Demurrage Starts on C. O. D. Packages With October 1st

Special attention is called by Postmaster J. H. Quinn to order No. 10347 by Postmaster General Walter F. Brown, amending the Postal Laws and Regulations of 1924 by which all C. O. D. parcels held for delivery beyond fifteen days after first attempt at delivery, or the first notice of arrival at office of address, shall pay a demurrage of five (5) cents per day to be paid by addressee or by sender in case of a return of same undelivered, said amendment to be effective as of October 1st, 1936.

Demurrage will not be payable on parcels mailed prior to but received after October 1st—only on those mailed on or after October 1st, 1936. A demurrage day will count from midnight to midnight. If so indicated, parcels may still be held thirty days but the last fifteen days will be on demurrage. If shippers do not care to assume responsibility for demurrage, they should revise their shipping labels to make parcel returnable after fifteen days if not delivered. If addressee desire parcels held beyond free period, but not exceeding the time-limit, they must pay the demurrage in advance.

State Has Big Cash Balance

It Is Cut Over a Million, But Still in Excess of Estimates—Handled \$100,000,000

Although the cash balance in the State's general fund was cut from \$2,121,079.23 to \$1,046,309.42 during the fiscal year ending June 30, 1936, the balance at the end of the year was \$339,000 in excess of estimates. It was revealed by the combined statement of the auditor and the treasurer which was made public yesterday.

The statement showed a total of \$12,823,931.90 at the end of the year, but aside from the general fund balance there was only \$4,829,746.45 in "free cash" in the highway and other special funds, there being \$1,650,598.43 in outstanding warrants and \$5,387,196.60 in obligations which were met on July 1, consisting largely of bonds, notes and interest.

The increase in the cash balance over the estimate of \$707,000 was due to savings over and above the ten per cent which was set up as the minimum saving on appropriations which totalled over \$19,000,000. Revenue collections approximately met estimates, falling under by \$14,000.

The statement shows that disbursements for the fiscal year were \$24,392,346.13 from the general fund and \$73,735,580.61 from the highway and all other special funds, or approximately \$100,000,000 in all the operations of the State Treasury. However, this figure contains many duplications. Actual expenditures from the general fund amounted to about \$17,450,000, or about \$1,200,000 more than in any other year, with the \$3,250,000 increase in the school equalizing fund largely offset by savings elsewhere.

Total actual expenditures amounted to about \$47,000,000, less than in the years when highway construction was at its height. At the end of the year the State debt was \$176,164,600, also a record. However, this figure is expected to be reduced from now on with bond issues practically at an end.

At The Theaters

For a special bargain day feature, the Carolina theater opened this afternoon with Ruth Chatterton in "Sarah and Son." The day's program is lengthened happily with funny comedies and educational news review reels. Tomorrow's shows bring Jack Holt and Ralph Graves in "Hell's Island," with comedy and songtoon shorts. Saturday will bring a complete change of shows.

The American public has been raving about the girl who can sing and dance and talk. It's Alice White. Alice is on in "Playing Around" at the Webb theater today only, bargain day. Selected Vitaphone acts are on schedule to entertain young and old. Thursday brings a complete change of films, featuring William Boyd and Barbara Stanwyck in "The Locked Door". Saturday's show will be Hoot Gibson in "Roaring Ranch."

Where President May Battle Mountain Trout

The jewel-like Flinch Lake glistening in its mountain setting. It is adjacent to the Two Medicine Lake Basin in Glacier National Park, where Hoover is expected to stay on his two weeks' visit to Montana. The President will most likely try his luck in these waters, which are well stocked with fish. Flinch Peak in the background is 9,225 feet high.

NOVEL BASED ON LABOR TROUBLE AT GASTONIA

Charlotte—A novel based on the Gastonia labor trouble of last year has been written by Mary Heaton Vorse, and will be brought out soon by the publishing firm of Boni and Liveright. It was disclosed here today in connection with a letter that was written by Upton Sinclair, noted author, to Mr. and Mrs. Tom P. Jimison.

Miss Vorse was here during a great part of the labor trouble and subsequent Aderholt murder trial and wrote a daily account of the situation for a New York newspaper. She also wrote several magazine articles that were published later.

Mr. Sinclair had been considering a novel based on the general industrial situation in the South, and in the Piedmont section of North Carolina in particular. It is not likely that he will undertake the writing now that the situation has been embodied in a novel by another.
