

### Husky, Veteran Line, Hefty Backs Boost To Shelby High Chances

(CONTINUED FROM PAGE ONE)

Wilson, Thurman Moore, Purp Barrett and others.

The line-up above contains several of the youngsters who were stars last year and two years ago. 'Shorty' McSwain, pass-snatching wingman, was last year rated as one of the best of the fine ends who have played in Shelby jerseys, and in Shephard he has a fleet, scrapping running mate. Putnam, Brown, Corbett, Hulick and Logan all played regularly last year and should be improved by a year's experience. Logan shows promise of following in the footsteps of his brother, former State college captain, if he can work off some poundage and develop his speed.

In the backfield Coach Morris has a pretty good mixture of weight and shiftiness. In Eskridge, who is calling signals, and Hubert Wilson, last year's center and alternate captain, he has two backs as husky as they get in high school ball. Eskridge hits the scales for 170 pounds or more, and Wilson is moving his 185 pounds over the ground with a dash that pleases his coach. For the speedy work Coach Morris is giving the two youngsters, Connor and Poston, a thorough trial. Both performed in games last year and exhibited good ability on fleet end runs. The passing game will in all likelihood be handled by Eskridge with the two ends and two halfbacks doing the receiving. Wilson with his weight and charge will in all probability be used for blocking, interference and line smashes. His head-down lunges into the line in early scrimmages indicate that for several years a good fullback has been playing in the line. Others who will see action are Barrett, R. K. Wilson, Moore, Roy Newton, and possibly some of the newcomers. 'Fat' Williams, husky lineman, is also expected to report this week.

Among the new lads getting their first taste of football is William Harrill, brother of Tommy Harrill, former Shelby and State college athlete. Harrill appears to be one of the fleetest men on the field but as yet knows nothing about the game and has not adapted himself to catching and holding the ball.

The roster of the squad when scrimmage began this week as prepared by Manager Bub Hulick follows: Guy Brown, Shorty McSwain, John Corbett, H. A. Logan, Max Putnam, Doane Hulick, James Shephard, Alfred Eskridge, Hubert Wilson, O. C. Connor, Haigh Poston, Ray Brown, Roy Newton, Charles Waldrop, William Stroupe, William

### Three Shelby People Land In "Who's Who"

Of the 414 North Carolinians whose names are recorded in the new edition of America's "Who's Who" three are Shelby residents. They are Gov. O. Max Gardner, Federal Judge E. Yates Webb and Attorney Clyde R. Hoey.

### Lowest Yield For Crops In 20 Years

(CONTINUED FROM PAGE ONE)

wheat, 75,000,000 bushels of oats, and 17,000,000 bushels of barley. The estimates for rice, sugar beets, and a few fruit crops have been increased slightly, but the net average for both food and feed crops is sharply downward, with opportunity for material recovery rapidly dwindling.

With the exception of potatoes and sweet potatoes, and a few other crops, the shortage of food products is not yet pronounced. The marked shortage of feed and the impending necessity of selling livestock in the drought areas tends to hold down the price of meat animals, with the result that farmers face the combination of low yields and low prices. Prices at the farm on August 15 were the lowest in any August since 1915.

Wheat production now is estimated at 837,761,000 bushels as against 805,790,000 bushels in 1929. Of that 597,392,000 bushels is winter wheat; 50,950,000 bushels other spring wheat.

The oats crop is estimated at 1,390,892,000 bushels, and the condition at 80.3 per cent of normal.

While rainfall during the first week of September materially relieved large sections of the drought area, much of Pennsylvania, Maryland, Virginia, West Virginia, Kentucky, and parts of Tennessee, Michigan and most of Iowa were still largely unrelieved.

Secretary Hyde's conference with drought relief officials was believed today to have been delayed 10 days or two weeks as a result of insufficient information in 18 or 21 states queried to present a comprehensive picture of local situations.

Thompson, William Harrill, Purp Barrett, R. K. Wilson, Thurman Moore, Walter Devine, Vestal Carter, Grant Duncan, Kendrick Jackson, Evans Logan, Leon Putnam, Robert Peters, Harry Putnam, Hugh Led-Shephard, Alfred Eskridge, Hubert Wilson, O. C. Connor, Haigh Poston, Ray Brown, Roy Newton, Charles Waldrop, William Stroupe, William

### Artificial Lemon Juice Latest Feat

Cincinnati, O.—Artificial lemon juice made out of cane sugar by a fungus was reported to the American Chemical society today as the latest feat of a new industry which uses molasses, fungi, ferments and bacteria to replace machines and human hands.

Scientists told how to catch a bacillus or a fungus and train him or her. Far from being preposterous, they said, the idea started when man first made alcohol, and recently has grown so fast that today it adds hundreds of millions of dollars annually to American commerce. This saga of the "microscopic workmen" was related at the first general session of the society in a symposium on industrial fermentation.

Illustrating the versatility of a properly managed fungus, Dr. H. T. Herriek and O. E. May of the United States bureau of chemistry and soils at Washington, described the new lemon juice fungus.

When placed on cane sugar in a shallow pan, they said, and fed the proper amount of nitrogen, he makes citric acid, the essential of lemon juice. He does it so cheaply that one American concern already is manufacturing the acid by this method.

