Mr. and Mrs. L. E. Ligon had as their guests on Sunday the former's sister, Mrs. T. R. Yarbrough, and nephew, Mr. G. E. Murtishaw, and Mrs. Murtishaw, all of Columbia, S. C.

Mrs. J. J. McMurry, of High Point, arrived Tuesday to spend this week with her parents, Mr. and Mrs. S. A. Washburn, and other relatives here.

The greatest desires this winter will be among the laborers in the crowded cities. Farmers may be broke, but they at least have something to eat.

It may be no use, but let us remind prospective writers of articles for publication in The Star that they must sign their names or their contributions will not be printed.

Chicago Bank Quits Business, Pays Off

Says It Can't Make Any Money, so It Pays Depositors in Full And Quits.

Chicago, Sept. 29.—T. B. McGrath Jr. started a run in his own bank and made history thereby.

He wrote all of the customers of the Mayfair State Savings Bank, owned by him, that the bank was not making any profits and that he had decided to close it.

State Auditor Oscar Nelson said it was the first time in the history of the United States that a bank was closing voluntarily.

The tall, slender McGrath, called by one of his depositors the "most honest man in the world," told the story of the Mayfair bank thus:

"I fell for this bank business and I'm going to fall out of it. I'm closing simply because it isn't profitable. Last April we had deposits of \$2,000,000. Then there was a flurry of bank failures and our deposits dwindled to \$600,000.

"Last April we had 400 empty safe deposit boxes. Now they are all filled by people who withdrew their money from savings accounts and put it in the safety vaults.

"Some of the reports made to us were hard to believe," Professor Darst said. "But when one spends a day on a particular farm, he learns that they are true.

"In this day of apparent distress on many farms it is a great relief to meet personally some of the several prosperous Piedmont growers," Professor Darst said.

The lespezeza seed producers are quick to see the advantages of seed certification and are developing a new industry for the state, the expert said.

There is a great demand for pure lespezeza seed, free of noxious weed seeds and other mixtures and North Carolina is rapidly getting into a position to be able to supply such seed all over the nation.

"Some of the men who are now growing the crop for seed are just itching to cut it for hay," he said. "I also saw one of the finest fields of corn in Rowan county that I ever expect to see anywhere which was produced by plowing under a crop of lespezeza and sweet clover.

"Whether raw, cooked, or canned, ripe tomatoes contain valuable food elements that are necessary for good nutrition and when grown and canned at home, provide an inexpensive food," Miss Thomas said.

Mr. and Mrs. J. B. Frances of Shelby visited Mr. and Mrs. Johnnie McSwain Sunday afternoon.

Bricklayer And Mill Man Debate

The Daily News Record of New York, which mill executives of this section swear by and sometimes at relate a story that it knows to be true and one that should interest, and perhaps benefit, every Piedmont reader.

It tells of an important cotton mill president, a man who is very well known to most of us, and also a man whom we all regard very highly. He was visiting one of the leading Southern cities, so the story goes, and was accosted on the street by a man who asked for some money.

The mill man became interested and asked what kind of work this fellow was doing. He said he was doing brick-laying, and couldn't get work any more, because the negroes would do it for so much less.

The beggar went on with his damning, he damned Hoover and he damned the politicians, he damned everybody.

The beggar looked up in horror. To have all those men thrown out of work—and that would happen to all their families—what a catastrophe it would be!

Before long, the beggar was putting up a staunch fight for the workers of the mill, and arguing vociferously with this executive to have him continue operating his plant, even if he couldn't make money, just to take care of the people who were working for him.

The whole thing wound up as follows: The mill man agreed to keep his mill going to make a profit if he could, in order to see that his people were not forced to suffer deprivation through loss of their jobs.

On the other hand, the beggar agreed to go out and look for work, and if he couldn't get it at his own price, to take whatever he could get, rather than to go around doing nothing and damning everybody and everything.

The Piedmont has an idea that most of us, whether mill men or bricklayers or whatnot, whether in office, store, factory or shop, would lose nothing by reading that again and by meditating upon it.—Greenville Piedmont.

Columbia, Sept. 28.—The legislature finally went home to stay until next January—it is devoutly hoped at least—after a special session which the state and the farmers no good whatever, it is certain, and whether it did the politicians who compelled it and ran it any good in problematical in the minds of many experts of that profession.

It passed a law prohibiting under heavy penalties the planting of cotton in this state next year—provided something occurs which can not possibly occur.

It passed another law appropriating considerable money for an investigation of the cotton seed industry, which is good for some people at least, for it provides several paying jobs in hard times.

It did not pass any proposed law to curtail the acreage in cotton in 1932, in parallel with the Texas law.

It did not pass a law providing a bond issue to secure \$15,000,000 to be loaned the farmers on their cotton crop.

The senate tacking that last measure into the bill for the curtailment of acreage and insisting on keeping it there, probably was the cause of the curtailment measure failing to pass.

Not many members except Senator Edgar Brown favored the \$15,000,000 measure—both Senator Edgar Brown from Barnwell is a master politician who was able to keep it alive as under consideration to the very end, even after it was hatched out four or five times.

The special session also passed

Wonder what has happened to the good old custom that the good old time boss had, of putting an extra five dollars in the pay check?

We admit that we know nothing about them but we have often wondered how some women could smile while talking a sarcastic fling at another sister.

One trouble with moving pictures is that the producers seem to know nothing about what small town people like. Moreover, they seem to care less.

Gossips

"Mr. Wray, that pair of AAA's I was fitted in here last week—Well, they just feel so comfortable, I wouldn't take twice the price I paid."

Common Occurrence "Mr. Wray, we want another pair of Star Brand shoes, like we got last fall. Yes sir!"

"Here we are with the whole family for our shoes—Billy, Sue, Mary, Fred, Annie and Jack."

Wray: "Well, we are always glad to see our folks."

"Just come downstairs to our juvenile shoe department."

"My, such a nice place you have here! Children, just look at the solid leather shoes. No paste board in a pair of Wray's Star Brands."

"So this is Wray and 6 Sons' Store? You bet! Customer to Wray—"

"Pardon me, but how long have you folks been selling these good solid leather shoes here in Shelby?"

Wray: "Over twenty-one years."

"Is Victor or George in? I am enjoying the races at the big Cleveland County Fair, and while here in town, I dropped in to get a pair of those snappy young men's shoes to suit with my new Sunday go with me shoes."

Wray: "Over twenty-one years."

Largest Sea Elephant

It has been said that one of the largest sea elephants in captivity is to be found in the zoo at St. Louis. It requires many pounds of fresh fish for its daily meals.

One hundred and eighty-five thousand pairs of solid leather shoes is the daily capacity of our company—the world's largest manufacturers of solid leather shoes. Sold the world over by the best merchants. Don't take a substitute. Look for the Star on the heel, or our name, "Star Brand."
