphone and yelled at the Edgecombe county farmers.

Literally he went three blocks, buried himself in a room and read a lecture on the farmers of Edgecombe county. Just three days from the beginning of his live-at-home week celebration, he rubbed his home-living business into the farmers. Edgecombe county was rated high by his excellency, but he told the farmers that they think mighty little of a milk cow down there and his excellency is a powerful friend of "coboss."

The six counties about Edgecombe produced \$25,000,000 worth of tobacco last year, one fourth of the whole state crop which brought \$100,000,000. These six raised eight per cent of the corn and 12 of the hogs. The governor thought that was good. But he was unhappy to reflect that this group of counties rates very low on milk cows. There are less than 10,000 cows in these six counties, on the 4,000 farms in Edgecombe there are fewer than 1,500 cows, 1,450 to be exact.

He did not tell the people to stop cash crop farming. He merely told them to stop buying butter, milk, bread, meat and other food-stuffs which they could raise without buying. In the present plight of tobacco and cotton Governor Gardner thought it tragic if farmers this winter should be driven to spend their money on foods.

Prehistoric Human Skeletons Located

Believed By Scientists To Have Been Among First Ancestors Of Human Race.

Peiping, China.—A limestone bed at Chow Outien, 30 miles from here, was believed by scientists today to have yielded skeletons of ten men who probably were among the first ancestors of the human race.

Nine of the skeletons were headless, leaving to belief the limestone bed may have been the scene of pre-neanderthal executions and beheadings. In such a case, since the skulls were not found, it was suggested the heads may have been removed for some strange prehistoric rite.

The one skull discovered, unearthed by a Chinese geologist, was believed to have belonged to a species of the famous "Peking man," the "Sinanthropus Pekinensis," said to be associated with the period of the Pliocene skull and the Java Ape man.

Many of the bones discovered were broken sharply, as if by human hands. The scientists in reconstructing the life of the distant day, suggested the ancient man may have done this in order to get the marrow, probably considered a delicacy.

The scientists who have worked in the limestone quarries where the "Monkey Man" jaw teeth were found in 1928. The scientists believed that with the discovery of the skeletons sit of a prehistoric, probably pre-neanderthal home of a distinct time of primitive man has been uncovered.

The scientists were said to believe they had enough material to reconstruct the entire life-drama of the prehistoric colony, or at least to sketch a portrait of man as he existed near Peiping more than a million years ago.

"The average American is not worrying about his sins, but he is worrying about his weaknesses."—Dr. Frank Lynch.

3 County Couples Marry In Gaffney

Judge Lake W. Stroup Is Planning For 200 Marriages During The Holidays.

(Special to The Star.)

Gaffney, Dec. 19.—Among one of the interesting events which occurred in Gaffney, S. C. from Cleveland county, was the marriage of Mr. Carl Bridges of Shelby R-5, on Miss Mamie Green of Shelby, on December 18. The groom is the son of Mr. and Mrs. Columbus Bridges of Shelby R-5, while the bride is the charming daughter of Mr. and Mrs. W. R. Green of Shelby. The bride and groom were accompanied by his brother and brother's wife, Mr. and Mrs. Everett Bridges of Kings Mountain and Miss Wilda Bridges and Miss Corrine Green of Shelby.

One other interesting wedding was that of Samuel Lovelace to Alice Lell of Mooresboro.

Also Paul Warlick of Casar who was married to Miss Ossie Wright of Fallston, a very charming couple. They were accompanied by a host of friends.

Judge Stroup has a real place to perform marriage ceremonies from North Carolina and elsewhere since moving into one of the most up-to-date new court houses of South Carolina. He says that he plans to perform 200 marriage ceremonies during the Christmas holidays of this year.

Venerable Companies.

(From The Wall St. Journal.)

Although the United States may lay claim to having more industrial concerns than any other country, it certainly cannot compete in length of life of manufacturing companies with the Old World. Any firm here which is 30 or 40 years old is considered unusually long established, and examples of longer life are few. In Germany, however, there are two hardware firms which made horseshoes for George Washington's Continental army, and have been in existence more than 200 years. There is a large chain manufacturing concern in Germany which has carried on under the same name for more than 400 years. But the granddaddy of them all is the copper producing business of Manfeld Kupfer A. G., which has borne that title for about 700 years.

Loan Approved.

Berlin.—The reichstag today voted 465,000,000 marks, about \$100,000,000 for which the finance ministry has been negotiating with Dillon, Read and company, of New York. It was said that decision on granting the loan must still come from New York.

LIGHTING THE WAY

Young America always likes to have a good time, even at Christmas; we asked one of the boys the other day why he tied a tin can to a certain dog's tail? "That's where I always tie them, Mister," he replied; "if you know of a better place I'd like it if you'd tell me."

We don't know of a better place to get better gas and oil than Sinclair and Opaline right here. If you have used these products you will know that this name stands for superiority in quality and results.
