

Morrison Speaks At Rutherfordton

12,000 Hear Senator Praise Woodrow Wilson and League Of Nations.

Rutherfordton, Nov. 11.—More than 12,000 people enjoyed the Armistice celebration held here today, sponsored by the American Legion. The weather was perfect. The mile-long parade featured the opening of the celebration.

Supt. B. P. Caldwell, of Cliffside schools, introduced Senator Cameron Morrison as the man who made possible a ribbon of concrete across North Carolina.

Senator Morrison was at his best and praised the league of nations and Woodrow Wilson. He said Wilson was the most profound scholar and thinker of the age. After the world war, Wilson organized the world for peace and all leading nations joined the league except the United States and Mexico. Wilson organized a sensible plan to prevent war, continued Mr. Morrison.

Five hundred and sixty soldiers were given free dinner at noon by the legion auxiliary.

Rutherfordton-Spartan defeated Tryon high school in football 19 to 0. Jack Cunningham, of High Point, defeated Ambros Taylor (both negroes) in the sixth round in boxing before 5,000 people.

A packed house heard the fiddlers' convention tonight.

The only serious accident reported was the death of Thomas Wilkerson, negro, of Chimney Rock, who was killed on highway 20 at noon when his car turned over. Clyde Ledbetter, white, of Chimney Rock, who was with Wilkerson, was seriously wounded. Fast driving was reported to be the cause of the wreck.

Wizard Control Features New Line of Buick Cars

The new Buick Eight for 1932, introducing "Wizard Control," a feature that embodies principles never before employed in automobile engineering, is now being presented at every Buick dealer's showroom in the country. This new feature is declared to be the greatest automotive achievement since the self-starter.

Wizard Control results from a new method of car control through the use of an automatic clutch, power-operated and controlled by a floor-button, with free wheeling and a new synchro-mesh transmission with silent second gear.

Buick's 1932 presentation includes an extensive variety of twenty-six body models, on four different chassis, with wheelbase dimensions of 114, 118, 126 and 134 inches, respectively. This is the most complete line that Buick has ever offered at one time. The modish, smart Fisher bodies are extremely low-slung and graceful in appearance, with a host of interior and exterior refinements, including parking lamps on front fenders, pointer type speedometer, inside adjustable sunshade, new hardware and interior trim. New exterior improvements include new radiator, new hood with door type ventilators, two horns mounted on lamp brackets, two tail lamps mounted on rear fenders and new single bar bumpers.

There is a newly-developed ride regulator, easily and instantly operated by a handle on the steering column, which enables the driver to obtain riding comfort on any kind of road, at any speed and with any number of passengers. Setting a new trend is the new instrument board with all of the instruments grouped at the left, directly under the eyes of the driver, and made extremely visible through the use of the new three-spoke steering wheel. The right of the instrument panel has been converted into a commodious compartment.

The new valve-in-head straight eight engines offer optional high compression. The cars are equipped with improved starting, carburetion and fuel supply system, improved oil temperature regulator and a new vacuum pump giving positive windshield wiper action at all speeds.

Vacuum from the intake manifold, always available when the engine is running, operates the automatic clutch. It is controlled by a touch of the foot upon the floor button, making possible smooth gear shifting without use of the clutch pedal, with instantaneous change back and forth from free wheeling to conventional control, as desired.

The conventional clutch pedal is retained, and yet it need not be used in shifting gears unless the driver so desires, save when making a cold start or perhaps when parking in close quarters. Free wheeling is obtained simply by depressing the button and releasing the accelerator. Release the button or depress the accelerator, and the clutch engages again, making positive connection with the engine.

Students Form Debating Club In City School

Society Formed For Purpose Of Training Students To Express Their Thoughts.

(Caleb McSwain, Reporter.)

Students of Shelby high school together with the assistance and cooperation of Misses Jetter and Mulholland, both of whom have had very valuable debating experience, have formed a very interesting debating club. The debating club is to be called the J. C. McNeely Debating Club, in deference to Mr. McNeely's award of five dollars to the best debater in the club.

The club was formed for the purpose of training students to reason intelligently, and to express their own thoughts clearly and forcefully. Shelby representatives in the triangular debate to be held in February, will very probably be selected from the members of this club. Misses Jetter and Mulholland are debate coaches. Each has much knowledge of debating, gained through practical accomplishment, and each is a very capable debate leader. Officers of the club are these: Edwina Gidney, president; Esther Ann Quinn, vice president; Bill Bailey, secretary; Bill Broadway, treasurer; Caleb McSwain, reporter.

