How To Combat Insomnia.
The worst thing in the world is insomnia. It functions best between midnight and 3:30 a. m. It is a selective type of affliction. It will not hit or harbor a lazy man. Well-diggers never experience it. Washerwomen don't know what it is. And insomnia has never been known to bother a tenant-farmer.

After consulting both of my friends on this subject—one being a doctor and the other a physician, I have promulgated the following rules which, if carefully observed, will always drive insomnia away and fetch Morpheus with outstretched arms to aid you in your efforts

Dizzy Spells

Miss. Cora Moshier, of 601 North New Orleans Ave., Brinkley, Ark., writes: "I was so constipated until I was just sick. I could not stand to take strong medicine, so I decided I would take Black-Draught, and I found it to be all right."

"I would have such dizzy spells, and such bursting headaches, until I could hardly go. But after taking a few doses of Black-Draught I would feel just fine. It is a good medicine, and I recommend it to all who suffer as I did. It is very easy to recommend a medicine that has done as much for me as Black-Draught has done."

to repose in sweet slumber.

1. Count by dollars and dimes the amount of money you have paid out during the past 10 months for things that you wanted and did not need, and by the time you get to the fifth installment on your wedding ring, you'll drop off to sleep; that is—if you intend to pay the balance due thereon.

2. Imagine yourself at church; the temperature is 77; let the preacher make his 14 announcements; listen attentively while he reads his text; watch the collection plates as they barely miss your nose in their passage to and fro; and when the said preacher has preached 20 minutes, just close your eyes and there you are.

3. Quit counting sheep, and picture in your mind a legislature in session. Lend an attentive ear to the Chaplain as he prays for the members of the general assembly. Take heed of the roll call. Permit the members to shoot their usual type of useless bull, think how helpless you and others like you are, make up your mind that you don't give a cuss if they bankrupt the whole world, and then you'll find yourself sound asleep.

4. Dismiss banknotes from your mind. Forget what you owe the doctors and the lawyers and the grocers—as you ain't going to pay 'em no-how. Get up and take a dose of soda, follow it with an aspirin tablet, drink a glass of hot milk, read one chapter of the Congressional Record, chuck up the fire, and by that time, it will be daylight, and you should be up and about your business.

5. Think of nothing, if possible. If you can't get your mind centered on nothing, why, just think of yourself a few seconds, or if you can't do that, think of the space that exists between Jupiter and Orion, that's nothing too, and danged if it ain't time for breakfast before you know it.

Nothing To Think About.
Anyway, Mr. Hoover is the best engineer we ever had for president.

The bonus money is not all spent yet. I just saw one of the recipients with 2 dollars cash in his pocket-book after he had paid for 4 new inner tubes.

If it takes your boy 10 hours to do 2 hours work, make a legislator out of him; he's got the stuff in him for a good time, but be sure to teach him how to figger extra time.

Cotton Letter.
New York, April 15.—Liverpool came in lower than due and so did the income tax. Some hedging was recorded near the close when southern selling forced Shanghai buyers to list Bombay short. Thunder showers are expected in Texas next month at 3 o'clock, therefore we look for lower prices. Bed spreads and denims are strong, but some yarns ain't. Curtailment continues in all localities not engaged in government work. We advise less cotton and more dough, but by all means—don't straddle till July, and then be very careful.

If you want to see business pick up just let the installment houses sell their stuff without a down payment. That's all that's wrong with this old country anyhow: We blowed in the down payment on something we

The cotton-seed oil companies are really and truly financial wizards; they will buy a ton of your cotton seed for \$22.00 and sell you a ton of cotton seed meal for \$27.00, and then ask only 1 cent a pound more for compound lard and 4 dollars a ton more for cotton seed hulls than they asked when they paid an honest price for cotton seed, viz: \$35.00 per ton. Yep, they got mine, too.

Religious Radio Broadcasts Listed

As a new service to its readers, the Sunday school Times published for the first time in its March 23rd issue a Radio directory containing the hours and call letters of fifty-seven religious broadcasts through out the United States and Canada. The classification is according to the days of the week, so that at a given hour of any day readers may easily tune in on any religious service that happens to be on the air.

For months readers have been asking for such a list of stations, and it has taken weeks to compile the index. So far as the Times knows, no other paper has such a department at the present time. The Directory will be kept up to date as far as possible, and will appear frequently.

Soy Beans For Best Hay Crop

County Agent Schoffner Recommends Beans To Cleveland County Farmers.

"Cleveland county farmers who who are now thinking of hay crops should first of all think of soy beans," says County Farm Agent R. W. Shoffner.

"Soy beans not only make good hay," he continues, "but they improve the soil at the same time or can be sown and turned under on the soil. As a hay, soy beans rank high. Any kind of live-stock relish them as they would any legume crop. The different varieties should be considered as to the habit of growth and time for maturity. There are varieties especially adapted for hay; there are varieties especially adapted for planting in corn and soil improvement.

"The varieties that are recommended for hay would be Laredo, a small black bean, maturing in about 140 days; Ootootan, a small round, black bean, an excellent hay bean, but is somewhat later, maturing in 175 days. We have other hay beans, but these two are the most commonly known through this section. For planting in corn, the Haberland is a mighty good bean, maturing in 145 days; Biloxi, maturing in 165 days; and the Mammoth Yellow, another mighty good bean, maturing in 145 days. These last three varieties sown or planted for hay are good, but they have a tendency to be mighty woody for hay.

NOTICE TO NON-RESIDENTS. North Carolina, Cleveland County. In the Superior Court, Before the Clerk. County Board of Education of Cleveland County, N. C., Petitioner.

"Sowing with a grain drill is a good method, or broadcasting is a good method of seeding. When they are planted in rows and worked a few times they yield much more than one might expect. If soy beans are planted on fairly poor land, I would recommend using a small amount of fertilizer to help start them, not very high in ammonia, as the soy bean is a legume and gathers nitrogen from the air. Soy beans may be sown with a wheat drill or broadcast, or planted in rows. If land has a tendency to grow grass and weeds, I would prefer planting them in rows about two feet apart and working two or three times."

Six Prisoners Flee At Rutherfordton

Two Were Arrested In This County On Larceny Charge. Escaped Before.

Rutherfordton, April 15.—Six white men sawed their way to freedom at the county jail here Wednesday morning before daylight. Their escape was discovered when the jailer went to give them breakfast. They were on the second floor of the jail and sawed two bars in half and escaped. Jimmie Barner, trusty prisoner who refused to run away March 25, is believed responsible for letting the men get away. The other five were Lennie and Lonnie Flinn, Riley Hensley, Hop Valentine and George Brady, all charged with larceny. The same five men escaped March 25, but were captured.

Five young white men escaped from the chaingang here April 1, making three prison escapes here within the past 20 days. It is thought that they stole a sedan from John Michael, negro, of this place and made safe their escape. Brady who was the last prisoner captured of the first escapers, has a record of escapes. This is the largest delivery of prisoners at one time ever known in this county.

Valentine and Brady were arrested in Cleveland county, in the Boiling Springs section, by Deputies Henry McKinney and Gus Jolley some time ago after a quantity of stolen goods, from Rutherfordton and Cleveland county stores, was found in the house in which they lived.
