Who Pays Your Taxes?

The poor man pays no taxes except his poll. He is fortunate enough not to own anything else derogatory except, possibly, a wife and a bunch of younguns.

The rich man pays no taxes because he's smart enough to put his money in tax-free bonds and lock-box mortgages. And if he happens to be called on to pay any taxes, he simply adds them to his products and passes them on to the consumer.

"Things I Ate Hurt Me"

"I had a severe case of indigestion," says Mrs. Bell Buckheister, 7 River St., Piedmont, S. C. "So many things that I ate hurt me, I almost quit eating."

"I would burn in my chest. I had severe headache, and such a tight, smothering feeling. I would be obliged to eat a little, then it would hurt me."
"A friend said to me: 'Why don't you take Black-Draught?'"
"I was just too weak then to do my work. I began taking small doses after meals, and in just a few weeks I could eat anything I wanted to, then take my small dose of Black-Draught and feel fine. I soon regained my health and strength."
Costs only 1 cent a dose.

Boy Sets New Mark On Hop to Coast

Uncle Joe bought a farm. He paid 1 thousand dollars of Aunt Minerva's money down on it. He gave Mr. Smith a mortgage for 4 thousand dollars for the remainder. Uncle Joe pays Mr. Smith \$320.00 a year interest, and he also pays his taxes and insurance bills, and the interest and taxes are possibly more than his net earnings. Mr. Smith pays nothing yet his mortgage owns the land. Uncle Joe is a tenant and don't know it. When rich folks can be reached with the tax hammer, things will be pie, but don't get excited—there'll never be any pie for us who work for a living.

Just a Friendly Letter.

Just a friendly letter, flat rock, S. C., August 27, 1930 dear Sam:
I rec'd your letter of last week ultimo, and as we had heard from you for might nigh 2 yrs., we thought maybe you had died or gone into the pitchers which means the same thing for the kin folks back home.

my wife told me to anser yore letter at once but not to mention them 2 dollars you owe me and I promised her that I would let same drop, and I will not say anything about it, but if you can spare my money at this time, it will be a big help to me oinner count of Hoover prosperity.

well, sam, how is every thing in Texas? I hope you all will make a small crop so's we can get some things for ours, but at the same time—I trust that you will make enuff to pay back my 2 dollars which you run off with in 19 and 22.

every thing seems to be all right with us in old S. C., except it is not against the law for a man to shoot another man like it was when you left my house that time owing me 2 dollars and a man shot his first cuzzin here the other day oinner count he owed him three dollars and wouldnt pay same, but I sure would not of done that if I had of benn him.

the farmers seem to be getting along fairly well except most of them did not suksseed in getting numbers for their fords ansowforth, but if cotton will fetch anything like c11 a pound, a good many of them will ride again. If you will send me a check for them 26 you owe me, I will possibly fix mine up.

the beef business is not mutch, but as you know—I am kurriner of this county and things is fine in the in-quest line in fact I have hll 123 inquestes in 18 months, how's that for fine work old boy? well, sam—I promised not to ask you for my 2 dollars, but as soon as you get hold to them please rit or foam when I can look for same.

How Modern Family Spends Its Income

Gastonia Gazette.
How the Ford employes spend their seven dollars per day income is the subject of an interesting discussion in a survey by the United States department of labor.

It gives an insight into some of the problems of the modern family as to how they regulate their "income" and "outgo." Of the 100 families, 19, "came out even;" 44 spent more than the seven dollars a day brought in and 33 made an average saving of \$139.96 the U. S. department surveys says:

The family home contains four or five rooms and bath, and faces on an improved street. It is rented. Anthracite coal was somewhat of a luxury for these families, as only 18 used it.

Thirty-six owned radios. Seventeen owned washing machines. Eighty-seven carried life insurance.

Expenditure for dental work was incurred by 62. Most of the husbands shaved themselves.

Seventy-nine of the families were church supporters, contributing an average of \$12.17 during the year.

There was an average of 33 visits to the movies by each of the 100 families. All families took newspapers, and 48 reported magazines and periodicals.

Only five families had telephones. Fifty-nine were buying articles on the installment plan.

Forty-seven owned cars, the average upkeep being \$78. With an average income of \$1,719.83 a year for an average family of 4.5, expenditures run like this: the first figures after each item showing the annual cost and the second the percentage of income.

Food, \$556.12; 32.3.
Clothing, \$210.67; 12.2.
Housing, \$338.81; 22.6.
Fuel and light, \$103.20; 6.0.
Furnishings, \$88.55; 5.2.
Life insurance, \$59.16; 3.4.
Street car and bus fares, \$37.40; 2.2.

Expense of sickness, \$64.73; 3.8.
School expenses, \$6.41; .4.
