

Hollywood Girls To Play Baseball With Forest City

Team Of Comely Damsels To Meet East Forest City-Alexander Club Friday Night.

Baseball fans of Forest City will have an unusual spectacle unfolded before them Friday night at 8:15 p. m. when the Hollywood Movie Stars all girls baseball team meet the Alexander club at Forest City, Alexander field park.

In fact there will be two spectacles as several prominent motion picture players will make a personal appearance on the diamond before the game and the girls who participate in the game are all movie players themselves.

The Hollywood Movie Stars girls baseball team was the original idea of a group of celebrated movie stars. The idea was born in the studios when it was found that many of the younger girls spent a lot of their spare time between pictures playing ball on the lots of the studios.

Several enterprising stars got together and secured the services of Paddy Rya, former member of the New York Glens' coaching staff and trained the squad for two months. The team shaped up far better than ever anticipated and defeated some of the strongest male aggregations on the coast.

It was then decided to put them on the road to show what Hollywood can really turn out in the line of athletics. They left California 17 weeks ago and are still going strong, meeting the toughest opposition all over the United States and proving to the world that the weaker sex isn't so weak.

They back up that statement with a record that shows 47 victories out of 107 games played, all against male teams.

Well, why not? They've learnt to smoke! They hold down jobs that were formerly held by men! They're in politics! They are prominent in sports, especially in track, tennis, swimming and basketball. They've even played a little football. So why shouldn't they become proficient in baseball?

At any rate it should be fun to watch them match their skill against the local boys. And if the girls should win. Well, there will be plenty of alibis floating around town the day after.

The girls are all easy to look at and they have been drawing new crowds to the ball parks. The baseball fans and the movie fans have something in common at last and many a person who has never seen a baseball game before is now a rabid rooster. The girls from sunny California are instilling a new interest in our national game.

Colored Team To Play Night Game

Messrs. Wyte Royster and Paris

Always on the lookout for amusements and entertainments with an appeal to the masses, the Model Shows of America, which will furnish the midway features at the Cleveland county fair this year, have gathered together the very pick of the colored minstrels of the world, and the result has proved to be one of the most enjoyable and acceptable shows of the entire organization.

Thirty performers — musicians, singers, dancers, blue singers, comedians, coonshouters and warblers, with the assistance of a sizzling hot jazz orchestra "step on the gas"—and everything in the world of minstrelsy, from the days of the jubilee singers to the refined and clever colored entertainers of today, is presented in a manner which would do credit to a Broadway production.

The happy old time dardies, humming their favorite melodies as they toll midst the cotton fields of dear old Georgia, with a touch here and there of the Spirituals for which their race is famous, offers entertainment of a high order. The grand finale where the audience is asked to be the judge between the present day jazz and the old time melodies always proves to be a riot—with "old time" winning hands down.

Many other high class shows as well as a garden of the newest rides will also be on the midway.