But feed this fungus a little more nitrogen, and instead of lemon flavor, he produces oxalic acid, the well known hat cleaner.

One of these products is a healthful drink and the other a dangerous poison.

These ferment workmen often make the same product out of quite different raw materials. An illustration was given by Prof. A. M. Bushell of the University of Illinois. He has bacteria making fuel and illuminating gas, called Methane, out of waste farm products. Whether he feeds them corn stalks, soy bean vines, straw, excelsior, almost anything a farmer raises and cannot sell, they always make Methane out of it.

We see where financial experts say that money is plentiful and that anybody can borrow. We see!

### Carr Will Feature Saturday Night Bout

"Red" Brown, Football Player, and "Slim" Morehead Go In Semi-Final.

Babe Carr will fight before his home folks again Saturday night when he meets Jimmie Foster in an eight-round bout which features the boxing program at the company, K armory.

Guy (Red) Brown, football player, will meet "Slim" Morehead in the semi-final.

Five other preliminary bouts are carded.

### Webb Medalist In Rutherford Tourney

Fred (Snook) Webb was medalist winner in the qualifying rounds of the Rutherford country club tournament at Rutherfordton yesterday. In leading the field in the qualifying rounds young Webb turned in a score of 67. Bob Reed, another Shelby boy in the tourney, made 79. The tournament will end Saturday and the Shelby left-hander is a favorite to win the championship.

### Roosevelt For Repeal Of 18th Amendment

(CONTINUED FROM PAGE ONE)

legislation guaranteeing concurrent enforcement of the 18th amendment of the constitution of the United States.

"We pledge the Democratic party to the enactment of such additional legislation as may be necessary for the better enforcement of the 18th amendment and other laws against the sale of alcoholic liquors in the state.

"We depounce the Harding, the Coolidge and the Hoover administrations for their respective failures to enforce the 18th amendment and the laws enacted pursuant thereto."

Well, to tell the truth, the prognostications of the politicians, before election, are not half as imaginative as their explanations afterwards.

### LATTIMORE NEWS OF CURRENT WEEK

(Special to The Star.)

Lattimore, Sept. 11.—The Lattimore school will close Friday for the cotton picking season. Prof. Blanton reports a most successful summer session. The enrollment is now 672. This is about 100 less than the enrollment last year.

Mr. and Mrs. Forest S. Crowder entertained with a lovely six o'clock dinner Wednesday evening honoring the following young ladies: Misses Maude and Daisy Crowder, Wiloree Calton, Elsie Orders, Catherine Eastep, Maude Morehead and Willie Falls.

Mr. Herman Early of Mullins, S. C. was the week-end guest of Mr. and Mrs. Yates Hamrick.

Prof. and Mrs. Lawton Blanton and children and Mr. and Mrs. G. O. Hawkins spent Sunday at Asheville.

The following officers were elected at the regular church services Sunday: Mr. Lester Callahan, supt. of Sunday school; Mrs. N. B. Lee, director of B. Y. P. U. Mr. Callahan

and Mrs. Lee have filled these offices very capably during the past year and are well prepared for their work.

Miss Ora Hull and several of the children from the South Mountain school were visitors at our Sunday school Sunday. They gave a program and Miss Hull gave an interesting talk on the school.

Mr. J. L. Wilson, Mr. and Mrs. G. C. Powell and children of Polkville were guests of Mrs. M. B. Smith while Wednesday night.

Honors Singers.

Miss Wiloree Calton honored the members of the Lattimore quartet with a six o'clock dinner Thursday evening. Members of the quartet are Messrs. Karl Jordan, Lyman Martin, Yulan Washburn and Tyree Greene. Others present were Misses Maude Morehead, Maude and Daisy Crowder and Mrs. Karl Jordan.

Miss Elsie Orders spent the week-end at her home in Mooresville.

Mr. R. R. Hewitt who underwent an operation at the Shelby hospital Thursday of last week is getting along nicely.

Mrs. Forest S. Crowder entertained the following young ladies with a dinner party Wednesday evening: Misses Maude and Daisy Crowder, Catherine Eastep, Elsie Orders,

Maude Morehead, Wiloree Calton and Willie Falls.

Mrs. C. I. Magness and children spent Tuesday night at Ellenboro with Mr. and Mrs. Clifton Magness.

Mr. and Mrs. C. A. Bridges had as their dinner guests Sunday, Miss Maude Crowder and Mr. John Crowder.

Mr. G. C. Page Sunday school worker of the Kings Mountain Baptist association visited our church Sunday and made an inspiring talk on Sunday school work.

Misses Ruth Humphries and Mada Wilson of Claremont were week-end guests of Mrs. M. B. Smith.

The following boys and girls have left for college during the week: Misses Clara Poteat and Gladys Hawkins to N. C. W., Burnette Hunt, Mary Agnes Lattimore and Elizabeth Willis to Meredith, Edley Martin to Wake Forest, Lois Adams and Sarah Hamrick to Mars Hill, Paul Wilson to Carolina, Willie Falls to Limestone, Edna Harrill teacher training at Shelby and Grace Walker to Queens.
