

### 9,750 Motor Vehicles In Cleveland Now

Raleigh, July 6.—North Carolinians had 47,113 fewer automobiles this July 1 than they had a year ago, but had 3,000 more motor trucks this year than they had a year ago, and 352 fewer motorcycles, the quarterly count made by the Bureau of Motor Vehicle Statistics, shows. The automobiles now number 319,032, as compared with 366,145 a year ago; 54,242 motor trucks now as compared with 51,242 a year ago, and 765 motorcycles now as compared with 1,119 a year ago.

The count is made by counting so many cards in the file and measuring them, then measuring those for each county and for the entire state, and figuring the number, which is not absolutely accurate, but within at most a dozen of the actual count.

Rarely is a county found that shows an increase this year over last year, most of them reflecting the economic status with a drop in number. The average of automobiles per county is about 3,190, of trucks about 542 and of motorcycles is less than eight.

**County Record.**  
Cleveland county, the records show, had 5,990 automobiles and 710 trucks on July 1, this year, as compared with 7,400 automobiles and 725 trucks on July 1, 1930. Owned by non-residents, but registered here, were 2,525 automobiles and 895 trucks last year, as compared with 2,450 automobiles and 970 trucks this year, throughout the State.

### Pneumonia Invited by Neglect and Exposure

To Go to Work with a Fever or Heavy Cold Is to Tempt Serious Illness, Warns Authority, for with Lowered Resistance Germs Quickly Multiply

By ROYAL S. COPELAND, M. D.,  
United States Senator from New York,  
Former Commissioner of Health, New York City.

ALL your life you have been told "An ounce of prevention is worth a pound of cure." This is particularly the case as regards the so-called minor infections.

It is far wiser to take immediate care of a simple cold or cough than to run any unnecessary risks through neglect. It is unfortunate that most people do not pay enough attention to the common cold.

Dr. Copeland.

This is true, too, of bronchitis and sore throat. Usually these infections, even if they are mild in their symptoms, are associated with the "pneumococci," the germs of pneumonia. They are always on watch to pounce on a person run down in health.

Persons suffering from severe cough, or any other respiratory difficulty, should go to bed. If there

is temperature, this precaution becomes imperative.

Going to work with a fever is a foolish and dangerous practice. Exposure to cold, over exertion and fatigue under such circumstances are likely to result in serious complications.

Pneumonia is an infection which may be spread from man to man through the secretions of the nose and mouth. On this account, it is important that all cases of pneumonia be carefully isolated. This can be accomplished at home, but it is far easier to care for such cases at a hospital where all modern facilities are available.

This disease is most fatal in the aged and young. On this account, extreme precautions must be taken for their protection.

Cold, wetting and chilling must be avoided. Undue exposure, over exposure, lack of sleep and undernourishment help to lay a foundation for this disease. With efforts at avoiding these disturbing factors, the frequency of this disease will be decreased.

Do not forget that neglect of the common ailments, particularly in the very young and old, may really be the chief cause of pneumonia. Indeed, it will be wise to use the ounce of prevention.

### Ocean Fliers

Captain George Emires (upper), and Captain Alexander Magyar are ready to hop off from New York for Budapest, Hungary, via Harbor Grace, Newfoundland, in their special low wing monoplane named "Justice for Hungary." The intrepid Hungarian airmen have been balked several times by unfavorable weather.

### Both National Parties In Debt

Finances Depleted As Politicians Begin Looking At 1932.

Washington.—National political leaders are finding it kind of hard to keep their new high-powered machines running through the dull season.

It is a question of money, and both Republicans and Democrats have run into "hard times." Ways of keeping the treasury filled in the off-year of political campaigns is occupying attention of the party chieftains.

Joseph R. Nutt of Cleveland, G. O. P. treasurer, conferred here last week-end with the Republican high command and it is understood that he said the bottom was in sight in the old money barrel.

The last report of the Democratic National Committee showed a loan had been required from Chairman John J. Raskob.

"I am all right," Nutt said, "but I guess we will have to have a little more before the summer is over. Of course, we don't need much now except for maintenance of headquarters here."

For the first time in history, both parties are now maintaining permanent national headquarters with staffs, including publicity directors. Such headquarters require money.

While the Democrats and Republican leaders are satisfied that permanent organizations with publicity directors are essential and are pleased with the results, they have found that it is not so easy to get money when a campaign is not actually in progress.

