

### Double Shoals News Of Week

Christmas Tree And Program At Methodist Church, Baptist Teachers and Officers.

(Special to The Star.) Double Shoals, Dec. 22.—Christmas day is just about here. The spirit is already in action. A small Christmas tree for the Sunday school teacher and children was given Sunday at the Baptist church. A large crowd was present. Songs and speeches were also enjoyed.

There will be a Christmas tree and program Thursday night beginning at 7 o'clock at the Methodist church. The pastor, Rev. E. E. Snow of Fallston has promised to be present and will speak on the subject of Christmas.

The weekly teachers and officers in their regular weekly meeting at the Baptist church last Thursday night organized the meeting for 1932. For several years this is always done the last of the year. The officers for the teachers meeting are as follows: president, Mrs. B. L. Eskridge; vice-president, Mr. Loyd Cook; secretary, Mrs. Clyde Cornwell; teacher, J. W. Costner; associate teacher, C. M. Spangler. Each week the class is studied and taught together in preparation for the Sunday morning class.

The teacher meeting has proven to be of great value to the church. No church can do its best work and fail to maintain a weekly teachers meeting.

Mr. J. F. Harrelson and daughter, Miss Tula, of Cherryville spent the week-end with Mr. and Mrs. J. W. Costner.

Saturday and Sunday will be regular monthly services at the Baptist church, Church conference Saturday p. m. at 3 o'clock Sunday school Sunday p. m. at 2 o'clock and preaching at 3 o'clock.

### Housewives Told How To Get Most For \$1

Washington—The bureau of home economics offers this tip to get the most food for your money.

Divide the food dollar into five parts and spend it for five different kinds of food. It will keep you healthy, too, the bureau adds.

If there are children in the family; but like this 20 cents for milk and cheese, 20 to 25 cents for vegetables and fruit, 15 to 20 cents for bread and cereals, 15 to 20 cents for butter, lard, or other fats and sugar or molasses, 15 to 20 cents for meat, fish and eggs.

A family of adults would need less milk and cheese and correspondingly more vegetables and fruit.

### Sikes To Speak At Scout Meet

President of Clemson College To Speak At Annual Meeting Of Leaders.

(Special to The Star.) Gastonia, Dec. 23.—Dr. E. W. Sikes, president of Clemson college and one of the outstanding educators in the south, will be the principal speaker at the annual meeting of the Piedmont council Boy Scouts of America to be held at the Masonic Temple here on the night of Tuesday, January 12th.

Dr. Sikes is known not only as one of the south's leading educators but as one of its most inspiring speakers as well. Officials of the council consider themselves fortunate in securing him for this occasion.

Attending this meeting will be 250 to 300 of the leading business and professional men in the area comprising the council, the counties of Gaston, Cleveland, Rutherford, Polk, Lincoln, Iredell, Alexander, Catawba, Burke, Caldwell and McDowell. Scout Executive R. M. Schiele of the council reports that there is an unusually keen interest over the entire territory in this coming meeting and that the attendance promises to be the largest in the history of the council.

Ranking second in the list of Boy Scout councils in the southeastern territory of the National Council, composed of the Carolinas, Georgia and Florida, the Piedmont council has more than 1,500 boys under its guidance with more than 400 volunteer leaders.

### Cotton Ginning Ahead Last Year

Washington—Cotton of this year's crop ginned prior to December 13 was reported this week by the census bureau to have totaled 15,358,405 running bales counting 535,337 round bales as half bales and including 7,925 bales of American-Egyptian.

Ginnings to December 13 last year totaled 13,259,413 running bales, counting 48,356 round bales as half bales and including 17,411 bales of American-Egyptian.

Ginnings this year to Dec. 13th, by states follow: Alabama, 1,274,133; Arizona, 62,769; Arkansas, 1,521,986; California, 144,258; Florida, 48,063; Georgia, 1,364,628; Louisiana, 830,977; Mississippi, 1,553,307; Missouri, 212,369; New Mexico, 70,450; North Carolina, 750,271; Oklahoma, 1,106,036; South Carolina, 488,279; Tennessee, 520,752; Texas, 4,764,389; Virginia, 40,845; and all other states, 8076.

### New Prison Camp Ready In Burke

Morganton Dec. 23.—The Burke county prison camp, built and maintained by the state highway commission, was completed last week and is now housing almost its capacity, 75 convicts.

I. D. Hinton, of Goldsboro, camp organizer, has been in temporary charge of the opening and organization of the camp. Ed S. Abernethy, the superintendent, and Yates Giles, steward, assumed their new duties last Saturday.

The camp, a one-story brick structure, can take care of 100 convicts, if necessary, but 75 is considered its capacity. It is located just off Highway No. 18, the site being a part of the county home farm. Mr. Hinton says that he considers the location ideal—well drained, sufficiently secluded and yet very accessible to a paved highway and to Morganton.

Of the 75 prisoners now in camp a few more than half, or around 40 are Burke county men. Buncombe and some of the western counties sent a large delegation Sunday to add to the local recruits.

## Shelby High Outfit Drops First Contest

Rutherfordton Noses Out Shelby 24-21. Shelby Girls Keep On Winning.

The Shelby high basketball outfit lost its first game of the season last night at Rutherfordton when nosed out by the last Rutherfordton five 24-21. The highs had won 4 straight.

