Talk Hamrick As U.S. Marshal If Jackson Wins

Boiling Springs Man Has Good Chance

If Jackson Is Elected To Congress County Republican May Land His Job.

Charlotte.—With United States Marshal Brownlow Jackson definitely in the race for congress from the tenth district on the Republican ticket, persons with an eye on the office that he will leave, if elected congressman, are in action.

Those who have already projected themselves to the forefront in this are James M. Baley, of Asheville, who is serving as chief deputy marshal in charge of Mr. Jackson's office routine now F. B. Hamrick, of Boiling Springs, who is a deputy marshal operating out of Charlotte and in charge of the marshal's office in the federal building here; and W. H. (Bill) Barkley, of Hickory, at the present time a census supervisor in charge of one of the North Carolina territories. He is a traveling salesman.

Of the three Mr. Baley is generally regarded to be logical contender for the place, and is thought to have the favor of Mr. Jackson, who will probably have more than any other person to say in the matter of selecting a successor.

Republicans are counting on Mr. Jackson to keep the tenth district now represented by George Pritchard, candidate for the Republican nomination for the senate, in the Republican column.

Republican leaders here who have been in conference with Mr. Jackson recently say that when the congressional race is a little further advanced Mr. Jackson will attempt to secure a form of leave of absence from his post as marshal and appoint someone temporarily in charge of that office until after the election, at which time he will tender his formal resignation if successful in the election.

If such an arrangement is made Baley will be the man selected to take charge, it was further pointed out, which will in turn give him an additional edge looking toward a final inheritance of the post.

Hamrick, on the other hand, is known to stand in favor with perhaps a majority of the state executive committee, which body—according to the rules of the game—would select the new marshal. He is particularly strong with the new set of federal officers in the east, most of whom have been in office but a few months and most of whom owe their office to a movement started by Hamrick, who is also a state committee man, to prohibit federal appointive office holders more than two terms in the same office.

Rev. and Mrs. Jessup were in South Shelby Monday looking over the field and the parsonage. He seemed highly pleased with the prospect for great achievement.

The pastorium is being repainted inside and the grounds will be looked after and the garden planted. Republicans May Vote One Republican Ticket For U. S. Senator, Democrats' Tickets.

Mixed tickets cannot be voted in the coming state-wide primary to be held June 7 under the Australian ballot law passed by the last general assembly, according to John P. Mull, chairman of the county board of elections.

Judge Mull will call the registrars and judges into a conference the first week in June at which time final instructions will be issued as to the rules and regulations governing the primary. Voting, of course, will be done in booths where the voter will be allowed to mark his or her ticket in secret and sufficient voting booths have been purchased by the county to supply each of the 28 precincts in the county.

The tickets will be larger in size than usual, about six inches wide and long enough to accommodate the names of the candidates coming before the voters for nomination.

May Mix In Fall

This is a primary for the nomination of candidates and these candidates are running either as a Democrat or a Republican. Voters must, therefore, vote either a Republican or a Democratic ticket in the primary. In the fall general election when the choice of each party matches strength, a voter may select his choice from either party as the nominees will be on the same ticket.

One Republican Contest

In the June 7th primary, however, a voter will be asked whether he or she wishes a Democratic or Republican ballot. Say the voter is a Republican, one Republican ballot will be handed out. In this primary there are four Republican candidates for U. S. Senate. The Republican voter gets this one ballot on which is printed the names of the four men aspiring to this office, the voter enters a booth, marks the ticket, choosing one of the four, hands the ticket to a Republican judge who deposits it in a ballot box provided for Republicans alone.

No Republican County Ticket

Republican candidates for county offices will not be voted on in this primary. The nomination of Republican county and township officers has been left to the Republican executive committee which will no doubt file the name of one Republican candidate for each county and township office with the county election board of which Jno. P. Mull is chairman by May 23rd. These will be pitted against the Democratic nominees in the November election.

Should two or more Republican candidates seek the same office, they would enter the June 7th primary and be voted on just as the Republican candidates for U. S. senate and the Democratic candidates for county, district and state offices.

How Democrats Vote

Those who wish to become a candidate for office, whether on the Democratic or Republican ticket, must file such notice of candidacy with the chairman of the election board Mr. Mull on or before May 23rd. When one candidate seeks an office and has no opposition he is certified as the nominee and the name does not go before the voters. If two or more people seek the same office on the Democratic ticket, these names are printed on the official ballot and the voters make a choice in the June 7th primary.

As this Democratic voter approaches the election polls, he or she first sees that his or her name is on the registration books. When the name is found to be registered, a Democratic ballot is handed the voter who goes into a booth, marks the choice between the candidates, presents the ballot to the Democratic judge who deposits it in the Democratic ballot box.

Five Democratic Ballots

While there is only one Republican ballot box—that for U. S. senate in which there is a contest with four candidates running, Democrats will vote five ballots, each ballot going into a separate box, as follows:

- United States senate. Congress ninth district. Superior court judge. County officers. Township officers.

In some townships of the county there is no contest for township offices, hence the township box will not be necessary.

Only Official Ballots Used. Only official ballots will be permitted. An official ballot is one printed under the direction and by
