Woman Declares Rouge Necessity In Business Life

Philadelphia.—Are cosmetics luxuries, as legislators classify them, or are they necessities?

Philadelphia society leaders and business women say they are necessities. They expressed their opinions on a bill introduced at the special session of the state legislature to tax cosmetics sales 10 per cent on the ground that they are luxuries. "Cosmetics are as much a necessity as toothpaste," said Mrs. Pauline B. Peters, president of the Philadelphia Club of Advertising women. "They are a necessity because a good appearance is a necessity—a business necessity."

Declared Mrs. H. Maurice Snyder, clubwoman and former chairman of the Juniors for the State Federation of Pennsylvania Women: "Rouge, powder and lipstick are psychological necessities. I think the importance of a woman's looking well lies in her looking well to herself. Her morale is boosted 100 per cent when she does."

A member of the Junior League, Mrs. William L. Van Leer, described cosmetics as an essential "part of a woman's physical hygiene." The only dissenting voice was raised by Dr. Gladys Ide, psychologist, director of special education in the Philadelphia public schools. "Cosmetics are out-and-out luxuries," she declared. "The world has always used them as a part of the equipment of sex allure but the bulk of the people in the world have always got along without them. You can't make a necessity of something that most people can get along without."

Experts say this isn't the worst depression this country has known. But everybody will admit it's the best.

The "perfect stenographer" says a powerful puff is as important to a woman's success as a typewriter. Yes, it helps her click.
