GEE MCGEE—

**New Farming Methods.**  
Uncle Joe dropped in to see us today and unfolded his future plans in connection with his farming efforts. In fact, so he says, he expects to farm from now on—a "political basis."

I asked Uncle Joe what he meant by "political basis?" and he replied: "Well, I intend to operate my business exactly like the cities and counties and United States government operate their business. For instance: (Hic).

"During the month of March, I will function on the general assembly plan: I will go to work about 10 o'clock Wednesday morning, and

Variation 27 1/2 26.60 chains, crossing the branch to the beginning, containing 61 1/2 acres, as per survey made September 1928.

This the 25th day of January, 1931.  
M. P. ELLIOTT, Mortgagee, 41 Jan. 25

quit work at 4 o'clock Wednesday afternoon, and go off and loaf the balance of the day. My Thursday and Fridays will be made up with a similar program. Saturdays will be used for going to town." (Uncle Joe says that he will not drink a drop during March, as legislators are all teetotal abstainers, and never touch booze?)

"During April, I will use the court house plan: I will feed the mules at 3 or 9 o'clock, and get all of the hired hands to start to work by 10 o'clock, if possible, and keep busy with books and loafers and politicians till 5 o'clock, and then they can knock off and come to the house where I will be. I understand that the drought relief" will furnish me all the hired hands I will need to have my work done."

"May and June and July will find me using the United States government plan. I will hire me a stable door minder, an assistant milk maid to my wife's third cousin, Sam, and appoint 7 committees to investigate the pig pen and the back-house and take an inventory of the number of chiggers and fleas on my premises. I will also borrow some money and appropriate it to Henry Ford for a nice 5-passenger sedan automobile and then ask him to give me a rebate of \$150.00 so's I can help him sell each of my tenants a touring A model."

"The remaining months of the year will be run on the public school plan. We will do nothing at all during August, September and October, but will work 5 hours for 5 days a week—through November and December. I will ask Mr. Fed. Landbank to repair the house I live in and terrace and otherwise improve the farm lands we reside on (it's his land, and surely to goodness he won't refuse to keep it up), and by practicing these new methods and schemes, I feel that the wolf can be kept away from our filling station operator." And he was gone.

**Who Would Have Thought It?**  
The tariff measure passed by congress last fall was intended to keep goods made by foreign countries out of America. Apparently it has succeeded admirably and it likewise is keeping American made goods out of foreign countries.

A new use has just been discovered for cotton cloth: A woman in Atlanta found out last week that under-clothes and house dresses made from cotton materials not only look well and wear well, but the men admire them very, very much indeed, thank you. (Especially the outgoing ones.)

If a person were to believe the advertisements in the magazines and newspapers, he would come to the conclusion mighty quick that this old world could not wobble were it not for shaving cream and tooth paste and cigarettes and yeast.

**Cotton Letter.**  
New York, Feb. 11.—Boll weevil emergence for January was 5 as compared with 6 last season, hence the decline of 9 points for May and 3 for July. Spinners takings were light to dull during last week on

account of further curtailment. Call money is down to 1 per cent, but that kind of money is for the use of gamblers, and not cotton bulls or other industries, hence the weak demand for spots. Frost was predicted for the interior and it seems to be cloudy in Texas where moisture isn't needed, therefore we advise selling short or trading.

When Jay-birds take in washing and monkeys lay eggs, and fish build their nests on mountain tops and the tarantula becomes a pet for the baby, and the Republicans outlaw graft, and prohibition officers receive no pay other than their salaries, and roosters lay 2 biddies a piece a day, then you may look for taxes to be reduced. A politician is composed of 98 percent bull and 1 per cent apple sauce, and it's against the law to print the other percent; and you know, he's the only guy that can lower taxes.

about where the farmers are going to get the money with which to farm this year. Why, it is the eas-gamblers, and not cotton bulls or other industries, hence the weak demand for spots. ### constipation

"I HAD a stubborn case of constipation after a very severe spell of grip," says Mr. John B. Hutchison, of Neosho, Mo. "When I would get constipated, I'd feel so sleepy, tired and worn-out.

"When one feels this way, work is much harder to do, especially farm work. I would have dizzy headaches when I could hardly see to work, but after I read of Black-Draught, I began taking it. I did not have the headaches any more.

"When I have the sluggish, tired feeling, I take a few doses of Black-Draught, and it seems to carry off the poison and I feel just fine. I use Black-Draught at regular intervals. It is easy to take and I know it helps me."

This medicine is composed of pure botanical roots and herbs.

**Theford's BLACK-DRAUGHT**  
For CONSTIPATION, INDIGESTION, BILIOUSNESS, HEADACHE, NEURALGIA, COLIC, BRUISES, RHEUMATISM, GOUT, GRAVEL, AND ALL AFFECTIONS OF THE BOWELS.

It is a tonic should be used over 50 years.
