DR. THORNTON'S BLACK-DRAUGHT

"I have used Black-Draught... and have not found anything that could take its place. I take Black-Draught for biliousness. When I get bilious, I have a nervous headache and a nervous, trembling feeling that unites me for my work. After I take a few doses of Black-Draught, I get all right. When I begin to get bilious, I feel tired and run-down, and then the headache and trembling. But Black-Draught relieves all this."—M. G. Hendrix, Homerville, Ga.

How One Woman Lost 10 Lbs. in a Week
Mrs. Betty Luedeke of Dayton, writes, "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

To take off fat easily, safely and quickly take one half teaspoonful of Kruschen in a glass of hot water every morning before breakfast — an 85 cent bottle lasts 4 weeks—Get it at Stephenson Drug Co., Cleveland Drug Co., or any drug store in America. If this first bottle fails to convince you this is the easiest, safest and surest way to lose fat—money back.

Step out of any other low-priced car, step into a Chevrolet, and you'll learn what a difference six cylinders make.

"Idle" the engine—and the whole car remains steady. Open the throttle—the power flows evenly. Accelerate—throttle down—go fifteen or fifty—and this smoothness stays with you whatever you do. For six-cylinder smoothness is built into the motor—and objectionable vibration never even starts!

Yet smoothness is only part of your six-cylinder experience. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smooth-

ness doesn't tire the driver or passengers. There's greater flexibility, because the power-impulses of a six overlap. And response is more positive, performance more elastic. A six is much easier to handle!

And particularly, if you raise the hood of a Chevrolet and watch the engine running smoothly and steadily, you'll realize that six cylinders also mean greater dependability.

You owe it to yourself—to see and drive a Chevrolet today. And remember when you do—that no other car is so economical to operate as the powerful Chevrolet Six!

Twenty beautiful models, at prices ranging from \$475 to \$675
All prices f. o. b. Flint, Michigan, special equipment extra. Low delivered prices and easy G. M. A. C. terms.

Who runs for office on the exterior of your walls never matters, and who is elected, unless he be your new warden or guard or superintendent, should not interest you, and your mother-in-law can't get in very often to tell you how sorry you are and how many times your neck ought to be broken. You don't have to listen to installment agents while in jail, and the price of eggs, gasoline, tobacco, flour, cotton and lingerie mean nothing to you.

During these times of worry trouble, notes, mortgages, bad checks license tags, and other pestilential devices, a first-class jail would be

... Just imagine how wonderful it would be to have your own private cot, and a cell-mate no better or worse than you are, clean linen every Saturday night, clean clothes occasionally, running water, electric lights, meals at regular hours, and plenty of well cooked food that you don't have to pay for. And those guys back home who always stop you and tell you the same old joke everyday can't get in to slobber in your face while performing their so-called funny anecdotes.

... And if you get sick in jail, the doctor visits you free of charge, and if you cuss in jail, a preacher will come in and pray for you and not take up a collection, and if you die in jail, your country or state has to bury you without pestering your wife and family with undertakers bills. Tub and showers baths, plus soap and towels, are free and expected, and just think of it—no community service or foreign mission drives are ever put on in jail.
