Thrift - Nature's Own Scheme

IT IS A PART of Nature's plan for her creatures to save. Witness the dog bury the bone in order that he may not have to go hungry on the morrow! Watch the squirrel hide away acorns for the winter! Notice how the bees work industriously, storing away honey!

Nature instilled the habit of thrift into these lesser creatures. We call it instinct. But nature endowed us with intelligence, hoping we would realize the need for thrift instead of being driven to it by instinct.

Are you choosing to do the thing Nature requires the lower creatures to do? If not, you should begin saving now!

NOTICE TO PATRONS OF THE LATTIMORE POTATO HOUSE.

No potatoes can be put in the Lattimore Potato House the fall of 1930, unless the seed potatoes for s'ins are treated at the Lattimore Potato House under the supervision and inspection of P. M. Coley, Agricultural instructor of the Lattimore High School. Seed Potatoes from other places may be brought here and treated provided they pass inspection. Those desiring to store potatoes next fall must grow them from seed thus treated and inspected, or obtain s'ins from some one whose seed potatoes have been treated and inspected at the Lattimore Potato House.

Watch The Star for dates for treatment and inspection at the Potato House. We have some Seed for Sale.
