Nobody's Business

GEE McGEE—

Fish Tails
 Uncle Joe dropped in yesterday to swap the time of day with me. He took a seat in my best chair where he felt sure that he would miss the spittoon, which he did, as the linoleum rug will show. He is not a long distance splitter by any means, and really should not chew indoors.

Thoughtless Thoughts.
 The brewers say that if Uncle Sam will let them make beer that they can put 2,000,000 to work mightily quick. Yes, but what is going to become of the 3,545,888 bootleggers and the 765,000 prohibition officers and rum-runners that will be thrown out of jobs? Answer me that, Mr. Capone.

After borrowing a match and a cigar to smoke "now and a little later on," he got started on fish, fishes and fishermen. He explained that he had not ketchid anything much so far except a few brim in his basket, but the signs would be right next week for trout and all other fish, so he said.

I will let him finish the spiel: "Fishin' is a real art, old boy. I use a fish in Alabama and was called the best fisherman in the whole state. I have fished with Tom Hefflin and several other governors and me and him fished 2 weeks with a vice-president and 7 congressmen from New York.

"I remember once when we set a trot line on the Tom Biggy river on it that while we was taking them off of the hooks and throwing them in our boat, they filled the boat so full till it sunk, and we almost got drowned and the fish all got away.

"I ketchid a carp one night that weighed 104 pounds and when I cut him open, he had a good sized pig in his stummick that was still alive, and me and my family had roast pig and broiled fish for 2 weeks from that ketch. I have made as high as 25 dollars per hour pulling trouts out of the water."

"They had some fish in Alabama that could crawl around in the woods just like lizards. I watched two of these fishes once come up out of the water and crawl 600 yards to a blackberry patch, and noe of them would climb up a big briar loaded with blackberries and pull it over so's his partner could bite the fruit off, and he never swallowed a single one of them—just piled 'em up in a pile and divided them 1 by 1 when they got through, and then they walked on back and jumped into the water."

"I ketchid 2 eels one Sunday morning that weighed 55 pounds each, and they were not near grown. My favorite sport fish was the garfish. They had 'em out there with snouts 6 or 8 feet long. They used these snouts (that is—the lumbermen did) for cross-cut saws. The game warden finally made me leave

counting the 6 hens that took up setting after laying 8 eggs. (For sale: a nice 2-pen henmy, with roosters to match. All pedigreed stock, but badly mixed.)

Rutherford Politics Beginning To Simmer
 Democrats Will Meet April 3 To Nominate Mayor And Aldermen.

Rutherford.—J. B. Miller, chairman of the Rutherford Democratic executive committee, issued a call to the Democrats to meet in a convention in the court house here Friday night, April 3, at 8 o'clock.

At present the city officials of Rutherford are: Mayor P. W. H. Logan; councilmen, R. R. Plack, J. L. Robinson, J. H. Carpenter and B. D. Wilson. The mayor and latter named are Republicans while the other three are Democrats.

It is likely that a mixed ticket will be put out again. Anyway, the political pot locally has begun to boil.

ESSEX

THE FINEST PERFORMING SIX HUBSON EVER BUILT

Competes with the LOWEST in Price . . . Challenges the FINEST in Quality

\$595

Essex is the only low-priced car that follows the motor design of the highest-priced cars in using light-weight moving parts and in engine speed

This design enables Essex to develop more power at the same motor speed and the same power at a lower motor speed than the "Low-Speed" cars. It permits greater power in proportion to weight, better balancing of crankshaft loads, improved bearing lubrication, more efficient cooling and enables Essex motors to out-last low-speed engines.

Essex introduces fine-car style and Super-Six smoothness to the low-priced field. It is strongly built to assure lasting satisfaction and enduring dependability. It challenges the performance of any six and matches the economy of cars most noted for low operating cost. It gives you Rare Riding Comfort for the first time at its low price.

Beams Mill In Win Over Zion Ball Team
 An unusually interesting game of baseball was staged on Beams Mill diamond on last Tuesday afternoon when Zion school played Beams Mill school boys. Up until the fourth inning the score was looking good to the visitors, but as soon as the home players caught on to the Zion pitcher's curves and twisters, everything was easy sailing for the Beams Mill team. The final count was a score of 10 to 8 in favor Beams Mill school.

COTTON In Fashion

Cotton is recognized as the most durable of all textile fabrics. It is being manufactured in new and charming patterns and styles: new piques, new knitted fabrics, new crepes—both heavy and sheer—all types of embroidered and eyeleted fabrics, shadowy prints, dimities, cotton nets and laces, plain broadcloths, chambrays and velveteens.

Fashion again is leaning upon King Cotton for things beautiful and durable.

Let us represent our own county in the wearing of cotton in proportion to our production of the South's banner crop.
