

Mrs. Jim Bynum Of Lincolnton Passes

Was Native of Cleveland County
And Has Brothers and Sisters
Living Here.

(Special to The Star.)

Lincolnton.—A gloom was cast over the community Saturday evening when the sad news was spread that Mrs. Jim Bynum was dead. The death angel took her away at 7 o'clock Saturday evening, May 16, at Lincolnton. She was confined to her bed about five weeks with paralysis.

The news of Mrs. Bynum's death was not a shock, for she had been in failing health for some time before she took her bed and she knew the end was near.

She was a consecrated member of the Southside Baptist church and always attended regularly when she was able.

Mrs. Jim Bynum before marriage was Miss Mauda Grigg, daughter of William Grigg, of Cleveland county. She was 58 years old. Mrs. Bynum is survived by her devoted husband and the following children: Mrs. Ada King of Reepsville, Mrs. Lula Morrow of Clover, S. C., Mrs. Margaret Grigg, of Lincolnton, Mrs. Fannie Helmon of Cherrystone, Mrs. Dora Wray, Mrs. Louise Parler and Mr. J. B. Bynum, all of Lincolnton.

Also surviving are the following brother and sisters: Mr. Rufus Grigg of Shelby, Mrs. V. T. Hamrick, of Fallston, Mrs. Philip Wright of Double Shoals, Mrs. P. C. Whiteside of Lincolnton and Mrs. Ben Ashley of Clover, S. C.

The funeral was conducted Sunday afternoon by her pastor, Rev. Roy Williams of Madison and her remains were laid to rest in the Southside Baptist cemetery.

A host of friends attended the funeral and the many flowers showed the love and respect of everyone.

Could Hardly Work He Says

"I don't believe any man in the Carolinas suffered more from indigestion than I did. It got my whole system out of 'gear' and I felt so tired and weak I could hardly work. I had pains in my right side and I'd break out with boils. Sargon pulled me out of a terrible fix. The indigestion, boils, and every ache and pain disappeared and I'm filled with new strength and energy."—L. C. Strickland 909 Halifax St., Raleigh.

Keeps Tradition

Introducing the Rev. Jesse C. Shull, of Virginia, Illinois. His great-grandfather, grandfather and father were ministers. Besides which he has three brothers, two brothers-in-law and his wife as preachers. And he's the nephew of six pastors, grandnephew of four ministers and great-grandnephew of two clergymen, as well as the cousin of 44 ministers. Most of them are Presbyterians.

Chemists Find Extra Value In Fertilizer

When chemists recently analyzed a sample of our oldest commercial fertilizer they found a number of plant foods which farmers generally never knew were present in the material.

Their analysis of Chilean nitrate of soda, the fertilizer which has been used in this country since 1830, revealed potassium, calcium, iodine, boron, magnesium, all essential for plant growth—in addition to nitrogen.

Until recently Chilean nitrate was prized by farmer as a source of quick acting nitrogen—nitrate nitrogen, but the new analysis shows that the fertilizer contains other plant foods besides nitrogen. It is now believed that the presence of these impurities, each of which is necessary for normal plant growth, accounts for the unusual record farmers have had with this natural nitrate. Scientists explain the presence of these common elements by the natural origin of Chilean nitrate. It is obtained from deposits in a barren desert which covers thousands of acres in northern Chile.

We never could understand why old men were so much worried about the way the flappers acted; they were certainly safe, not to say immune.