The Shelby girls continued their winning streak by taking the center game of the doubleheader from the Rutherfordton girls 15 to 10. Barrels with seven points and Lipscombe with six led the attack for Rutherfordton in the boys' game. Jolley and Jenkins starred for Shelby. Dellinger scored nine points to star for the winners in the girls' contest.

### New Vitamin G Prevents Pellagra

The Daily Diet Should Contain Sufficient Quantities of This Newly Discovered Element.

By R. S. COPELAND, M. D., U. S. Senator from New York, Former Commissioner of Health, New York City.

PELLAGRA has been known for nearly two hundred years. It is only recently, however, that its real cause has become known. It is a disease which involves the skin, but what is more important it causes marked disturbances of the general health.

At one time it was believed to be due to an infection. Now it is known that infection plays no part in its production. The ordinary dietary and hygienic measures which are commonly employed against the transmission of disease do not help to control pellagra.

The United States Public Health Service has shown that this disease is founded on faulty diet.

Pellagra is caused by an inadequate supply of certain food elements, particularly those containing necessary vitamins. When these foods are lacking in the diet the trouble follows. It is because of this fact that this disease is classified with those spoken of as the "vitamin deficiency diseases."

Scoury and rickets are similar diseases. Scoury occurs if the food does not contain vitamin C. Rickets is produced where there is a lack of vitamin D. Any diet which does not supply sufficient amount of "vitamin G" will cause pellagra.

Such foods as fresh lean meats; lard, milk, canned salmon and commercial wheat grain have been found to be exceedingly rich in this protective vitamin. Eggs, canned haddock, dried beans, soy beans, dried milk and tomatoes have been found of value in guarding against this disease. They must be consumed in considerable quantities in order to supply the necessary amounts of vitamin G.

Keep the Diet Variable

Corn products, wheat flour, rye flour, oatmeal, salt pork, the commercial lard substitutes, butter, corned beef, sweet potatoes and white rice are exceedingly deficient in their content of this vitamin. It has been observed repeatedly that diets consisting of these foods are likely to show signs of pellagra.

In most sections of this country the diet is a variable one and insures an adequate supply of the necessary elements. That is why pellagra is not so common here as it is abroad.

### Boom Started For Baker Nomination

Cleveland, O.—Former Congressman Martin L. Davey, of Kent, has mailed letters to 40,000 Ohio Democrats urging immediate formation of Kaker-for-President clubs and outlined a plan to elect Ohio's Democratic delegates pledged to support Newton D. Baker.

"It is perfectly obvious that Mr. Baker is not a candidate," Davey's letter said, and added: "It is equally clear, however, that he has never said he would not accept the nomination."

Earlier in the month Davey issued a statement urging the drafting of Baker as the Democratic nominee.

At that time Mr. Baker said he understood Ohio's delegation would go to the convention pledged to Governor White.

### Proper Food Needed for Growth

School Lunches Have Done Much to Raise the Health Standard of Children, Says Authority.

By R. S. COPELAND, M. D., U. S. Senator from New York, Former Commissioner of Health, New York City.

NORMAL growth of a child is the most important function of his life. He must grow mentally as well as physically. Growth cannot be hoped for without proper nourishment.

Popular interest in the nutrition of the school child has grown tremendously. An important topic at the recent convention held in Washington was the problem of school lunches and proper nourishment for the school child.

In former years the school physicians and nurses were interested primarily in the mere appearance of health. Today, in addition to this, they are concerned in the real state of nutrition. When this is established, they know good health is insured.

It is agreed that the problems of nutrition and health must be included in the general school instruction. This is best accomplished by teaching the parent, as well as the child, just what constitutes wholesome food.

Great advances have been made in establishing classes for undernourished children. These children are grouped together. In addition to their daily school work, they are given a special diet to improve their health.

Milk served during school hours has produced excellent results in overcoming undernourishment. This additional feeding teaches the child the importance of drinking milk.

This practice is of particular value for the child who dislikes milk. Seeing other children drink milk encourages him to do so. It won't be long before he develops a liking for it.

Good health habits must be taught to normal children. It is just as important to correct bad habits in sick children.

The future of the nation depends upon the health of our children. Correct physical and mental growth can be acquired only by proper supervision.

It is hoped that such problems as undernourishment, improper growth, lack of exercise and nutritional disorders will eventually disappear. They will more rapidly disappear under the program now planned for our school children.

### Answers to Health Queries

V. D. L. Q.—How much should a girl of 12½ lbs. 2 inches tall weigh? 2.—What do you advise for constipation?

A.—She should weigh about 115 pounds. This is about the average weight for one of this age and build, as determined by examination of a large number of persons. A few pounds above or below the average is of little or no significance.

2.—Eat simple, well-cooked food. Avoid foods which are rich in fats and starches. Drink plenty of water. Eat plenty of fresh green vegetables, fresh and stewed fruit. Send self-addressed, stamped envelope for full particulars and repeat your question.

K. R. Q.—I am not underweight. I eat plenty of food and have proper rest, yet I am always tired and listless and nervous most of the time. What would you advise?

A.—This may be due to auto-intoxication or abnormal blood pressure. Have the latter tested, so that definite advice and treatment can be outlined. If there is a tendency to sluggish elimination this should have first attention.

Cuckoo. Old Lady—Is this really the train for South Bend?

Porter—Well, Ma'am if it ain't the board of directors, the stationmaster, the signalman, the engineer, the conductor and myself must all be cuckoo.
