Nobody's Business

GEE McGEE—

He Broke Out Of Debt.
Mr. Hittom Hard wound up in bankruptcy last week after a 7-years struggle with adversity and all is quiet around his little store since the sheriff called.

Mr. Hard went into the mercantile business in 19 and 23. At that time, he owned a 75 acre farm, but conditions became so bad in 19 and 27, he sold the farm to his wife for \$5 dollars and love and affection. His creditors never did learn what he did with the 5 dollars.

Mr. Hard has nothing left now except his wife and her automobile and her radio and her farm and her household goods and her children and her house and lot—which she bought with the money she made in the store. (She clerked on Saturdays). The future looks dark for him, but he thinks maybe they will move back to the farm.

The oil company sent and took up his tanks. The scale agent repossessed his 2 pairs of computing scales. The cash register salesman levied on the cash register owner count of Mr. Hard skipping 2 payments. Bill Holdem claimed six months rent and got that. The tax collector quizzed folks and other about the past due pledges to the tax commission.

The flour and meat and lard and coffee and sugar and crackers and salmon had been sold and possibly eaten up. Mr. Hard's married son owes for the ration he bought during the past 3 years and the creditors will come into possession of Jerry's bill. Mr. Hard says the account is plumb good—provided Jerry ever gets the money. Jerry is all right, but is a good debt dodger himself.

We feel mighty sorry for Mr. Hittom Hard. He did the best he could when the high cost of living is considered. Then the depression caused by the stock market bust must be considered. Gasoline and garage bills were exorbitant. And the children had to have things. Poor, poor Mrs. Hard: she looks so sad riding around in that Super-Six. Our heart goes out to her and the kid's along with our receipt to Mr. Hard.

SAYS ELECTRIC LIGHTS DON'T FOOL ALL HENS

St. Paul, Minn.—Add the hen to those who can't be fooled all the time, says Dr. F. B. Hutt, poultry specialist of Minnesota state college.

A few of them, he says, will continue to augment their day's work by laying another egg—at night if electric lights are turned on after they have gone to roost, but most hens will strike when they discover their mistake and lay few eggs, day or night.

Twelve hours on the roost and 12 hours in the scratching pen or nest is the ideal working schedule for the productive hen, Dr. Hutt says.

156, NEVER TOOK DRINK AND HAS BURIED 11 WIVES

Istanbul.—"One hundred and fifty-six years old and never took a drink," is the boast of Zaro Agha, Turkey's longevity champion, who will abandon a job as bookkeeper at the city hall here at the end of April to sail for New York at the invitation of the American Anti-Alcohol society.

The society intends to exhibit the aged man throughout the United States, calling attention to the teetotaler's mental and physical vigor. Zaro, who has buried eleven wives, will leave his twelfth at

His Own Car.

"I've been watching that mechanic for the last 15 minutes. There's a man who knows his business. He didn't spill a drop of oil on the ground. He put down the hood gently, fastened it securely, and left no fingerprints on it. He wiped his hands on clean waste before opening the door, spread the clean cloth over the upholstery, meshed the gears noiselessly, and then drove slowly into the street."

"Yes, that's his own car."

Kinston.—Lenoir county is leading

the way in tax reform in North Carolina, its "business administration" having reduced the current levy more than 60 cents from the previous year's levy. Only two counties in the state have made greater proportionate reduction.

Greer, S. C.—Former students of Due West-Woman's college are being urged by Frances Wideman, chairman of the infirmary committee, to send in contributions to be used to furnish the newly completed infirmary for the woman's division of Erskine college.

CONSIDER

THE MAN BEHIND THE BANK

THE foundations of a bank are more than metal and money; glass and gold. They are human too. The personnel of a Bank is the truest criterion of its merit—the surest basis of judgment. The officers of this Bank are all men who have watched the commercial development of this community—men who are keenly alert to opportunities—who are ever ready to lend the helping hand to any project that bids fair to augment further the community's prosperity.

THAT is why our Bank stands back of so many local business enterprises.

THAT is why we will give close attention to your ideas on business development and expansion.
