## Mr. Hoover Lists Public Works For Which He Seeks \$1,500,000

Washington - President Hoover's plan for spending \$150,000,000 within six months in public building projects was started today on the road to legislative enactment with the first outburst of criticism apparently stilled.

A detailed explanation of his plan giving the amounts allocated to sub-divisions of the government departments but not naming the specific projects to be built, was accorded a favorable reception as the house appropriations committee began hearings on the proposal.

The chief of public works bureau and the chief of the army engineers, under whom the bulk of expenditures are to be made, were the first witnesses on the committee list. With them also was the director of the budget, who prepared the President's detailed list.

Mr. Hoover's observation that the test of unemployment relief plans lay in the ability to pay wages within the next six months arrested the attention of the legislators. They passed over without comment his other assertion that cabinet allocation had been chosen because selection of projects by congress would involve "long delay."

Then too, the president pointed out that all the work to be done with the funds will be on projects already authorized by congress. The resolution to carry out the request was introduced in the house by Chairman Wood of the appropriations committee. A companion measure was placed before the senate to await the house's action. At the same time the president's emergency committee for employment was busy gathering up odds and ends of red tape in government departments to secure utmost speed in getting the money into circulation after congress approves.

The president proposed allocating the construction funds as follows: Agriculture department, \$84,324,980, with \$80,000,000 of this for roads; war department \$57,473,800, nearly half of it to non-military outlays such as waterways and harbors; commerce department \$1,083,000; interior department \$3,757,000; justice department \$355,000 for institutions, and navy department \$4,620,000 for yards, docks, etc.

THE FANCY LINEN SHOP  
 CORNER YUETTE and WARREN STS.  
 Shelby, N. C.