Meeting Held. A meeting of the debating society was held Wednesday morning at 11:50. A very interesting debate was held at this meeting. The query of the debate was "Resolved, That all honor roll students should be allowed to go home the third or sixth period, provided they have made the honor roll the preceding month." Those representing the affirmative side were Joe Blanton and Caleb McSwain; those representing the negative side were Esther Ann Quinn and Sarah Williams. Many interesting points of arguments were presented by each side. Student judges declared the affirmative side to be the winner of the debate. They also declared the individual winner to be Caleb McSwain.

An effort will be made to have debating news published each Friday afternoon in this newspaper. The debating society holds regular meetings each Wednesday morning at 11:50 and the public is cordially invited to attend any or all of the meetings.

When we drove that 4-wheeled "palace" down the road the first time, everybody knew that the McGees had arrived. We had the first top buggy, and the first organ, and the first bureau with a looking-glass, and the first swinging lamp, and the first pair of gold specks, and the first patented churning machine that ever came into our township. Yep, we were leaders back then, but we are being led now—by the Joneses.

flat rock locals Mrs. Sallie Pattica had a bad accident to her baby one night last week while it was in her lap. It seems that she dropped some cigarette ashes in little Sallie's eyes and a throat specialist had to come out from town to get them out, both mother and baby are resting well.

The foot ball game last Friday betwixt flat rock and cedar lane ended in a tie, and it will hafta be played off next saddy. The score stood 125 to 129 when it was called, owner count of night, but they claimed that flat rock got only 125 also, and as yore cory spondent was keeping the score, he give in and called it a tie, as it looked like a fight or a tie one.

borned to mesdames Judy Smith and sudie brown, a baby, as follows: a boy by the latter and a girl by the former, and they will ancer to the names of Joe and Effie, they saved \$5 by having the same doctor wait on them at the same time, and they are now glad that they rented places in the same department house, and this has teched them some economy, they will be remembered as Judy green and sudie long before they were married.

a big candy pulling was held by the hale girls in honor of 2 visitors from Jiggsville and they will stay over till Monday, as the said candy pulling on Friday night give them a chance to meet some of our fine boys and they foamed to their mamma what they had done, and she told them to stay on a while longer by all means, and have a nuther candy pulling if necessary to see the boys again, the hale girls always make it pleasant for any company that might see fit to come to see them when their daddy is off from home, as he is now, and they don't know where.

Mr. bolts had the misfortune to have his outhouse blowed over by the recent windstorm, but he has placed same back now and while he was repairing it, he put a new door to it and cut 2 three-clovers in it and painted it green. It will certainly add a right smart to his wife's flower garden which is in her back yard, she will not want a little pond now, as she has got one improvement made at last.

there is no serious sickness in our mist at present, old Mrs. lively thinks she has the t. b., but she has been t. b.ing so for 25 years, there is some cancer and liver trouble around us, but the indian doctor seems to be taking good care of same, if any of them die before next week, I will rite or foam a nice obitwery in for you to print about their remains.

Wheat King

Arthur William Cutten (above), grain operator, is believed to have played a prominent part in the raging bull market that swept wheat steadily up on the Chicago Board of Trade during the last few weeks. In 1927, when Cutten held 15,000,000 bushels of wheat, he profited to the extent of \$12,000,000. Known as a "man of mystery," Cutten is the leading grain operator on the Chicago board.

Prohibition Not A Failure Says Leader

Washington, No. v. 12.—Prohibition Director Woodcock gained considerable encouragement today from the latest statistics on dry law enforcement.

Standing with one foot placed comfortably on a chair, Woodcock faced a group of newspapermen seated around a long table and expressed the opinion that prohibition enforcement is becoming more effective.

As an indicator of this he pointed to figures in a mass of statistics he had before him which showed a heavy drop in the number of federal prohibitions arrest last month. His men made 6,858 arrests in September.

TRUSTEE'S SALE OF REAL ESTATE.

By virtue of the power of sale contained in a certain deed of trust executed by Lucinda Hill and V. J. Hill on July 8, 1930 to me as trustee for the sum of five hundred dollars, said deed of trust by a note due October 15, 1930, said note not being paid at maturity and the holder of same having called upon me to enforce close this deed of trust, I, as trustee, will offer for sale at public auction to the highest bidder for cash at the court house door in Shelby, North Carolina, on December 7, 1931, at 12 noon, the following described real estate:

Known as a part of the old Lewis plantation, adjoining the lands of Mrs. L. E. Stacy, W. D. Lattimore, R. W. Wilson, and A. Lacey and being a part of tract of land being the home place of the said Lucinda and V. J. Hill and contains 14 acres more or less of the original tract conveyed from George Ledford, Sallie Ledford, Eliza Lewis, Thomas Lewis and Susan Lewis to Lucinda Hill, and recorded 25th day of September, A. D. 1919 at 11 o'clock a. m. in the office of the register and clerk of the county, North Carolina, in book EEE, page 198. This land is sold subject prior to all indebtedness.