Hunted in Huge Swindle

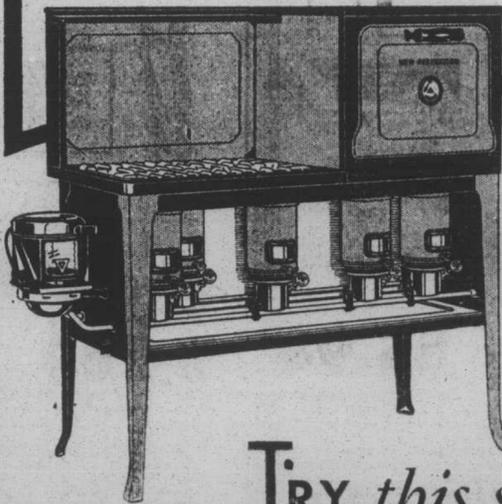

John "Jake the Barber" Factor, of Chicago, and his wife, the former Rella Cohen (both above), as they appeared recently at a Paris, France, race track. Scotland Yard and the American Department of Justice are merging their best detective talent to apprehend the international swindler on charges of fleecing Europeans out of nearly \$5,000,000. Gangdom also seeks him, hoping for a "split" in his loot.

Teakettle Test PROVES High-Power speed

NEW INVENTION

HIGH-POWER
BURNER

No. R-609 New
Perfection Range.
Five High-Power
Burners.

TRY this simple test
on your oil stove . . .

PUT two quarts of cold water in a teakettle. Place it over a cold burner. Note the exact time you light the burner. See how long it takes to boil the water. High-Power, Perfection's newly invented burner, does it in ten and one quarter minutes . . . boils it in less than nine minutes starting with a hot burner! Will your stove do that?

High-Power burners are more than 30% faster . . . economical of fuel. They adjust instantly, high or low, and burn with a clean, steady heat that strikes the whole cooking surface for uniform results without scorch spots or slow edges.

Perfection stoves are modern in design, with smooth porcelain enamel, lacquer and baked enamel finishes in lovely new color. Combinations of pastel green and lustrous satin black, ivory and green, and ivory with black. Many sizes, all with new High-Power Burners.

Prices start at \$18.50

Before you buy any stove, consider the cost of fuel. Modern kerosene (coal oil) is the convenient, dependable fuel.

High-Power Perfection stoves give all the cooking speed of the costlier fuels . . . using economical kerosene.

See them at your dealer's and choose one for your kitchen this week.

The New Model A DeLuxe Roadster will make an ideal graduating present for your boy or your girl. Think of the pleasure it will afford both to them and the rest of the family.

City Visitor: (pointing to a haystack): "What kind of a house is that?"

Farmer: "That ain't a house; that's a haystack."

City Visitor: "Say, you can't fool me. Hay doesn't grow in a lump like that."

Two ladies were discussing a mutual acquaintance.

"She has a very magnetic personality," said one.

"She ought to have," replied the other, "everything she has on is charged."

Do not fail to have the grease drained from the transmission and the differential of your car and have it replaced with a Summer grade of lubricant. The thin winter grade of lubricant will not stand the strain and heat of summer driving and it is much cheaper to buy grease than it is to pay costly repair bills and buy new gears.

We are equipped to render this service at a very nominal charge regardless of the make of car you drive. We drain out the old grease, flush out the gear case and put in a Summer grade of lubricant which will fully protect and lubricate the gears regardless of the intense heat.

Dumbell: "Say that guy, Oscar was so lubricated last night he

could hardly work."

Drummer: "Well, why so down in the mouth about it?"

Dumbell: "Because I bought it."

She: "Haven't I always been fair to you?"

He: "Yes, but I want you to be fair and warmer."

We are equipped to thoroughly clean the finish of your car and remove the film and dirt that collected during the winter, wax the finish like you would do a hardwood floor, and polish with an electric polishing machine.

Why drive in and have us do this for you? The cost of having this done is very insignificant compared to the difference it will make in the looks of your car.

Telephone Operator: "I have your party. Deposit 5 cents, please."

Source (at pay station): "Whaz-zat?"

Operator: "Please deposit your money."

Source: "Listen, girlie, wat I wan's a conversashin from a fren', not financial advice from a stranger."

"My wife says if I don't chuck golf she'll leave me."

"Hard luck, old chap."

"Yes—I'll miss her."

You will not have to give up golf or lose your wife either. Give her a New Model A Ford Town Sedan and have peace and harmony in the family.

Call us for a demonstration.
