

Nobody's Business

By GEE McGEE

News from flat rock.

A right smart of excitement took place in the post office last Friday week when Bill Jones keeled over like he was struck by lightning, he was rushed to the hospital and they first thought he had appendicitis, but it turned out to be gall bladder, they cut it out for 75¢ plus laboratory fee, 15¢, plus 10¢ to the doctor that give him ether, plus 14¢ for blood examination, and the hospital got the balance of his crop for staying their 8 days.

Several of us city farmers are hoping that the Hoover credit plan will do us a great deal of good with our frozen ass sets, right at present my little horse and beef waggin is froze tight to the bank and unless I can get some hepp thru the government, the bank will no out have to go into the beef business with my outfit, I think it is time for the republicans to try to do something toards getting everybody out of the mess they got us into, it looks like it would be a good idea to meet at once and do away with the tariff bill if nothing else, as that seems to be a pain in the neck to our furrin countries.

So far, we have not started any bred line in our little town, and it looks like we won't have to do so

INDIGESTION

"My work is confining, and often I eat hurriedly, causing me to have indigestion. Gas will form and I will smother and have pains in my chest. I had to be careful what I ate, but after someone had recommended Black-Draught and I found a small pinch after meals was so helpful, I soon was eating anything I wanted. Now when I feel the least smothering or uncomfortable bloating, I take a pinch of Black-Draught and get relief."

Theford's BLACK-DRAUGHT

WOMEN who are run-down, nervous, or suffer every month, should take Cardul. Used for over 50 years.

if the folks will only let up a little on otter mobeels and radios, one of my nabors got him a cheap ford last year and attended 4 different bred lines in 4 different near-by towns, and he says he has enough old clothes ansowforth to last him through this winter without bothering the community chist, he might have to beg a little bit of cash to buy gasoleen and tobacco and snuff with, but these are the only need cesaties that he can't get in a bred line.

preaching was held at rehaber as usual last Sunday and good sermunt on lot's wife and a pillar of salt was preached by the reglar pasture, he begged the members never to look back when they started on an errum for good, but went on to say that if we was to have to be punished like she was that the whole country would be cchock full of pills of salt and there wouldnt be nobody to look after nothing worthhale the collection was 65¢ including a due bill from yore humble corry spondent as I did not know till I got to church that my wife had been in my bratches pocket.

well, mr editor—there seems to be no general news, crops is about all gathered and lying out in the yard, as the fords are using the shelters, dr. smith got back from his post graduate course last week and fetched a new machine for cutting out tonsils at one lick for 65¢. It will also remove both addy noids at one time, so if you see anybody who can't talk thru her nose, piece rite or foam himfor an engagement and send her down.

A New Organization.
flat rock, s. C. novem. 19, 1931.
dear mr editor:
you and yore readers will no doubt be suprised to learn that the farmers of this community, including the town of flat rock, have organized a big ass sociation called the "combined farmers and taxpayers league of america" and it has already commenced to funktion.

The purpose of this league is to make better times for the tillers of the soil and milkers of the cows and pullers of the fodder ansowforth and its cheef aim is to fight rotten pollyticks and stop graft in high and low places and get up a flat-form for our officers of the law to run on that will mean something, three following plans was set forth:

1. If any man is ketchted planting over 5 akers of cotton to the plow, he will be turned out of the league and his franchise took away from him.
2. all cotton will be held off of the market till the president, mr. mike Clark, rfd, says sell same and then the league will sell in a body to the highest bidder for cash.
3. wimmen folks will not be allowed to work in the field in anny manner untill they have washed the dishes, strained the milk, slopped the pig, fed the cats, got the chillun off to scholl, platted their

hair, and done the washing.
4. all of the cotton chopping and corn thinning and cotton picking and later diggin will be done by our farm wimmen after they have complied with rule and regeration number 3 herein contained, as heartofear.

all members of the league will for ever abstain from farm relief, government aid, and seed loans, if a farmer bustier buy seed to plant, he ain't fit to run no lantation, and he can't make no crop nohow on cred-diek anny more. (done and ratty tied by the members duly assembled in the scholl audy torum).

To Battle in Irish-U. of S. C. Classic

A gridiron classic to delight the heart of the rabid football fan will be the battle between Notre Dame and the University of Southern California on November 21 at South Bend. The Irish have torn through all opposition this season—with the exception of Northwestern, which game ended in a tie—and the U. of S. C. gridgers are considered the most formidable opponents to face the great football machine to date. The game will feature a brilliant galaxy of the most colorful stars in both teams. Captain Tom Yarr of Notre Dame will lead the attack that he hopes will result in a repetition of the 27-6 victory scored last year over Southern California. With Joe Kurth at right tackle and Marchmont Schwartz in the halfback position, where he has played such perfect football that he is well in the running for the All-American, the Irish will take a lot of stopping. The Californians, too, have their stars, for Gus Shaver will be out there maintaining his reputation as one of the finest quarterbacks on the Coast. Captain Stan Williamson will, as usual, play the center position, where he will match brain and muscle with the dooughty Mister Yarr. Then there is Orv Mohler, who has built up quite a name for himself as ball-carrier. Yes sir, it's going to be some game. The winner? Your guess is as good as anyone's.

I SPECIALIZE In Examination of the Eyes and Fitting Glasses

Dr. D. M. Morrison, Optometrist
Woolworth Building - Shelby, N. C.

Don't Send Your Children To School Without Having Their Eyes Examined

You can't expect children to be good students if their sight is poor, and their health is also to be considered. We make a small charge for examination and if glasses are needed we supply them at a minimum cost.

Eyes Examined, Glasses Fitted And Repaired

There is no guess work here—scientific instruments are employed by one who is experienced in their use. When the defect is found, it is only a matter of correction. Don't take chances with your eyes.
