New York, Aug. 13.—Last night's weather map mostly cloudy, showers at Palestine, Texas. Maximum temperatures Abilene 100, Ft. Worth 104, San Antonio 100, Palestine 100, Oklahoma City 104, Vicksburg 96. Forecast, West Texas, showers west portion, East Texas fair. Arkansas, Oklahoma and South Carolina part cloudy. Alabama, showers on coast, Louisiana and Mississippi, showers southeast portion, Georgia, showers tomorrow. Journal of Commerce review says: Deterioration continues central and western states and condition is substantially lower than on Aug. 1st, the date of last government report. Other sections fare better on local rains. Charlotte reports more inquiry for spot cotton, but few sales. Cotton goods still weak. Houston says export basis has declined materially and volume of business smaller than previous week. Think trend of market likely to be lower due to increasing hedge pressure. Jno. F. Clark & Co.

Dwight Winn Wins Three Victories

Bolling Springs Hurler Gets Victories Over Bostic and Lawndale Teams

(Special To The Star.)

Bolling Springs, Aug. 12.—Dwight Winn pulled the iron man stunt by winning three games in one week for Bolling Springs. Winn defeated Bostic at Bolling Springs on Wednesday, August 6 by the score of 9 to 1.

Bostic scored their only run in the first inning, only one man reaching third after this inning while Bolling Springs hit Philbeck freely for 9 runs.

Thursday Bolling Springs defeated Bostic at Bostic 15 to 8. Pritchard started on the mound for Bolling Springs but was relieved in the eighth by Dwight Winn the score being 8 to 5 with Bostic in the lead, but Bolling Springs tied the score in the 9th and came back in the 10th and scored 7 runs, thereby giving Winn credit for the victory.

Harrill started on the mound for Bostic but was relieved by Kirksey in the 9th. Both Harrill and Kirksey were hit freely. Hayne Patterson led the hitting for Bolling Springs getting six hits out of six trips to the plate, for a perfect day.

On Saturday Winn defeated Lawndale 7 to 3 for his third victory of the week. This was a hard fought game all the way through, Winn getting the edge in a mound duel over Wray.

Official Population Of County Shows A Large Gain In Decade

Does Not Include The Titled Aviatrix Sails for Europe

Gain Of 16,967,570 Inhabitants Greatest For Any Decade In History.

Washington.—The nation's population was officially announced by the census bureau as 123,698,190, representing the largest numerical growth since 1920 of any decade in its history.

Census officials said completion of this population count represented only the first step of the 15th census and that already they had begun to build upon this basic figure other totals ranging from an enumeration of existing radio sets to a count of the country's industries and farms.

The figures announced for the 48 states and District of Columbia showed a gain in population of 16,967,570 persons, or 18.1 per cent since 1920.

Adding in the nation's possessions, exclusive of the Philippines, to which the census law does not apply, the grand total was set by the census bureau at 124,848,664.

Some indication of the volume of additional figures still to be issued by the bureau was given in a prediction by a census official that when statistics are completed on schools, immigration, old age, the numbers and spread of industries in each state, together with the numbers of mines, farms and farmers in each section, the total will fill more than 15 close set volumes.

This information will be issued for each state as it is completed by census workers. Officials indicated it would be available much earlier than in 1920, since the population count was completed twice as fast as a decade ago.

The population issued was 31,282 under the figure previously compiled from supervisors reports. It is subject to revision by the bureau, but no major changes are expected.

Dorton Trying To Introduce Kudzu In Cleveland County

"Kudzu is the greatest legume gift to man," says Dr. J. S. Dorton, secretary of the Cleveland county fair who has a demonstration of kudzu and lespedeza for the farmers to see this fall when they visit the big fair. Dr. Dorton is enthusiastic about these two legume crops and is trying to get them introduced in Cleveland county. You can't talk five minutes with Dr. Dorton without having his mind go to kudzu and lespedeza and he feels that if a farmer wants a cheap food for livestock that will grow under any weather conditions and on land so poor you can't raise a quarrel on it, you should try kudzu.

Briefly the kudzu vine is a bean, and the greatest legume plant that God has given to man, and like religion man refuses to accept it at its face value. The kudzu vine came from Japan more than 50 years ago, as an ornamental porch vine to produce shade, and man has not yet discovered that in addition to its powers to make shade, that it is also one of the greatest if not the greatest acid land legume plants we know anything about.

Band Music From Air In Germany

Radio engineers of Berlin, Germany have built a mammoth loud-speaker which makes orchestra and band music audible to hearers within a circle of 25 miles in diameter. It is now planned to attach the speaker to a balloon anchored 3,000 feet aloft and broadcast from it a concert audible to the whole city.

The loud-speaker, which requires a current of 120 amperes and weighs more than 100 pounds, has a salumin diaphragm 1-16 inch thick, with a vibration of 1-2 an inch on either side of the center. The vibration is strong enough to produce air waves which can be felt 150 feet away.
