is in earnest about this economy

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and anus, and abdominal pains. And, the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults — White's Cream Vermifuge, which you can get at are being taxed too much now. Another recommendation that will occasion much talk is that referring to the reduction in labor hours per week, and also that concerning the abolishment of night work.

Governor Gardner recommends land Drug Co. that night work for women under "Croon softly to myself like Rudy of Avondale spent Sunday with rel- 18 be eliminated.
