Free For Once

Teeball—Did you make the most of it when your wife went away on a trip and left you alone in the city?

Feeve—Did I? Say, I dropped ashes all over the rug, brought mud in on my feet and never took off my hat until I felt like it.

"If I got constipated, I would get daisy and have swimming in my head. I would have very severe headache."

"For a while I wouldn't take anything—maybe I could wear out the headaches; but I found they were wearing me out."

"I found Black-Draught would relieve this, so when I have the very first symptoms, I take Black-Draught and now I don't have the headache."

"I am a firm believer in Black-Draught, and after using it 30 or more years, I am satisfied to continue its use."

Baby Killings Light Flame of War on Gangs

U. S. and New York Join Hands in Greatest Battle Against Crime Ever Seen. Lawlessness Cost Gotham 55 Million in 1930

Blase Mr. Chizen, smugly complacent in the belief that he and his are safe from ruthless gangland—and if policemen are kill in the performance of their duty, well, what of it?—has finally become aroused to a pitch of righteous indignation which should, unless all signs fail, remove the blot of murderous crime from the first city of America. The momentous event which has accomplished this feat was the shooting down of two innocent babes, Michael Vengalli, 5, and Gloria Lopez, 3 1-2. Underworld guns never before had entered the sacred precincts of babyhood to take their toll. Now that they have, Public Opinion says they must pay for it. The latest outbreak of bloody violence in New York, which claimed the life of pretty little Gloria, also snuffed out those of Policemen Walter J. Webb and Edwin V. Churchill. They died in performance of duty, protecting a payroll and trying to apprehend the bandits, but their deaths, alone, 'tis feared, might never have aroused the public mind. But slain children, that's different. It may be that a "little child shall lead" New York to such dynamic action that its slate will be cleaned and safety and confidence restored to its citizenry.

Ma—Well, it's a good thing you got home when you did. Kept supper waiting all night. I had it on the table at 7 o'clock, and you came polling in at midnight, 7:30. You men don't ever think of us women. We work and have all day and all night, and you hang around down town.

Pa—But, -er, -er.

Ma—Don't but-er me. I know where you were. Jimmie, turn that cat's tail a-loose. Willie, put your daddy's pipe down. It ain't fitten to have in nobody's mouth. And furthermore, I asked you to match a piece of pajama-cloth, and you never even thought of doing this little favor for poor me, and I'm so tired I don't know what to do.

Pa—But, pl-

Ma—Wassent for me to look after things around the house, we'd be in the county home in 6 weeks. Quit rocking on that cat's tail. Sallie, for the love of Mike, tune in on something else. I am sick and tired of hearing about toothpaste and cigarettes. Oh, that's worse. Try WOW and see if Wenny-Keenie, the twins, is on. They are just grand, and they always send a feller a bottle of liver pills on request.

Pa—By the way, -er.

Ma—Su, gimme them scissors this minute, Tom—please quit smacking your mouth so loud. You act like you have got the only piece of chewing gum in captivity. And, it does seem to me, that you could manage some way to get us a new car. Everybody else has one, and if you was worth the lead and buckshot it would take to shoot you, we could have something. How To Become Prosperous Again

I have hatched up a plan to bring prosperity back to America. It is not copyrighted. It will work while you sleep. It won't hurt anybody. It will help everybody except politicians and public officeholders, and they don't need any help. Here it is in plain English:

2. Load all of the battleships in the world with wheat and sink it and them into the depths of the Gulf of Mexico. This will furnish food for edible fishes, and will at the same time have a tendency to reduce the over-plus of the bread-making products.

3. Reduce the salaries of all government employees to what they could make if they were working for a corporation or a firm or an individual, thus putting them on a basis of what they can earn instead of what they can get. This alone would reduce the tax burden of the country by \$3,555,777,888.99.

5. Stop issuing bonds. Jail office-holders who spend money that is not their or the state's for current expenses—until they get it in hand from taxable sources. In other words, officers who create current indebtedness without due authority from the voters should be made to pay such indebtedness, or be kept on the chargin' till their family paid for it.

6. Outlaw installment buying until the Democrats get back in power. (A man can do what he promises while the Democrats are in power). Deed all personal and real property to the tax commissions and the power companies and the insurance companies. They will ultimately own it anyhow, so why the suspense and expense. Yep, them's my ideas. We should all be tenants.