Both national committees have laid plans for getting the usual contributions for the vital presidential campaigns, but their respective treasurers have been taxed by the new problem of raising money when there is no glare and tumult of the election work.

### MR. TOWERY REPORTS A COTTON BLOOM ON 3RD.

W. J. Towery, enterprising farmer living on Route 4, Shelby was showing a new cotton bloom which he found in his fields of the 3rd of July.

### ALL DOWN BUT ONE

"Girard" in Philadelphia Inquirer. Cost of nearly everything has fallen very much except the high cost of being sick. A business man was talking about this in the presence of a physician.

"My sister," said the former, "is in a hospital awaiting an operation. She pays \$10 a day for her room and \$7 a day for a nurse."

Physician's fee and surgeon's tax are other items sure to be plenty. But \$17 a day—\$119 a week—for room and nurse in a hospital make such accommodation a luxury for millionaires.

Only the extremely poor who need pay nothing or the very rich who can pay anything alone may enjoy hospitals without the danger of bankruptcy.

You read every day of endowments to hospitals, and yet hospitals charges keep soaring.

Vice President Marshall made a mistake. What this country needs most is not a good 5-cent cigar but hospitals for incomes ranging from \$3,000 to \$10,000 a year.

Where the sweet potato beds were covered with cheap fabric treated with linseed oil, the plants were about ten days earlier, reports W. A. Peebles of Apex, Wake County, who bedded 300 bushels this spring.

Robert L. Fritts of Tyro township in Davidson County harvested 567 bushels of barley from seven acres of land.

The Wilkes County apple crop is in good condition and indications are that a big yield will be harvested this fall.

The corn and vegetable crops of Buncombe County have been seriously damaged by lack of rainfall this spring.

### Cottons For Sunny Days

THE vogue for white continues with unabated popularity. This summer when you think of white you instinctively think of cottons. One reason for this is that white cottons are so cool and comfortable. They are washable and above all they are the acme of economy.

The versatile younger generation that has a crowded calendar of sports, week-end yachting trips and visits to the country will plunge heavily on the black and white sports frock shown in one of the accompanying photographs. This is particularly smart by virtue of the double breasted jacket blouse—a new feature in the mode for summer. White pique is used for this costume which goes admirably with a smart sailor beret of heavy woven cotton fabric.

The other photograph shows one of the new beach frocks which is just the thing for those hot sunny days so delightful to many who take their sun tanning and swimming seriously. This costume is also of pique and has already scored a great hit in smart European resorts with indications that it will enjoy pronounced favor in summer wardrobes in this country.

Did anybody mention price?

- Do you knock on wood every time you set out for an airing in the car?
- Is your heart in your mouth when you swing into a curve at a little more speed than the law allows?
- There's nothing like a set of junky old tires to take the joy out of driving.
- Why worry about blowouts when you can buy sturdy Goodyear Pathfinders at present levels?
- Never in the history of the automobile has tire mileage been priced so low.
- Expert work, Goodyear craftsmanship, long life, safe riding.
- For your information and your peace of mind, run your eye over these prices:

Size	Price Each	Price Pair	Size	Price Each	Price Pair
28x4.00 (4.00-21)	\$ 4.98	\$ 9.60	29x5.25 (5.25-19)	\$8.15	\$15.80
29x4.50 (4.50-20)	5.60	10.90	31x5.25 (5.25-21)	8.57	16.70
30x4.50 (4.50-21)	5.69	11.10	28x5.50 (5.50-18)	8.75	17.00
28x4.75 (4.75-19)	6.65	12.90	29x5.50 (5.50-19)	8.90	17.30
29x4.75 (4.75-20)	6.75	13.10	32x6.00 (6.00-20) 6 ply	11.50	22.30
29x5.00 (5.00-19)	6.98	13.60	33x6.00 (6.00-21) 6 ply	11.65	22.60

### Watch Your Step!

Here's a grizzled veteran who fought for Germany during the World War and who has received an injury to his head, wearing the newly issued yellow bands with three large holes, which warn motorists that the man is mentally deficient and thus unable properly to escape the dangers of "pedestrianism."

### "Not a Solution"

Chancellor Bruening, of Germany (above), has declared that while his country is deeply grateful to the U. S. and President Hoover for his proposal for a year's moratorium of war debts, such a plan is only "a short breathing space, but not a solution." He added that the move would be of no immediate aid to Germany, either.
